ISSUE @ A GLANCE

LDL-cholesterol targets: perspectives for the use of PCSK9 inhibitors

T.F. Lüscher

1337

CardioPulse

The PCSK9 story

M. Abifadel and C. Boileau

1341

What have we learned so far from the biology of PCSK9?

N.G. Seidah

1343

Nabil G. Seidah PhD

A. Tofield

1345

The biology of PCSK9 inhibition: some unanswered questions

G. Lambert, N. Diotel, and H. Tavori

1345

Professor Ulrich Laufs MD

A. Tofield

1347

The annual Northwestern Cardiovascular Young Investigators' Forum in Chicago

A. Tofield

1348

Northwestern Cardiovascular Young Investigators' Forum, 2015 Winners

A. Tofield

1350

CURRENT OPINION

Initiation of PCSK9 inhibition in patients with heterozygous familial hypercholesterolaemia entering adulthood: a new design for living with a high-risk condition?

A. Vuorio, G.F. Watts, and P.T. Kovanen

1353

Replacing statins with PCSK9-inhibitors and delaying treatment until 18 years of age in patients with familial hypercholesterolaemia is not a good idea

G. Langslet

1357

CLINICAL RESEARCH

Vascular medicine

Safety and efficacy of LY3015014, a monoclonal antibody to proprotein convertase subtilisin/kexin type 9 (PCSK9): a randomized, placebo-controlled Phase 2 study

J.J.P. Kastelein, S.E. Nissen, D.J. Rader, G.K. Hovingh, M.-D. Wang, T. Shen, and K.A. Krueger

1360

Editorial

Monoclonal antibodies targeting PCSK9 and the search for prolonged duration of effect

P.M Ridker

1370

AHA FAST TRACK CLINICAL RESEARCH

Lipids

Percent reduction in LDL cholesterol following high-intensity statin therapy: potential implications for guidelines and for the prescription of emerging lipid-lowering agents
P.M Ridker, S. Mora, and L. Rose, on Behalf of the JUPITER Trial Study Group

1373

Editorial

Lower might be better — It matters how you get there, and in whom
J.G. Robinson

1380

CLINICAL RESEARCH

Prevention and epidemiology

Mutations causative of familial hypercholesterolaemia: screening of 98 098 individuals from the Copenhagen General Population Study estimated a prevalence of 1 in 217
M. Benn, G.F. Watts, A. Tybjærg-Hansen, and B.G. Nordestgaard

1384

Editorial

Familial hypercholesterolaemia: a common disease
K.K. Ray and G.K. Hovingh

1395

Coronary artery disease

Patients with familial hypercholesterolaemia are characterized by presence of cardiovascular disease at the time of death
H.W. Krogh, L. Mundal, K.B. Holven, and K. Retterstøl

1398

CARDIOVASCULAR FLASHLIGHTS

Huge left ventricle cardiac fibroma in an adult patient
D. Li, S. Luo, Y. Wang, and Q. An

1369

Electron microscopy reveals morphosis of multi-layered mitochondria in the myocardium of a patient with mitochondrial cardiomyopathy
M. Ikeda, Y. Sezutsu, T. Sakamoto, and T. Ide

1372

Cardiac perforation as a rare complication of acupuncture
O. Wigger, S. Stortecky, H. Most, and L. Englberger

1383
