ORIGINAL INVESTIGATION

225 Effect of Hydroxyethyl Starch vs Saline for Volume Replacement Therapy on Death or Postoperative Complications Among High-Risk Patients Undergoing Major Abdominal Surgery: The FLASH Randomized Clinical Trial

E Futier and Coauthors
for the FLASH Trial Group

This randomized clinical trial assesses the effect of hydroxyethyl starch 130/0.4 (HES) vs normal saline for intravascular volume expansion in patients at risk of postoperative kidney injury on mortality and postoperative complications up to 14 days after major abdominal surgery.

Editorial 217

Visual Abstract

237 Effect of Early Surgery vs Endoscopy-First Approach on Pain in Patients With Chronic Pancreatitis: The ESCAPE Randomized Clinical Trial

Y Issa and Coauthors
for the Dutch Pancreatitis Study Group

This randomized clinical trial compares the effects of pancreatic drainage surgery within 6 weeks vs a stepped medical-endoscopy-surgical approach on pain score and relief over 18 months among patients with chronic pancreatitis.

Visual Abstract | CME

248 Effect of Renal Denervation and Catheter Ablation vs Catheter Ablation Alone on Atrial Fibrillation Recurrence Among Patients With Paroxysmal Atrial Fibrillation and Hypertension: The ERADICATE-AF Randomized Clinical Trial

JS Steinberg and Coauthors

This randomized trial compares the effects of pulmonary vein isolation with vs without renal denervation on freedom from atrial fibrillation, atrial flutter, or atrial tachycardia at 1 year among patients with atrial fibrillation and hypertension.

Editorial 221

Visual Abstract

256 Effect of Sunscreen Application on Plasma Concentration of Sunscreen Active Ingredients: A Randomized Clinical Trial

MK Matta and Coauthors

This randomized clinical trial assesses the systemic absorption and pharmacokinetics of the 6 active ingredients (avobenzone, oxybenzone, octocrylene, homosalate, octisalate, and octinoxate) in lotion, aerosol spray, nonaerosol spray, and pump spray sunscreen products under single- and maximal-use conditions.

A PIECE OF MY MIND

215 This Quiet Lady

RA Snyder

In this narrative medicine essay, a surgical oncologist recalls helping her mother through her treatment and death from lung cancer and tells of the lesson she brought back to her own practice from the experience that the essence of clinical care is human connection: the ability to listen to others, witness their suffering, hear their joy, and be present in their company.

JAMA CLINICAL CHALLENGE

272 Fever, Abdominal Pain, and Jaundice in a Pacific Islander Woman

Z Zhang, H Chung, and T Gong

A 61-year-old woman who had immigrated from Micronesia 10 years ago had 1 month of sharp, progressive, intermittent, nonradiating right upper quadrant abdominal pain; she was febrile, had leukocytosis and elevated levels of liver panel analytes, and endoscopic retrograde cholangiopancreatography showed numerous worms in the biliary trees. What is the diagnosis and what would you do next?
