

# BRAIN

A JOURNAL OF NEUROLOGY

Volume 142 Part 2 February 2019

## Editorial

227 Editorial. *D. M. Kullmann*

## Scientific Commentaries

228 Oligomers: a hot topic for neurodegeneration and a note of caution for experimental models. *E. Gelpi and M. Colom-Cadena*

231 Brainstem spreading depolarization: rapid descent into the shadow of SUDEP. *J. L. Noebels*

233 Remyelination: a good neuroprotective strategy for preventing axonal degeneration? *P. Villoslada and E. H. Martinez-Lapiscina*

236 The interplay between genetics, cognition and schizophrenia. *M. S. Calafato and E. Bramon*

## Update

239 Towards a better diagnosis and treatment of Rett syndrome: a model synaptic disorder. *A. Banerjee, M. T. Miller, K. Li, et al.*

## Reports

249 Cellular prion protein neither binds to alpha-synuclein oligomers nor mediates their detrimental effects. *P. La Vitola, M. Beeg, C. Balducci, et al.*

255 Brain vital signs detect concussion-related neurophysiological impairments in ice hockey. *S. D. Fickling, A. M. Smith, G. Pawlowski, et al.*

## Clinical Trial

263 Lacosamide in patients with Na<sub>v</sub>1.7 mutations-related small fibre neuropathy: a randomized controlled trial. *B. T. A. de Greef, J. G. J. Hoeijmakers, M. Geerts, et al.*

## Original Articles

276 Key role of SMN/SYNERG1 and RNA-Motif 7 in spinal muscular atrophy: RNA-Seq and motif analysis of human motor neurons. *F. Rizzo, M. Nizzardo, S. Vashisht, et al.*

295 Timed GDNF gene therapy using an immune-evasive gene switch promotes long distance axon regeneration. *R. Eggers, F. de Winter, S. A. Hoyng, et al.*

312 Self-assembling vascular endothelial growth factor nanoparticles improve function in spinocerebellar ataxia type 1. *Y.-S. Hu, J. Do, C. R. Edamakanti, et al.*

322 Gene therapy improves motor and mental function of aromatic L-amino acid decarboxylase deficiency. *K. Kojima, T. Nakajima, N. Taga, et al.*

334 Progression of myelopathy in males with adrenoleukodystrophy: towards clinical trial readiness. *I. C. Huffnagel, W. J. C. van Ballegoij, B. M. van Geel, et al.*

344 Sefpin1, which prolongs the integrated stress response, is a promising therapeutic for multiple sclerosis. *Y. Chen, J. R. Podojil, R. B. Kunjamma, et al.*

362 Prominent role of forebrain excitatory neurons in SCN8A encephalopathy. *R. K. A. Buntan-Stasyshyn, J. L. Wagnon, E. R. Wengert, et al.*

376 Neuronal mechanisms of mutations in SCN8A causing epilepsy or intellectual disability. *Y. Liu, J. Schubert, L. Sonnenberg, et al.*

391 The role of astrocytes in seizure generation: insights from a novel *in vitro* seizure model based on mitochondrial dysfunction. *F. Chan, N. Z. Lax, C. M. Voss, et al.*

412 Brainstem spreading depolarization and cortical dynamics during fatal seizures in *Cacna1a* S218L mice. *I. C. M. Loonen, N. A. Jansen, S. M. Cain, et al.*

426 Demyelination precedes axonal loss in the transneuronal spread of human neurodegenerative disease. *Y. You, C. Joseph, C. Wang, et al.*

443 Longitudinal multimodal imaging and clinical endpoints for frontotemporal dementia clinical trials. *A. M. Staffaroni, P. A. Ljubenkov, J. Kornak, et al.*

460 Polygenic hazard score, amyloid deposition and Alzheimer's neurodegeneration. *C. H. Tan, L. W. Bonham, C. C. Fan, et al.*

471 Polygenic risk score increases schizophrenia liability through cognition-relevant pathways. *T. Touloupoulou, X. Zhang, S. Cherny, et al.*

## Dorsal Column

### Book Review

486 Too many captains. *R. Ross Russell*

### Letters to the Editor

e4 A biallelic mutation links MYORG to autosomal-recessive primary familial brain calcification. *Y. Forouhideh, K. Müller, W. Ruf, et al.*

e5 Could weight loss contribute to the improved mobility with metformin in patients with myotonic dystrophy type 1? *V. Carvalho and J. Martins*

e6 Reply: Could weight loss contribute to the improved mobility with metformin in patients with myotonic dystrophy type 1? *G. Bassez, E. Audureau and M. Peschanski*

e7 Corrigendum
