Vol. 154, No. 1

January 2018

TABLE OF  
CONTENTS

## Contents

### ON THE COVER

See Bellido et al on page 181 for further information.

### GASTROENTEROLOGY'S DIAMOND ANNIVERSARY: 1943-2018

- 1 The 75<sup>th</sup> Diamond Anniversary of *Gastroenterology*: 1943-2018  
*R. M. Peek and D. A. Corley*

### COVERING THE COVER

- 6 *A. T. Chan and C. S. Williams*

### MENTORING, EDUCATION, AND TRAINING CORNER

- 8 Living Like an Academic Athlete: How to Improve Clinical and Academic Productivity as a Gastroenterologist  
*E. I. Benchimol and R. Keijzer*

### EDITORIALS

- 15 Copper Directly Affects Intestinal Lipid Turnover  
*K. H. Weiss and H. Zischka*  
See Pierson H et al on page 168.
- 17 The Role of Transforming Growth Factor- $\beta$  in Human Hepatocarcinogenesis: Mechanistic and Therapeutic Implications From an Integrative Multiomics Approach  
*J. U. Marquardt*  
See Chen J et al on page 195.
- 20 New Models to Study Hepatitis E Virus Replication and Particular Characteristics of Infection: The Needle Hides in the Hay Stack  
*Y. Debing, M. A. Schmid, and J. Neyts*  
See Montpellier C et al on page 211.

CME quiz Editorial accompanies this article Additional online content available Cover

Publisher: *Gastroenterology* (ISSN 0016-5085) is published monthly (semi monthly in January and May) in two indexed volumes by Elsevier Inc, 230 Park Avenue, New York, NY 10169-0901, USA. Periodicals postage paid at New York, NY and additional mailing offices. POSTMASTER: Send address changes to Elsevier, Journal Returns, 1799 Highway 50 East, Linn, MO 65051, USA. 2018 US subscription rates: individual, \$711.00; student and resident, \$271.00. Outside of the U.S. and possessions: individual, \$968.00; student and resident, \$562.00; surface delivery, no additional charge; air mail delivery, add \$78.00. Prices subject to change without notice.

**GASTROENTEROLOGY IN MOTION**

- 23 **Rendezvous Biliary Recanalization of Complete Biliary Obstruction With Direct Peroral and Percutaneous Transhepatic Cholangioscopy**  
M. A. Bukhari, Y. Haito-Chavez, S. Ngamruengphong, O. Brewer Gutierrez, Y.-I. Chen, and M. A. Khashab

**CLINICAL CHALLENGES AND IMAGES IN GI**

- 26 **A 41-Year-Old Man With Abdominal Pain, Deranged Liver Function, and Fevers**  
*J. B. Maurice, D. Yu, and J. Watkins*
- 28 **Cullen's Sign: Not Always Acute Pancreatitis**  
*R. O. Ximenes, J. P. Vieira Costa, and K. T. Pereira e Silva*
- 30 **An Extremely Rare Cause of Dysphagia**  
*L. Carvalho, A. R. Herculano, and C. Chagas*
- 33 **An Unusual Cause of a Retroperitoneal Fluid Collection**  
*S. Kakar, C. E. Manzo, and J. G. Hashash*

**ELECTRONIC CLINICAL CHALLENGES AND IMAGES IN GI**

For a full list, please see the table of contents online at [www.gastrojournal.org](http://www.gastrojournal.org).

**PRACTICAL TEACHING CASE**

- 35 **A Life-Threatening Cause of Colitis**  
*T. S. Jaswani, D. J. Grider, and M. J. Bern*

**REVIEWS AND PERSPECTIVES****Reviews in Basic and Clinical Gastroenterology and Hepatology**

- 37 **Population Health Management for Inflammatory Bowel Disease**  
*P. S. Dulai, S. Singh, L. Ohno-Machado, and W. J. Sandborn*
- 46 **Historical Perspectives and Advances in Mesenchymal Stem Cell Research for the Treatment of Liver Diseases**  
*C.-W. Lee, Y.-F. Chen, H.-H. Wu, and O. K. Lee*

**ORIGINAL RESEARCH****Brief Reports**

- 57 **Abnormal Responses to Local Esophageal Food Allergen Injections in Adult Patients With Eosinophilic Esophagitis**  
*M. J. Warners, I. Terreehorst, R. M. van den Wijngaard, J. Akkerdaas, B. C. A. M. van Esch, R. van Ree, S. A. Versteeg, A. J. P. M. Smout, and A. J. Bredenoord*

Esophageal mucosal food allergen injections induce impressive acute and/or delayed responses in EoE patients and not in controls.

- 61 **Effects of Mongersen (GED-0301) on Endoscopic and Clinical Outcomes in Patients With Active Crohn's Disease**  
*B. G. Feagan, B. E. Sands, G. Rossiter, X. Li, K. Usiskin, X. Zhan, and J.-F. Colombel*

These findings support a beneficial effect of the antisense oligodeoxynucleotide GED-0301 in active Crohn's disease.

## Full Reports

### Clinical—Alimentary Tract

- 65**  **Aprepitant Has Mixed Effects on Nausea and Reduces Other Symptoms in Patients With Gastroparesis and Related Disorders**  
*P. J. Pasricha, K. P. Yates, I. Sarosiek, R. W. McCallum, T. L. Abell, K. L. Koch, L. A. B. Nguyen, W. J. Snape, W. L. Hasler, J. O. Clarke, S. Dhalla, E. M. Stein, L. A. Lee, L. A. Miriel, M. L. Van Natta, M. Grover, G. Farrugia, J. Tonascia, F. A. Hamilton, and H. P. Parkman, for the NIDDK Gastroparesis Clinical Research Consortium (GpCRC)*
- NK1 receptor antagonists may be promising agents for the treatment of symptoms in patients with gastroparesis and chronic nausea of suspected gastric origin.
- 77**   **Anesthesia Assistance in Outpatient Colonoscopy and Risk of Aspiration Pneumonia, Bowel Perforation, and Splenic Injury**  
*B. Bielawska, L. C. Hookey, R. Sutradhar, M. Whitehead, J. Xu, L. F. Paszat, L. Rabeneck, and J. Tinmouth*
- Compared to endoscopist-directed sedation, anesthesia assistance for outpatient colonoscopy is associated with a significantly increased risk of aspiration pneumonia but not bowel perforation or splenic injury.
- 86**  **Cholera Vaccine Use Is Associated With a Reduced Risk of Death in Patients With Colorectal Cancer: A Population-Based Study**  
*J. Ji, J. Sundquist, and K. Sundquist*
- Patients with colorectal cancer who received the cholera vaccine had a decreased risk of death from colorectal cancer and a decreased risk of death overall.
- 93** **Direct Comparison of Diagnostic Performance of 9 Quantitative Fecal Immunochemical Tests for Colorectal Cancer Screening**  
*A. Gies, K. Cuk, P. Schrotz-King, and H. Brenner*
- This study from a German colorectal cancer screening population demonstrated good and comparable diagnostic performance of multiple immunochemical fecal occult blood tests after appropriate adjustment of cutoffs for positivity.
- 105**   **Cost Effectiveness of Age-Specific Screening Intervals for People With Family Histories of Colorectal Cancer**  
*S. K. Naber, K. M. Kuntz, N. B. Henrikson, M. S. Williams, N. Calonge, K. A. B. Goddard, D. T. Zallen, T. G. Ganiats, E. M. Webber, A. C. J. W. Janssens, M. van Ballegooijen, A. G. Zauber, and I. Lansdorp-Vogelaar*
- This microsimulation study shows that for individuals with family histories of CRC, it may be cost-effective to gradually increase the screening interval after several negative screening colonoscopies.
- 117**  **Risk of Metachronous High-Risk Adenomas and Large Serrated Polyps in Individuals With Serrated Polyps on Index Colonoscopy: Data From the New Hampshire Colonoscopy Registry**  
*J. C. Anderson, L. F. Butterly, C. M. Robinson, J. E. Weiss, C. Amos, and A. Srivastava*
- Large serrated polyps or sessile serrated adenoma/polyp alone are not predictive of conventional high risk adenomas on follow up colonoscopy. Patients with both sessile serrated adenomas/polyps and high risk adenomas on index examination appear to be the highest risk group.

## Clinical—Liver

### 128 **Metroticket 2.0 Model for Analysis of Competing Risks of Death After Liver Transplantation for Hepatocellular Carcinoma**

V. Mazzaferro, C. Sposito, J. Zhou, A. D. Pinna, L. De Carlis, J. Fan, M. Cescon, S. Di Sandro, H. Yi-feng, A. Lauterio, M. Bongini, and A. Cucchetti

The Metroticket 2.0 is a model that allows individual prognostication of post-transplant cancer-specific survival based on pre-transplant AFP and radiology-assessed tumor features.

## Basic and Translational—Alimentary Tract

### 140 **Indoleamine 2,3-Dioxygenase 1, Increased in Human Gastric Pre-Neoplasia, Promotes Inflammation and Metaplasia in Mice and Is Associated With Type II Hypersensitivity/Autoimmunity**

M. El-Zaatari, A. J. Bass, R. Bowlby, M. Zhang, L.-J. Syu, Y. Yang, H. Grasberger, A. Shreiner, B. Tan, S. Bishu, W. K. Leung, A. Todisco, N. Kamada, M. Cascalho, A. A. Dlugosz, and J. Y. Kao

The deletion of one immune molecule can modify stomach pre-cancer development by regulating autoimmunity. The contribution of autoimmunity to gastric pre-cancer should be further investigated.

### 154 **Intestinal Dysbiosis Featuring Abundance of *Ruminococcus gnavus* Associates With Allergic Diseases in Infants**

H.-H. Chua, H.-C. Chou, Y.-L. Tung, B.-L. Chiang, C.-C. Liao, H.-H. Liu, and Y.-H. Ni

An abundance of *R. gnavus* in the gut ecosystem may increase the risk of developing allergic diseases in infants.

### 168 **The Function of ATPase Copper Transporter ATP7B in Intestine**

H. Pierson, A. Muchenditsi, B.-E. Kim, M. Ralle, N. Zachos, D. Huster, and S. Lutsenko

See editorial on page 15.

This study identifies a novel role for intestinal ATP-driven copper transporter ATP7B in vesicular copper storage. Inactivation of ATP7B is associated with copper deficiency in the duodenum and abnormal fat processing in enterocytes.

### 181 **Association Between Germline Mutations in *BRF1*, a Subunit of the RNA Polymerase III Transcription Complex, and Hereditary Colorectal Cancer**

F. Bellido, N. Sowada, P. Mur, C. Lázaro, T. Pons, R. Valdés-Mas, M. Pineda, G. Aiza, S. Iglesias, J. L. Soto, M. Urioste, T. Caldés, M. Balbín, P. Blay, D. Rueda, M. Durán, A. Valencia, V. Moreno, J. Brunet, I. Blanco, M. Navarro, G. A. Calin, G. Borck, X. S. Puente, G. Capellá, and L. Valle

An analysis of families with a history of CRC associated germline mutations in *BRF1* with predisposition to CRC.

## Basic and Translational—Liver

### 195 **Analysis of Genomes and Transcriptomes of Hepatocellular Carcinomas Identifies Mutations and Gene Expression Changes in the Transforming Growth Factor- $\beta$ Pathway**

J. Chen, S. Zaidi, S. Rao, J.-S. Chen, L. Phan, P. Farci, X. Su, K. Shetty, J. White, F. Zamboni, X. Wu, A. Rashid, N. Pattabiraman, R. Mazumder, A. Horvath, R.-C. Wu, S. Li, C. Xiao, C.-X. Deng, D. A. Wheeler, B. Mishra, R. Akbani, and L. Mishra

See editorial on page 17.

Genome and transcriptome analyses found gene mutations in the TGF $\beta$  signaling pathway in almost 40% of HCC samples. therapeutic agents for HCCs can be effective, based on genetic features of the TGF $\beta$  pathway.

**211 Hepatitis E Virus Lifecycle and Identification of 3 Forms of the ORF2 Capsid Protein**

**E** **www** C. Montpellier, C. Wychowski, I. M. Sayed, J.-C. Meunier, J.-M. Saliou, M. Ankavay, A. Bull, A. Pillez, F. Abravanel, F. Helle, E. Brochet, H. Drobecq, R. Farhat, C.-M. Aliouat-Denis, J. G. Haddad, J. Izopet, P. Meuleman, A. Goffard, J. Dubuisson, and L. Cocquerel

**See editorial on page 20.**

Hepatitis E Virus produces, in vitro and in infected patients, large amounts of antigen ORF2 capsid protein that are not associated with any infectious material.

**224 Deficiency of the Mitochondrial NAD Kinase Causes Stress-Induced Hepatic Steatosis in Mice**

**www** K. Zhang, H. Kim, Z. Fu, Y. Qiu, Z. Yang, J. Wang, D. Zhang, X. Tong, L. Yin, J. Li, J. Wu, N. R. Qi, S. M. Houten, and R. Zhang

The study reveals the functions of the mitochondrial nicotinamide adenine dinucleotide kinase (MNADK) enzyme in the liver, and suggests the therapeutic potential of nicotinamide riboside supplementation in MNADK-deficient patients.

**238 MicroRNA 122, Regulated by GRLH2, Protects Livers of Mice and Patients From Ethanol-Induced Liver Disease**

**www** A. Satishchandran, A. Ambade, S. Rao, Y.-C. Hsueh, A. Iracheta-Vellve, D. Tornai, P. Lowe, B. Gyongyosi, J. Li, D. Catalano, L. Zhong, K. Kodys, J. Xie, S. Bala, G. Gao, and G. Szabo

This study demonstrates a key mechanism which regulates the development of alcoholic liver disease and liver fibrosis due to the loss of a small RNA, microRNA-122 in hepatocytes.

**CONTINUING MEDICAL EDUCATION (CME)/MOC ACTIVITIES**

**e14 Exam 1: Rendezvous Biliary Recanalization of Complete Biliary Obstruction With Direct Peroral and Percutaneous Transhepatic Cholangioscopy**

**e16 Exam 2: A Life-Threatening Cause of Colitis**

**e17 Exam 3: Anesthesia Assistance in Outpatient Colonoscopy and Risk of Aspiration Pneumonia, Bowel Perforation, and Splenic Injury**

**SELECTED SUMMARIES**

**253 Scheuer's Liver Biopsy Interpretation, 9th Edition**  
M. L. Shiffman

**254 Alcohol Abuse and Liver Disease**  
B. P. Lee and Z. Li

**CORRESPONDENCE**

**256 Clostridium difficile Infection Among Individuals With Inflammatory Bowel Disease**  
C. Dai, M. Jiang, and M.-J. Sun

**256 Reply**  
H. Singh, Z. Nugent, L. E. Targownik, and C. N. Bernstein

**257 Prevalence of Helicobacter pylori Infection in Asia: Remembrance of Things Past?**  
K. Sugano, S. Hiroi, and Y. Yamaoka

- 258 **Reply**  
*W. K. Ng, G. G. Kaplan, and S. C. Ng*
- 259 **Gallbladder Cancer and Aflatoxin: Do We Have Sufficient Evidence?**  
*M. K. Singh and V. K. Kapoor*
- 260 **Reply**  
*J. Koshiol, J. B. Andersen, and C. Ferreccio*

**Access to the full content of Gastroenterology Online is available to all subscribers!**

AGA members have seamless access to full *Gastroenterology* content from the AGA Web site. Simply sign in to <http://www.gastro.org>, visit the Publications section of the Web site, and click on *Gastroenterology*. You will be directed to the Journal Web site and will have full access to all content without having to supply a different username and password. Members can also visit <http://www.gastrojournal.org> directly and click on "Activate Online Access." Nonmember subscribers must create an online user account and activate their subscription to access the full text of articles on *Gastroenterology* Online. To activate your individual online subscription, please visit <http://www.gastrojournal.org> and click on "Activate Online Access." To activate your account, you

will need your subscriber account or member number, which you can find on your mailing label. (AGA members must use their 10-digit member number, including leading zeros). If you have any questions regarding your online subscription please call Elsevier Customer Service at (800) 654-2452.

Institutional access to *Gastroenterology* Online will be allowed only by limited site licensing. Further instructions will be available online. Personal subscriptions to *Gastroenterology* Online are for individual use only and may not be transferred. Use of *Gastroenterology* Online is subject to agreement to the terms and conditions of use as indicated online.
