

The March online issue of *Proceedings* will be available by Monday, March 1. Sign up for an alert to the online Table of Contents at www.mayoclinicproceedings.org

In The Limelight

269 In the Limelight: February 2021

Karl A. Nath

Editorials

272 Engel in the Time of Coronavirus Disease 2019

John H. Davidson

274 Arterial Thrombosis and Coronavirus Disease 2019

Robert D. McBane II

277 Marine Omega-3 Fatty Acids and Cardiovascular Disease Prevention: Seeking Clearer Water

Zareen M. Farukhi, Samia Mora, and JoAnn E. Manson

280 Is "Research Literacy" Needed to Increase Diversity Among Participants in Research Studies?

Valerie G. Press

282 Toward Optimal Screening for Diabetic Retinopathy: Balancing Precision and Pragmatism

Andrew J. Barkmeier

Medical Image

285 Metastatic Gastrinoma Localized on Gallium-68 DOTATATE Imaging

Jacob Lui, Simone Barreto Siqueira Parilha Terra, and Jaime de la Fuente

Perspectives and Controversies

287 Mental Health, COVID-19, and the Invisible Pandemic on the Horizon

Mark A. Oldham, Adrianna Hitchins, and Mark W. Nickels

291 Moving Beyond Reflexive and Prophylactic Gynecologic Surgery

Elizabeth A. Stewart, Stacey A. Missmer, and Walter A. Rocca

Original Articles

- 295 Arterial Thrombotic Events in Adult Inpatients With COVID-19**
Morgane Fournier, Dorothée Faille, Antoine Dossier, Arthur Mageau, Pascale Nicaise Roland, Nadine Ajzenberg, Raphael Borie, Lila Bouadma, Vincent Bunel, Yves Castier, Christophe Choquet, Bruno Crestani, Eric Daugas, Laurene Deconinck, Diane Descamps, Vincent Descamps, Philippe Dieudé, Gregory Ducrocq, Nathalie Faucher, Tiphaine Goulenok, Céline Guidoux, Antoine Khalil, Philippa Lavallée, François Xavier Lescure, Brice Lortat-Jacob, Hervé Mal, Pierre Mutuon, Quentin Pellenc, Philippe Gabriel Steg, Camille Taille, Jean Francois Timsit, Yazdan Yazdanpanah, Thomas Papo, and Karim Sacré  
A D-dimer level above 1250 ng/mL at entry may identify COVID-19+ patients at risk for arterial thrombotic events.
- 304 Effect of Omega-3 Dosage on Cardiovascular Outcomes: An Updated Meta-Analysis and Meta-Regression of Interventional Trials**
Aldo A. Bernasconi, Michelle M. Wiest, Carl J. Lavie, Richard V. Milani, and Jari A. Laukkanen  
Supplementation with EPA and DHA is an effective lifestyle strategy for cardiovascular disease prevention, and the protective effect probably increases with dosage.
- 314 Disparities in Research Participation by Level of Health Literacy**
Sunil Kripalani, Kathryn Goggins, Catherine Couey, Vivian M. Yeh, Katharine M. Donato, John F. Schnelle, and Kenneth A. Wallston; for the Vanderbilt Inpatient Cohort Study 
Patients with higher research interest were more likely to be younger, female, more educated, or have higher health literacy. Patients with these characteristics were also more likely to participate.
- 322 Four-Year Screening Interval and Vision-Threatening Retinopathy in Type 2 Diabetes Patients With Good Glycemic Control**
Tetsuro Tsujimoto and Hiroshi Kajio 
Vision-threatening retinopathy was not observed after 4 years in patients with type 2 diabetes who achieved good glycemic control with no retinopathy at baseline.
- 332 Age-Stratified Sex-Related Differences in the Incidence, Management, and Outcomes of Acute Myocardial Infarction**
Mohamad Alkhouli, Fahad Alqahtani, Hani Jneid, Mohammed Al Hajji, Wafaa Boubas, and Amir Lerman 
The negative impact of female sex on most post myocardial infarction outcomes was most pronounced in young and middle-aged women.
- 342 Physical Activity, Cardiorespiratory Fitness, and Population-Attributable Risk**
Jonathan Myers, Baruch Vainshelboim, Shirit Kamil-Rosenberg, Khin Chan, and Peter Kokkinos
Both higher cardiorespiratory fitness and physical activity provide protection against all-cause mortality in subjects referred for exercise testing for clinical reasons.
- 350 The Association Between the Use of Cholinesterase Inhibitors and Cardiovascular Events Among Older Patients With Alzheimer Disease**
Shih-Han Hsiao, Tzung-Jeng Hwang, Fang-Ju Lin, Jau-Juan Sheu, and Chung-Hsuen Wu  
The use of cholinesterase inhibitors among Alzheimer disease patients in Taiwan reduced the risk not only of incident cardiovascular disease but also of cardiovascular mortality.

- 363 Outcomes Following Percutaneous Coronary Intervention in Renal Transplant Recipients: A Binational Collaborative Analysis**
Muhammad Rashid, Vinayak Nagaraja, Ahmad Shoaib, Nick Curzen, Peter F. Ludman, Samir R. Kapadia, Nick Palmer, Islam Y. Elgendy, Ankur Kalra, Tushar J. Vachharajani, H. Vernon Anderson, Chun Shing Kwok, Mohamed Mohamed, Adrian P. Banning, and Mamas A. Mamas 
- Patients with renal transplant undergoing percutaneous coronary intervention are younger, have more comorbidities, and have increased mortality risk compared with the general population undergoing percutaneous coronary intervention.
- 377 Coagulation Abnormalities in Light Chain Amyloidosis**
Nadine Abdallah, Eli Muchtar, Angela Dispenzieri, Wilson Gonsalves, Francis Buadi, Martha Q. Lacy, Suzanne R. Hayman, Taxiarchis Kourelis, Prashant Kapoor, Ronald S. Go, Rahma Warsame, Nelson Leung, S. Vincent Rajkumar, Robert A. Kyle, Rajiv K. Pruthi, Morie A. Gertz, and Shaji K. Kumar 
- Coagulation abnormalities occur in a significant proportion of patients with systemic light chain amyloidosis and are associated with advanced disease and inferior outcomes.
- 388 Acute Myocardial Infarction in Autoimmune Rheumatologic Disease: A Nationwide Analysis of Clinical Outcomes and Predictors of Management Strategy**
Mohamed O. Mohamed, Edward Roddy, Lina Ya'qoub, Phyo K. Myint, Mirvat Al Alasnag, Chadi Alraies, Loma Clarkson, Toby Helliwell, Christian Mallen, David Fischman, Khalid Al Shaibi, Abhishek Abhishek, and Mamas A. Mamas 
- These findings provide teams of rheumatologists and cardiologists with insight into the differences in risk profiles, management strategies, and outcomes of autoimmune rheumatic disease subtypes in the context of acute myocardial infarction.
- 400 Host Factors and Outcomes in Hospitalizations for *Pneumocystis jirovecii* Pneumonia in the United States**
Amjad Kanj, Bilal Samhouri, Nadine Abdallah, Omar Chehab, and Misbah Baqir 
- The epidemiology of *Pneumocystis jirovecii* pneumonia has shifted over the years, with the majority of cases occurring in immunocompromised patients with conditions other than HIV.
- 408 Associations Between Experience of Early Childhood Trauma and Impact on Obesity Status, Health, as Well as Perceptions of Obesity-Related Health Care**
Manpreet S. Mundi, Ryan T. Hurt, Sean M. Phelan, David Bradley, Irina V. Haller, Katherine W. Bauer, Steven M. Bradley, Darrell R. Schroeder, Matthew M. Clark, and Ivana T. Croghan 
- A history of childhood abuse was significantly associated with obesity, lower self-esteem, and negative experiences interacting with health care providers.

Brief Report

- 420 Detecting the Dark Matter of Unpublished Clinical Cancer Studies: An Analysis of Phase 3 Randomized Controlled Trials**
Dario Pasalic, C. David Fuller, Walker Mainwaring, Timothy A. Lin, Austin B. Miller, Amit Jethanandani, Andres F. Espinoza, Aaron J. Grossberg, Reshma Jaggi, Prajnan Das, Albert C. Koong, Claus Rödel, Emmanouil Fokas, Charles R. Thomas Jr., Bruce D. Minsky, and Ethan B. Ludmir

Medical Image

- 427 Pruritic Skin Eruption in a Pregnant Woman**
Joshua K. Hanson and Julia S. Lehman

Special Articles

- 429** **Telemedicine and Team-Based Care: The Perils and the Promise**
Christine A. Sinsky, James T. Jerzak, and Kevin D. Hopkins 
- 438** **The Pursuit of Training Meritorious Learners of Diverse Backgrounds: Mayo Clinic College of Medicine and Science**
Yonas E. Geda and Fredric B. Meyer

Reviews

- 446** **COVID-19: Understanding Inter-Individual Variability and Implications for Precision Medicine**
Naveen L. Pereira, Ferhaan Ahmad, Mimela Byku, Nathan W. Cummins, Alanna A. Morris, Anjali Owens, Sony Tuteja, and Sharon Cresci  
- 464** **Bronchoscopic Lung Volume Reduction: A New Hope for Patients With Severe Emphysema and Air Trapping**
David Abia-Trujillo, Margaret M. Johnson, Neal M. Patel, Britney Hazelett, Eric S. Edell, Ryan M. Kern, David Midthun, Janani Reisenauer, Darlene Nelson, John J. Mullon, Kenneth K. Sakata, Karen Swanson, and Sebastian Fernandez-Bussy 

Residents' Clinics

- 473** **57-Year-Old Woman With Weakness and Word-Finding Difficulties**
Shruti Patel, David Sanborn, and Meltiady Issa
- 478** **56-Year-Old Man With Profuse Diarrhea**
Joshua Kwon and Fernando F. Stancampiano
- 483** **44-Year-Old Man With Headache and Neurological Symptoms**
Laurel E. Carter, Payal P. Patel, and Razvan M. Chirila

Thematic Review on Aging

- 488** **Dysphagia in Older Adults**
Shanojan Thiyagalingam, Anne E. Kulinski, Bjorg Thorsteinsdottir, Katrina L. Shindelar, and Paul Y. Takahashi 

Medical Image

- 498** **Osseous Sarcoidosis of the Hand**
Jessy Cattelan

Letters to the Editor

- 500** **Elevated Rate of HLA Antibodies in Male COVID-19 Convalescent Plasma Donors: A Risk Factor for Transfusion-Related Acute Lung Injury**
Justin E. Juskewitch, James R. Stubbs, and Manish J. Gandhi
- 502** **The Recalibration of Interventional Cardiology During COVID-19: An Opportunity for a Future Paradigm**
Saraschandra Vallabhajosyula and S. Tanveer Rab

- 503 Loop Diuretic Use and Outcomes in Chronic Stable Heart Failure with Preserved Ejection Fraction—Reply**
 Vishal N. Rao, Ambarish Pandey, Lin Zhong, Andrew P. Ambrosy, and Marat Fudim
- 506 Impact of a High-Shrimp Diet on Cardiovascular Risk: An NHANES Analysis**
 Bharat Narasimhan, Scott Kaplin, Zhen Wang, and Chayakrit Krittanawong
- 508 In Reply—Impact of a High-Shrimp Diet on Cardiovascular Risk: An NHANES Analysis**
 Carl J. Lavie, Richard V. Milani, Jari A. Laukkanen, and Aldo A. Bernasconi
- 508 The Role of Stress Perception for Clinical Implications of Stress**
 Paulina Skrzypkowska, Shan Ali, Tomasz Szmuda, and Paweł Słoniewski
- 509 In Reply—The Role of Stress Perception for Clinical Implications of Stress**
 Margaret M. Johnson, Lioudmila V. Kamatovskaia, and Alexander S. Niven

Path to Patient Image Quiz

- 511 Pheochromocytoma in Multiple Endocrine Neoplasia Type 2**
 Lori A. Erickson

Art at Mayo Clinic

- 513 Untitled by Lynn Latimer**
 Margaret R. Wentz
