Original Articles

- 35** **A Structured Compensation Plan Results in Equitable Physician Compensation: A Single-Center Analysis**
Sharonne N. Hayes, John H. Noseworthy, and Gianrico Farrugia
Achieving overall gender pay equality will only be fully realized when women achieve parity in the ranks of the most highly compensated specialties and in leadership roles.
- 44** **Cardiorespiratory Fitness and Gray Matter Volume in the Temporal, Frontal, and Cerebellar Regions in the General Population**
Katharina Wittfeld, Carmen Jochem, Marcus Dörr, Ulf Schminke, Sven Gläser, Martin Bahls, Marcello R.P. Markus, Stephan B. Felix, Michael F. Leitzmann, Ralf Ewert, Robin Bülow, Henry Völzke, Deborah Janowitz, Sebastian E. Baumeister, and Hans Jürgen Grabe 🇩🇪 +
Cardiorespiratory fitness might contribute to improved brain health and might, therefore, decelerate pathology-specific gray matter decrease.
- 57** **Relationship of Body Mass Index With Outcomes After Transcatheter Aortic Valve Replacement: Results From the National Cardiovascular Data—STS/ACC TVT Registry**
Abhishek Sharma, Carl J. Lavie, Sammy Elmariah, Jeffrey S. Borer, Samin K. Sharma, Sreekanth Vemulapalli, Babatunde A. Yerokun, Zhuokai Li, Roland A. Matsouaka, and Jonathan D. Marmur 🇩🇪 +
These data suggest that transcatheter aortic valve replacement outcomes represent another “obesity paradox” in cardiovascular diseases.
- 69** **Impact of Stroke Volume Index and Left Ventricular Ejection Fraction on Mortality After Aortic Valve Replacement**
Saki Ito, Vuyisile T. Nkomo, David A. Orsinelli, Grace Lin, Joao Cavalcante, Jeffrey J. Popma, David H. Adams, Stanley J. Checuti, G. Michael Deeb, Michael Boulware, Jian Huang, Stephen H. Little, Sidney A. Cohen, Michael J. Reardon, and Jae K. Oh
In patients with severe aortic stenosis at high-risk, there is a significant interaction between aortic valve replacement approach and the status of stroke volume index and left ventricular ejection fraction.
- 77** **Effects of Renal Impairment on the Pharmacokinetics, Efficacy, and Safety of Inclisiran: An Analysis of the ORION-7 and ORION-1 Studies**
R. Scott Wright, Michael G. Collins, Robert M. Stoekenbroek, Richard Robson, Peter L.J. Wijngaard, Ulf Landmesser, Lawrence A. Leiter, John J.P. Kastelein, Kausik K. Ray, and David Kallend 🇩🇪
These findings reveal the potential value of inclisiran for individuals with hypercholesterolemia and renal impairment without the need for dose adjustment.
- 90** **A Safety Comparison of Metformin vs Sulfonylurea Initiation in Patients With Type 2 Diabetes and Chronic Kidney Disease: A Retrospective Cohort Study**
Reid H. Whitlock, Ingrid Hougen, Paul Komenda, Claudio Rigatto, Kristin K. Clemens, and Navdeep Tangri 🇩🇪 +
Metformin may be a safer alternative to sulfonylureas in patients with chronic kidney disease.
- 101** **Outcomes for Inappropriate Renal Dose Adjustment of Dipeptidyl Peptidase-4 Inhibitors in Patients With Type 2 Diabetes Mellitus: Population-Based Study**
Sangmo Hong, Kyungdo Han, and Cheol-Young Park +
Inappropriate dosing with DPP-4 inhibitors was associated with a 15% increased risk of death from all causes in patients with type 2 diabetes mellitus with stage 3 or 4 chronic kidney disease.

Continued

- 113 Serum Bicarbonate Concentration and Cause-Specific Mortality: The National Health and Nutrition Examination Survey 1999-2010**
Sadeer G. Al-Kindi, Anuja Sarode, Melissa Zullo, Sanjay Rajagopalan, Mahboob Rahman, Thomas Hostetter, and Mirela Dobre 
- Serum bicarbonate concentration less than 22 mEq/L was associated with all-cause and cancer-related mortality, but not with cardiovascular mortality. The risk of cardiovascular mortality was increased for individuals with serum bicarbonate above 26 mEq/L.

- 124 Diabetes Mellitus Is an Independent Predictor for the Development of Heart Failure: A Population Study**
Michael D. Klajda, Christopher G. Scott, Richard J. Rodeheffer, and Hong H. Chen
- These findings suggest that diabetes mellitus is an independent risk factor for the development of heart failure and support the concept of diabetic cardiomyopathy.

Medical Image

- 134 Herbert Pits in Trachoma Infection**
Osama Mustafa and Yassine J. Daoud

Reviews

- 136 Acute Myocardial Infarction in Young Individuals**
Rajiv Gulati, Atta Behfar, Jagat Narula, Ardaas Kanwar, Amir Lerman, Leslie Cooper, and Mandeep Singh 
- 157 Surveillance in Patients With Diffuse Large B Cell Lymphoma**
Avyakta Kallam, Jayanth Adusumalli, and James O. Armitage
