Table of Contents

November 2019 Volume 94 Number 11

The December online issue of *Proceedings* will be available by Monday, December 2. Sign up for an alert to the online Table of Contents at www.mayoclinicproceedings.org

In The Limelight

- 2153** In the Limelight: November 2019
Karl A. Nath

Editorials

- 2156** **Ultraprocessed Foods and Public Health: A Need for Education**
Miguel Ángel Martínez-González and Nerea Martín-Calvo
- 2158** **Are Cardiac Biomarkers to Predict Cardiovascular Outcomes in Patients with Chronic Kidney Disease Ready for Prime Time?**
Jenny I. Shen and Keith C. Norris
- 2161** **Treatment of Immune Thrombocytopenia in Adults: Version 2019**
Adam Cuker and James N. George
- 2164** **Physical Activity: The Secret—Not So Secret—to Prevent and Revert Metabolic Dysregulation in People of All Sizes**
Amanda R. Bonikowske and Francisco Lopez-Jimenez
- 2166** **How Do We Navigate the Complexities Surrounding the Use of Angiotensin-Converting Enzyme Inhibitors/Angiotensin Receptor Blockers in Chronic Kidney Disease?**
Sunil Bhandari Chadburn and Marie Chadburn

Medical Image

- 2170** **Endobronchial Hamartoma: A Rare Cause of Chronic Cough**
Sujith V. Cherian and Rosa M. Estrada-Y-Martin

Perspective and Controversy

- 2171** **Developing a Portfolio to Support Physicians' Efforts to Promote Well-being: One Piece of the Puzzle**
Nikitha K. Menon, Mickey T. Trockel, Maryam S. Hamidi, and Tait D. Shanafelt

Continued

Original Articles

- 2178 Consumption of Ultra-Processed Foods and Mortality: A National Prospective Cohort in Spain**
Ruth Blanco-Rojo, Helena Sandoval-Insausti, Esther López-García, Auxiliadora Graciani, Jose M. Ordovás, Jose R. Banegas, Fernando Rodríguez-Artalejo, and Pilar Guallar-Castillón 
An increased intake of ultra-processed food was associated with a higher risk of mortality.
- 2189 Estimated Glomerular Filtration Rate, Activation of Cardiac Biomarkers and Long-Term Cardiovascular Outcomes: A Population-Based Cohort**
Shravya Vinnakota, Christopher G. Scott, Richard J. Rodeheffer, and Hong H. Chen 
Patients with chronic kidney disease had significantly elevated cardiac biomarkers and were at an increased risk of myocardial infarction and adverse cardiovascular events.
- 2199 Sequence of Splenectomy and Rituximab for the Treatment of Steroid-Refractory Immune Thrombocytopenia: Does It Matter?**
William A. Hammond, Prakash Vishnu, Elisa M. Rodriguez, Zhuo Li, Bhagirathbhai Dholaria, Amanda J. Shreders, and Candido E. Rivera 
Patients who receive rituximab after splenectomy seem to derive superior benefit than those treated with rituximab with an intact spleen.
- 2209 Physical Activity and Risk of Metabolic Phenotypes of Obesity: A Prospective Taiwanese Cohort Study in More Than 200,000 Adults**
David Martinez-Gomez, Francisco B. Ortega, Mark Hamer, Esther Lopez-Garcia, Ellen Struijk, Kabir P. Sadarangani, Carl J. Lavie, and Fernando Rodríguez-Artalejo  
Physical activity helps the transition from metabolically unhealthy obesity to metabolically healthy obesity, which may help reduce the development of type 2 diabetes mellitus and major cardiovascular disease complications.
- 2220 Discontinuation of Angiotensin Converting Enzyme Inhibitors and Angiotensin Receptor Blockers in Chronic Kidney Disease**
Yao Qiao, Jung-Im Shin, Yingying Sang, Lesley A. Inker, Alex Secora, Shengyuan Luo, Josef Coresh, G. Caleb Alexander, John W. Jackson, Alex R. Chang, and Morgan E. Grams 
ACE-Is and ARBs are commonly discontinued among patients with chronic kidney disease. Post-hospitalization periods are critical times to re-evaluate appropriate ACE-I and ARB use.
- 2230 Association of Fitness and Grip Strength With Heart Failure: Findings From the UK Biobank Population-Based Study**
Anne Sillars, Carlos A. Celis-Morales, Frederick K. Ho, Fanny Petermann, Paul Welsh, Stamatina Iliodromiti, Lyn D. Ferguson, Donald M. Lyall, Jana Anderson, Daniel F. Mackay, Pierpaolo Pellicori, John Cleland, Jill P. Pell, Jason M.R. Gill, Stuart R. Gray, and Naveed Sattar 
Grip strength may be useful as a first-line screening in identifying people at high risk for heart failure.
- 2241 Evidence of Diagnostic and Treatment Delay in Seronegative Rheumatoid Arthritis: Missing the Window of Opportunity**
Caitrin M. Coffey, Cynthia S. Crowson, Elena Myasoedova, Eric L. Matteson, and John M. Davis III 
Compared with seropositive patients, seronegative patients experience a delay in clinical diagnosis of rheumatoid arthritis and initiating treatment.
- 2249 BARI 2D: A Reanalysis Focusing on Cardiovascular Events**
Saul M. Genuth, Helen Vlachos, Maria Mori Brooks, John P. Bantle, Bernard R. Chaitman, Jennifer Green, Sheryl F. Kelsey, Spencer B. King III, Robert McBane, Edward Y. Sako, David J. Schneider, Michael Steffes, and Robert L. Frye; on behalf of the BARI 2D Study Group 
The combination of insulin-sensitizing drugs and coronary artery bypass grafting results in the lowest risk of subsequent cardiovascular disease events.

- 2263 Robotic Mitral Valve Repair: Indication for Surgery Does Not Influence Early Outcomes**
Simon Maltais, Lucman A. Anwer, Richard C. Daly, Salvatore Poddi, Yan Topilsky, Maurice Enrique-Sarano, Hector I. Michelena, William J. Mauermann, and Joseph A. Dearani

In high-volume centers with extensive experience, robotic mitral valve repair is an excellent option even for asymptomatic patients with a class IIa indication.

Medical Image

- 2270 Bilateral Herpetic Keratitis in Atopic Dermatitis**

Sayo Maeno and Shizuka Koh

Brief Report

- 2272 Undisclosed Financial Conflicts of Interest of Authors of Clinical Drug Trials Published in Influential Medical Journals: A Cohort Study**

Noam Tau, Tzippy Shochat, Anat Gafer-Gvili, Eitan Amir, and Daniel Shepshelovich

Reviews

- 2277 Examining Risk: A Systematic Review of Perioperative Cardiac Risk Prediction Indices**

Douglas E. Wright, Steven J. Knuesel, Amulya Nagarur, Lisa L. Philpotts, and Jeffrey L. Greenwald 

- 2291 Patient Reported Outcomes Have Arrived: A Practical Overview for Clinicians in Using Patient Reported Outcomes in Oncology**

Rahma Warsame and Anita D'Souza  

Please note that articles with an "e" page designation are available only in the online version of the Journal at www.mayoclinicproceedings.org

Residents' Clinic

- 2302 84-Year-Old Man With Headache, Nausea, and Syncope**

Benjamin A. Satterfield, Subir Bhatia, and Abhiram Prasad

- 2308 51-Year-Old Man With Fever and Productive Cough**

Michelle B. Herberts, Michael Boume, and Patricio Escalante

- e125 51-Year-Old Man With Eye Pain and a Cough**

Amanda L. McKenna, Edson J. Mwakyanjala, and Fernando F. Stancampiano 

Thematic Review on Vaccines

- 2314 Vaccines for International Travel**

David O. Freedman and Lin H. Chen

Thematic Review on Gastroenterological Diseases—CME Credit Offered

- 2340 Chronic Constipation**

Adil E. Bharucha and Arnold Wald  

Medical Image

- 2358 Thoracic Deformity and Acro-Osteolysis in Severe Renal Osteodystrophy**
Rukma Govindu and Hussam Ammar 

Letters to the Editor

- 2360 Who Influences Health Care in the United States? A Study of Trends From 2002 to 2018**
Adam L. Logeman, Oscar Ponce, Neri Álvarez-Villalobos, and Victor M. Montori
- 2361 Axicabtagene Ciloleucel Chimeric Antigen Receptor T Cell Therapy in Lymphoma With Secondary Central Nervous System Involvement**
Mattia Novo, Michael W. Ruff, Pamela J. Skrabek, and Yi Lin
- 2364 Beta-Blocker Use in Refractory Ascites**
Howard Homler
- 2364 In Reply: Beta-Blocker Use in Refractory Ascites**
Mengfei Liu and Douglas A. Simonetto

Path to Patient Image Quiz

- 2366 Soft Tissue Leiomyosarcoma**
Lori A. Erickson

Stamp Vignette on Medical Science

- e131 Luke Fildes and *The Doctor***
David P. Steensma and Robert A. Kyle 

Art at Mayo Clinic

- e133 *Call of the Sea* by Harriet Whitney Frismuth**
Margaret R. Wentz 

Other Features

- 27A Professional Opportunities**
