

BRAIN

A JOURNAL OF NEUROLOGY

Volume 141 Part 9 September 2018

Editorial

2533 Editorial: D. M. Kullmann

Scientific Commentaries

2534 Lost in translation: microRNAs mediate pathological cross-talk between motor neurons and astrocytes. L. Ferraiuolo and P. J. Shaw

2536 TauBI or not TauBI: what was the question? M. Sastre, F. Van Leuven and S. M. Gentleman

2539 Your brain scan may be a reflection of your genes. V. J. Lowe, K. R. Kalari and K. K. Kandimalla

2542 Incorrect trafficking route leads to autism. X. Contreras and S. Hippenmeyer

Review Article

2545 Can neuroimaging predict dementia in Parkinson's disease? J. H. Lanskey, P. McColgan, A. E. Schrag, et al.

Original Articles

2561 Motor neuron-derived microRNAs cause astrocyte dysfunction in amyotrophic lateral sclerosis. M. L. Hays, M. R. Regan, L. A. Jensen, et al.

2576 SYT1-associated neurodevelopmental disorder: a case series. K. Baker, S. L. Gordon, H. Melland, et al.

2592 GDAP2 mutations implicate susceptibility to cellular stress in a new form of cerebellar ataxia. I. Eidhof, J. Baets, E.-J. Kamsteeg, et al.

2605 Predicting cognitive decline in multiple sclerosis: a 5-year follow-up study. A. J. C. Eijlers, Q. van Geest, I. Dekker, et al.

2619 Epilepsyecosystem.org: crowd-sourcing reproducible seizure prediction with long-term human intracranial EEG. L. Kuhlmann, P. Karoly, D. R. Freestone, et al.

2631 High-frequency stimulation of anterior nucleus of thalamus desynchronizes epileptic network in humans. T. Yu, X. Wang, Y. Li, et al.

2644 A functional micro-electrode mapping of ventral thalamus in essential tremor. D. J. Pedrosa, P. Brown, H. Cagnan, et al.

2655 Functional segregation of basal ganglia pathways in Parkinson's disease. W.-J. Neumann, H. Schroll, A. L. de Almeida Marcelino, et al.

2670 Anomalous morphology in left hemisphere motor and premotor cortex of children who stutter. E. O. Garnett, H. M. Chow, A. Nieto-Castañón, et al.

2685 Induction of a transmissible tau pathology by traumatic brain injury. E. R. Zanier, I. Bertani, E. Sammali, et al.

2700 Mammalian prion propagation in PrP transgenic *Drosophila*. A. M. Thackray, O. Andreoletti and R. Bujdoso

2711 Genetic variation within endolysosomal system is associated with late-onset Alzheimer's disease. S. Gao, A. E. Casey, T. J. Sargeant, et al.

2721 The human brainome: network analysis identifies HSPA2 as a novel Alzheimer's disease target. V. A. Petyuk, R. Chang, M. Ramirez-Restrepo, et al.

2740 Microglial activation correlates *in vivo* with both tau and amyloid in Alzheimer's disease. M. Dani, M. Wood, R. Mizoguchi, et al.

2755 Molecular properties underlying regional vulnerability to Alzheimer's disease pathology. M. J. Graffie, J. Sepulcre, G. Gonzalez-Escamilla, et al.

2772 NEGR1 and FGFR2 cooperatively regulate cortical development and core behaviours related to autism disorders in mice. J. Szczurkowska, F. Pischetta, B. Pinto, et al.

2795 Deficits in mesolimbic reward pathway underlie social interaction impairments in children with autism. K. Supekar, J. Kochanska, M. Schaer, et al.

2806 Deficits in context-dependent adaptive coding in early psychosis and healthy individuals with schizotypal personality traits. M. Kirschner, A. Haugg, A. Manoliu, et al.

Dorsal Column

Book Review

2820 The prophet who foretold our future. T. Sejnowski

Letters to the Editor

e66 A novel MCM3AP mutation in a Lebanese family with recessive Charcot-Marie-Tooth neuropathy. M. L. Kennerson, A. C. Corbett, M. Ellis, et al.

e67 Reply: A novel MCM3AP mutation in a Lebanese family with recessive Charcot-Marie-Tooth neuropathy. E. Ylikallio, R. Woldegebriel and H. Tyyntismaa

e68 Optimal use of cholinergic drugs in Alzheimer's disease. S. Gauthier, N. Herrmann and P. Rosa-Neto

e69 Reply: Optimal use of cholinergic drugs in Alzheimer's disease. H. Hampel, E. Cavedo and A. Vergallo for the Alzheimer Precision Medicine Initiative (APMI)

e70 The classification of Charcot-Marie-Tooth diseases, a never-ending story: CMT4! J.-M. Vallat, M. Tazir, L. Magy, et al.

e71 Reply: The classification of Charcot-Marie-Tooth diseases, a never-ending story: CMT4! M. E. Shy

e72 Corrigendum
