In The Limelight

- 2931 In the Limelight: December 2021
Karl A. Nath 

Editorials

- 2934 Yes, It Does
Nathan W. Cummins
- 2936 Improving Transfusion Practices Through Patient Blood Management Programs
Brenda J. Grossman
- 2939 Obesity Medical Therapy: It Is Time to Take the Bull by the Horns
Bartolome Burguera, Kevin M. Pantalone, and Marcio L. Griebeler
- 2942 Addressing the Complex Synergy Between Exercise Capacity and BMI and Its Relationship to All-Cause Mortality
Thomas G. Allison

Medical Image

- 2945 Superior Mesenteric Artery Syndrome
Dennis Gibson, Michael Hong Jr., and Philip S. Mehler

Commentary

- 2947 Generics and Biosimilars: Barriers and Opportunities
Caleb J. Scheckel and S. Vincent Rajkumar 

Perspectives and Controversies

- 2958 Ethical Issues in Mandating COVID-19 Vaccination for Health Care Personnel
Robert S. Olick, Jana Shaw, and Y. Tony Yang 
- 2963 Avoiding the "Faux Equalizer"
Joshua C. Pritchett and Tufia C. Haddad 

Original Articles

- 2966 Results of the RENAISSANCE Study: REsponse to BNT162b2 COVID-19 vacciNe—short- And long-term Immune reSponSe evAluation in health Care workErs**
 Arianna Pani, Valeria Cento, Chiara Vismara, Daniela Campisi, Federica Di Ruscio, Alessandra Romandini, Michele Senatore, Paolo Andrea Schenardi, Oscar Matteo Gagliardi, Simona Giroldi, Laura Zoppini, Mauro Moreno, Matteo Corradin, Oscar Massimiliano Epis, Nicola Ughi, Irene Cuppari, Roberto Crocchiolo, Marco Merli, Marco Bosio, Silvano Rossini, Massimo Puoti, and Francesco Scaglione  
 Vaccination successfully protected frontline health care workers from resurgence of COVID-19 pandemics in Milan, Italy.
- 2980 Implementation of a Comprehensive Patient Blood Management Program for Hospitalized Patients at a Large United States Medical Center**
 Matthew A. Warner, Phillip J. Schulte, Andrew C. Hanson, Nageswar R. Madde, Jennifer M. Burt, Andrew A. Higgins, Nicole M. Andrijasevic, Justin D. Kreuter, Eapen K. Jacob, James R. Stubbs, and Daryl J. Kor  
 Patient blood management implementation at a large academic medical center was associated with substantial transfusion reductions and improvements in clinical outcomes in hospitalized adults.
- 2991 Treatment of Obesity: Pharmacotherapy Trends of Office-Based Visits in the United States From 2011 to 2016**
 Mechelle D. Claridy, Kathryn S. Czepiel, Simar S. Bajaj, and Fatima Cody Stanford 
 Only 1% of the 197 million office-based visits for patients with obesity mentioned an antiobesity drug.
- 3001 Synergistic Assessment of Mortality Risk According to Body Mass Index and Exercise Ability and Capacity in Patients Referred for Radionuclide Stress Testing**
 Alan Rozanski, Heidi Gransar, Sean W. Hayes, John D. Friedman, Louise E.J. Thomson, Carl J. Lavie, and Daniel S. Berman  
 This study provides insights into the “obesity paradox” that is observed in populations referred for stress testing.
- 3012 U-Shaped Association Between Duration of Sports Activities and Mortality: Copenhagen City Heart Study**
 Peter Schnohr, James H. O’Keefe, Carl J. Lavie, Andreas Holtermann, Peter Lange, Gorm Boje Jensen, and Jacob Louis Marott 
 This study found a U-shaped association between weekly duration of leisure-time sports activities and the outcomes of cardiovascular disease mortality and all-cause mortality, with lowest risk for those participating 2.6 to 4.5 hours per week.
- 3021 Antidiabetic Effects of the Senolytic Agent Dasatinib**
 Omid Salaami, Chia-Ling Kuo, Matthew T. Drake, George A. Kuchel, James L. Kirkland, and Robert J. Pignolo 
 These findings suggest that dasatinib or related senolytic drugs may become novel diabetic therapies.
- 3030 Development and Validation of a Multivariable Risk Prediction Model for COVID-19 Mortality in the Southern United States**
 Aashish Gupta, Sergey M. Kachur, Jose D. Tafur, Harsh K. Patel, Divina O. Timme, Famoosh Shariati, Kristen D. Rogers, Daniel P. Morin, and Carl J. Lavie  
 These authors developed an easy-to-use, robust model for systematically evaluating patients presenting to acute care settings with COVID-19 infection.

- 3042 Decline of Influenza and Respiratory Viruses With COVID-19 Public Health Measures: Alberta, Canada**
Alexander Doroshenko, Nelson Lee, Clayton MacDonald, Nathan Zelyas, Leyla Asadi, and Jamil N. Kanji 
The implementation of COVID-19 public health measures likely resulted in reduced transmission of common respiratory viruses.
- 3053 Cone Reconstruction for Ebstein Anomaly: Ventricular Remodeling and Preliminary Impact of Stem Cell Therapy**
Patrick W. O'Leary, M. Yasir Qureshi, Frank Cetta, Timothy J. Nelson, Kimberly A. Holst, and Joseph A. Dearani; the Wanek Program Clinical Pipeline Group 
Cone reconstruction reduces tricuspid regurgitation and right ventricle size but is also associated with increased right ventricle fractional area change and left ventricle volume.
- 3062 Electrocardiography-Based Artificial Intelligence Algorithm Aids in Prediction of Long-term Mortality After Cardiac Surgery**
Abdulah A. Mahayni, Zachi I. Attia, Jose R. Medina-Inojosa, Mohamed F.A. Elsisy, Peter A. Noseworthy, Francisco Lopez-Jimenez, Suraj Kapa, Samuel J. Asirvatham, Paul A. Friedman, Juan A. Crestenallo, and Mohamad Alkhouli 
This study documented an independent prognostic value of an AI-ECG algorithm in predicting long-term all-cause mortality after cardiac surgery.
- 3071 Investigating the Relations Between Caffeine-Derived Metabolites and Plasma Lipids in 2 Population-Based Studies**
Dusan Petrovic, Menno Pruijm, Belén Ponte, Nasser A. Dhayat, Daniel Ackermann, Georg Ehret, Nicolas Ansermot, Bruno Vogt, Pierre-Yves Martin, Silvia Stringhini, Sandrine Estoppey-Younès, Lutgarde Thijs, Zhenyu Zhang, Jesus D. Melgarejo, Chin B. Eap, Jan A. Staessen, Murielle Bochud, and Idris Guessous 
These results are compatible with a detrimental effect of caffeine on lipid profile, despite a mild increase in HDL cholesterol.
- 3086 Academic Physician Specialists' Approaches to Counseling Patients Interested in Unproven Stem Cell and Regenerative Therapies—A Qualitative Analysis**
Cambray Smith, Aidan Crowley, Megan Munsie, Atta Behfar, Erin S. DeMartino, Nathan P. Staff, Shane A. Shapiro, and Zubin Master 
These findings suggest a greater need for physician education and resources, including developing shared decision-making tools to help facilitate conversations about stem cell and regenerative interventions.
- Medical Image**
- 3097 Eruptive Xanthomas**
John Pierce, Tejesh Patel, and Chelsea Scott 
- Review**
- 3099 Viral Endothelial Dysfunction: A Unifying Mechanism for COVID-19**
Megha Prasad, Martin Leon, Lilach O. Lerman, and Amir Lerman 
- 3109 Topic-Based, Recent Literature Review on Pulmonary Hypertension**
Charles D. Burger, Hilary M. DuBrock, Rodrigo Cartin-Ceba, John E. Moss, Brian P. Shapiro, and Robert P. Frantz
- Concise Review—CME Credit Offered**
- 3122 Evaluation and Management of Pelvic Organ Prolapse**
Rubin Raju and Brian J. Linder 

Understanding Disease

- 3130 **The Renin-Angiotensin-Aldosterone System in Postmenopausal Women: The Promise of Hormone Therapy**
Felice L. Gersh, James H. O'Keefe, Carl J. Lavie, and Brandon M. Henry

Residents' Clinics

- 3142 **70-Year-Old Man With Chronic Nausea and Vomiting**
Varun P. Moktan, Kimberly Robelin, and Brian E. Lacy
- 3147 **47-Year-Old Woman With Bilateral Flank Pain**
Albert Bui, Emily Brooke Butts, and Nabeel Aslam
- 3153 **91-Year-Old Man With Recurrent Falls**
Melissa H. Bogin and Brandon P. Verdoorn

Thematic Review on Perioperative Medicine

- 3158 **Preoperative Management of Gastrointestinal and Pulmonary Medications: Society for Perioperative Assessment and Quality Improvement (SPAQI) Consensus Statement**
Kurt J. Pfeifer, Angela Selzer, Christopher M. Whinney, Barbara Rogers, Amar S. Naik, Dennis Regan, Carlos E. Mendez, Richard D. Urman, and Karen Mauck

Medical Image

- 3178 **Mycotic Pseudoaneurysm of Carotid Artery as a Rare Complication of Lemierre Syndrome**
Marine Bordet, Anne Long, and Philippe Tresson

Letters to the Editor

- 3180 **Thermal Screening in COVID-19: Why Is It Commonplace?**
Darpan Sohni
- 3180 **COVID-19 Vaccine Effectiveness in a Diverse Urban Health Care Worker Population**
Eirini Iliaki, Fan-Yun Lan, Costas A. Christophi, Guido Guidotti, Alexander D. Jobrack, Jane Buley, Rebecca Osgood, Lou Ann Bruno-Murtha, and Stefanos N. Kales
- 3182 **mRNA COVID-19 Vaccine-Related Anaphylactoid Reaction and Coronary Thrombosis**
Jonathan Hinton, Andre Briosa e Gala, and Simon Corbett
- 3184 **Adaptations to Interpreter Services for Hospitalized Patients During the COVID-19 Pandemic**
Amelia Barwise, Daniel Tschida-Reuter, and Bruce Sutor

Path to Patient Image Quiz

- 3186 **Adrenal Myelolipoma**
Lori A. Erickson

Art at Mayo Clinic

- 3188** *Raining Reeds* by Shane Allbritton and Norman Lee
Margaret R. Wentz

Reviewers List

- 3190** Reviewers for *Mayo Clinic Proceedings* (2021)

Icon Key

-  This article has been given "Editor's Choice" distinction.
-  An author interview accompanies this article.
-  Supplemental material accompanies this article at www.mayoclinicproceedings.org.
-  Indicates articles focusing on health humanities and ethical decision making as applied to medicine and the health sciences.
