

ISSUE @ A GLANCE

 **Improving outcomes after acute coronary events: what works and what doesn't**
T.F. Lüscher 2691

CardioPulse

- The Tehran Heart Center**
H. Poorhoseini and S.H. Abbasi 2695
- The Journal of Tehran University Heart Center**
A. Karimi and S.H. Abbasi 2697
- Weekend effect on Acute MI mortality**
F. Lombardi 2698
- Cardiology services in Ethiopia**
C.J. Leuner and A.H. Weldegerima 2699
- Chest compression for syncope in medieval Persia**
M. Dadmehr, M. Bahrami, B. Eftekhar, H. Ashraf, and H. Ahangar 2700
- New Head of Cardiology, Liège University, Belgium** 2702
- EHJ International Associate Editor** 2703

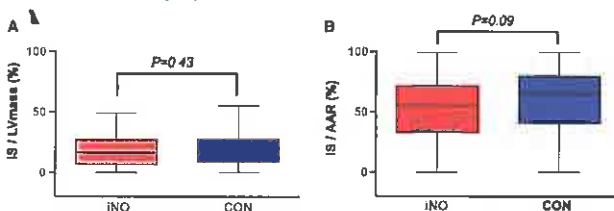

CLINICAL REVIEW

Basic science

Non-coding RNAs in cardiovascular diseases: diagnostic and therapeutic perspectives
W. Poller, S. Dimmeler, S. Heymans, T. Zeller, J. Haas, M. Karakas, D.-M. Leistner, P. Jakob, S. Nakagawa, S. Blankenberg, S. Engelhardt, T. Thum, C. Weber, B. Meder, R. Hajjar, and U. Landmesser 2704

CLINICAL RESEARCH

Acute coronary syndromes

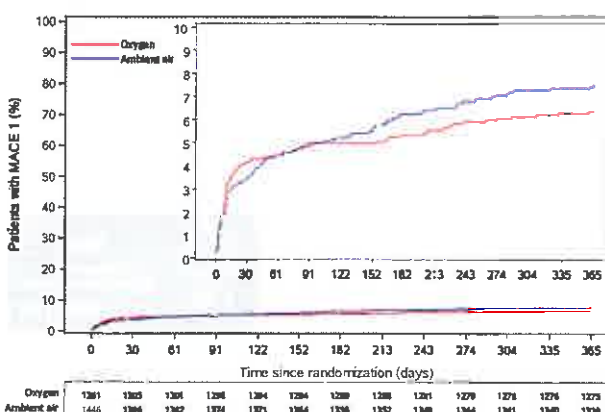

Nitric oxide for inhalation in ST-elevation myocardial infarction (NOMI): a multicentre, double-blind, randomized controlled trial

S.P. Janssens, J. Bogaert, J. Zalewski, A. Toth, T. Adriaenssens, A. Belmans, J. Bennett, P. Claus, W. Desmet, C. Dubois, K. Goetschalckx, P. Sinnaeve, K. Vandenberghe, P. Vermeersch, A. Lux, Z. Szelid, M. Durak, P. Lech, K. Zmudka, P. Pokreisz, P. Vranckx, B. Merkely, K.D. Bloch, and F. Van de Werf, for the NOMI investigators 2717

Editorial

Take a deep (nitric oxide) breath and follow the reverse translational research pathway
M. Lobo and B. Ibanez 2726

Oxygen therapy in ST-elevation myocardial infarction

R. Hofmann, N. Witt, B. Lagerqvist, T. Jernberg, B. Lindahl, D. Erlinge, J. Herlitz, J. Alfredsson, R. Linder, E. Omerovic, O. Angerås, D. Venetsanos, T. Kellerth, D. Sparv, J. Laueremann, N. Barmano, D. Verouhis, O. Ostlund, L. Svensson, and S.K. James, for the DETO2X-SWEDEHEART Investigators 2730

Adjustment of the GRACE score by 2-hour post-load glucose improves prediction of long-term major adverse cardiac events in acute coronary syndrome in patients without known diabetes <i>S. Chattopadhyay, A. George, J. John, and T. Sathyapalan</i>	2740
Editorial On the prognostic value of post-load glucose in patients with coronary artery disease <i>L. Rydén, B. Shahim, and E. Standl</i>	2746
Age and outcomes following guided de-escalation of antiplatelet treatment in acute coronary syndrome patients undergoing percutaneous coronary intervention: results from the randomized TROPICAL-ACS trial <i>D. Sibbing, L. Gross, D. Trenk, C. Jacobshagen, T. Geisler, M. Hadamitzky, B. Merkely, R.G. Kiss, A. Komócsi, R. Parma, S.B. Felix, F.-J. Neumann, J. Hausleiter, M. Baylacher, L. Koltowski, J. Mehilli, K. Huber, Z. Huczek, D. Aradi, and S. Massberg, on behalf of the TROPICAL-ACS Investigators</i>	2749
Editorial De-escalation of antiplatelet treatment after percutaneous coronary interventions for acute coronary syndromes: is less more? <i>O. Varenne and P.R. Sinnaeve</i>	2759

CARDIOVASCULAR FLASHLIGHT

Multifocal bilateral palmar and digital varices <i>G. von Olshausen, D. Pfeiffer, A. Müller, and T. Ibrahim</i>	2762
