Table of Contents

February 2017 Volume 92 Number 2

The March online issue of *Proceedings* will be available by Wednesday, March 1.
Sign up for an alert to the online Table of Contents at www.mayoclinicproceedings.org

Editorials

- 175** Observations and Reflections on the Burden of Hospitalizations for Heart Failure
Hector O. Ventura and Marc A. Silver
- 179** Association Between Selective Serotonin-Reuptake Inhibitor Antidepressants and Increased Risk of Poststroke Epilepsy
Andres M. Kanner
- 182** Introduction to the Symposium on Neurosciences
Michelle L. Mauermann, James F. Meschia, and Joseph I. Sirven

Original Articles

- 184** Burden and Timing of Hospitalizations in Heart Failure: A Community Study
Alanna M. Chamberlain, Shannon M. Dunlay, Yariv Gerber, Sheila M. Manemann, Ruoxiang Jiang, Susan A. Weston, and Véronique L. Roger   
- Patients with heart failure experience high rates of hospitalizations, particularly within the first 30 days, and mostly for noncardiovascular causes.
- 193** Selective Serotonin Reuptake Inhibitors and Poststroke Epilepsy: A Population-Based Nationwide Study
Chien-Chen Chou, Der-Jen Yen, Yung-Yang Lin, Yu-Chiao Wang, Cheng-Li Lin, and Chia-Hung Kao 
- Patients who received a selective serotonin reuptake inhibitor prescription after newly diagnosed stroke had increased rates of poststroke epilepsy.
- 200** Eighteen Months of Treatment With Subcutaneous Abaloparatide Followed by 6 Months of Treatment With Alendronate in Postmenopausal Women With Osteoporosis: Results of the ACTIVEExtend Trial
Felicia Cosman, Paul D. Miller, Gregory C. Williams, Gary Hattersley, Ming-yi Hu, Ivo Valter, Lorraine A. Fitzpatrick, Bente Juel Riis, Claus Christiansen, John P. Bilezikian, and Dennis Black
- Subcutaneous abaloparatide followed by 6 months of alendronate improved bone mineral density and is likely to be an effective treatment option for postmenopausal women at risk for osteoporosis-related fractures.

Continued

- 211** Association Between Exercise Capacity and Late Onset of Dementia, Alzheimer Disease, and Cognitive Impairment
Jan Müller, Khin Chan, and Jonathan N. Myers
Exercise capacity is inversely associated with the onset of dementia, Alzheimer disease, and cognitive impairment, even after correction for multiple cardiovascular risk factors such as smoking and physical inactivity.
- 218** Prediction of Cardiovascular Mortality by Estimated Cardiorespiratory Fitness Independent of Traditional Risk Factors: The HUNT Study
Javaid Nauman, Bjame M. Nes, Carl J. Lavie, Andrew S. Jackson, Xuermei Sui, Jeff S. Coombes, Steven N. Blair, and Ulrik Wisløff  
Assessment of nonexercise estimated cardiorespiratory fitness, together with easily assessed measures such as smoking status, alcohol consumption, and disease status, may help identify individuals at risk for future cardiovascular disease.

Brief Report

- 228** Reference Standards for Cardiorespiratory Fitness Measured With Cardiopulmonary Exercise Testing Using Cycle Ergometry: Data From the Fitness Registry and the Importance of Exercise National Database (FRIEND) Registry
Leonard A. Kaminsky, Mary T. Imboden, Ross Arena, and Jonathan Myers

Special Articles

- 234** Increasing Cardiac Rehabilitation Participation From 20% to 70%: A Road Map From the Million Hearts Cardiac Rehabilitation Collaborative
Philip A. Ades, Steven J. Keteyian, Janet S. Wright, Larry F. Hamm, Karen Lui, Kimberly Newlin, Donald S. Shepard, and Randal J. Thomas 
- 243** Milestones and Millennials: A Perfect Pairing—Competency-Based Medical Education and the Learning Preferences of Generation Y
Janeve R. Desy, Darcy A. Reed, and Alexandra P. Wolanskyj 

Reviews

- 251** Review of Childhood Obesity: From Epidemiology, Etiology, and Comorbidities to Clinical Assessment and Treatment
Seema Kumar and Aaron S. Kelly 
- 266** Obesity and Heart Failure: Focus on the Obesity Paradox
Salvatore Carbone, Carl J. Lavie, and Ross Arena 

Concise Review for Clinicians—CME Credit Offered

- 280** Understanding Palliative Care and Hospice: A Review for Primary Care Providers
Mary K. Buss, Laura K. Rock, and Ellen P. McCarthy

Please note that articles with an "e" page designation are available only in the online version of the Journal at www.mayoclinicproceedings.org

Residents' Clinic

287 61-Year-Old Man With Hypercalcemia and Generalized Lymphadenopathy

Ashley M. Egan, Jarrett J. Failing, and Hiroshi Sekiguchi

e15 66-Year-Old Woman With Falls and Confusion

Jordan K. Schaefer, Hassan B. Alkhateeb, and Carrie A. Thompson 

Symposium on Precision Medicine—CME Credit Offered

292 Neurology Individualized Medicine: When to Use Next-Generation Sequencing Panels

Christopher J. Klein and Tatiana M. Foroud 

Symposium on Neurosciences—CME Credit Offered

306 Management of Adult Onset Seizures

Amy Z. Crepeau and Joseph I. Sirven  

Editor's Note

319 Editor's Note: Progressive Alterations in *Mayo Clinic Proceedings'* Content and Print Circulation: 2017 and Beyond

William L. Lanier

Letters to the Editor

320 Effect of Serum Potassium on All-Cause Mortality in the General US Population

Paul D. Loprinzi and Michael E. Hall

Medical Images

322 Recurrent Laryngeal Papillomatosis

Satvinder Singh Bakshi 

Path to Patient Image Quiz

e21 Testicular Seminoma

Sounak Gupta and Lori A. Erickson 

Art at Mayo Clinic

e23 *Pink Manta* by Joseph Pagano

Margaret R. Wentz 

Continued

Historical Vignette

- e25 The History of Otorhinolaryngology at Mayo Clinic
 Matthew L. Carlson and Kerry D. Olsen 

Other Features

- 320 Corrections
 35A Professional Opportunities
