

# MAYO CLINIC PROCEEDINGS

www.mayoclinicproceedings.org

## Table of Contents

March 2020 Volume 95 Number 3

The April online issue of *Proceedings* will be available by Wednesday, April 1.  
Sign up for an alert to the online Table of Contents at [www.mayoclinicproceedings.org](http://www.mayoclinicproceedings.org)

## In The Limelight

- 429** In the Limelight: March 2020  
Karl A. Nath

## Editorials

- 432** Noninvasive Diagnosis of Eosinophilic Esophagitis: The Nuclear Medicine Option  
*Benjamin L. Wright and Hirohito Kita*
- 435** Prediction of Acute Kidney Injury in Hospitalized, Non-Critically Ill Patients  
*Patrick T. Murray*
- 437** Strength-Endurance Training Classes: Health Benefits and Injury Rates of an Emerging Cornerstone of Physical Activity  
*Jonathon W. Senefeld and Michael J. Joyner*

## Medical Image

- 440** Giant Saphenous Venous Graft Aneurysm Causing Heart Failure  
*Paurush Ambesh and Amir Lotfi*

## Commentary

- 441** Predatory Journals: A Cautionary Tale and a Lesson in Copyright Transfer  
*Jonathan G. Leung, Patrick M. Wieruszewski, LeAnn Stee, Christopher R. Takala, and Brian A. Palmer*

## Perspective and Controversy

- 445** Can Pain Management be Safely Optimized in Older Adults?  
*Christina Y. Chen and Brandon Verdoorn*

## Original Articles

- 449** Oral Administration of <sup>99m</sup>Tc-Technetium-Labeled Heparin in Eosinophilic Esophagitis  
*Hedieh Saffari, Kathryn A. Peterson, Kristin M. Leiferman, Michael G. Stabin, Jeffrey J. Krstyan, Frederic C. Clayton, Leonard F. Pease III, Jeffrey T. Yap, John M. Hoffman, and Gerald J. Gleich*  
Swallowed <sup>99m</sup>Tc-heparin transiently binds to the esophagus of subjects with active eosinophilic esophagitis who are experiencing eosinophil-related inflammation, as shown by eosinophil infiltration and by deposition of eMBPI in tissue biopsy specimens.

Continued

- 459 Risk Factors for Acute Kidney Injury in Hospitalized Non–Critically Ill Patients: A Population-Based Study**  
Sami Safadi, Musab S. Hommos, Felicity T. Enders, John C. Lieske, and Kianoush B. Kashani   
Hospital-acquired acute kidney injury is common in non-ICU inpatients and is associated with worse outcomes.
- 468 Injury Rate and Patterns in Group Strength-Endurance Training Classes**  
Anna M. Batterson, Raegan K. Froelich, Cathy D. Schleck, and Edward R. Laskowski   
The increased injury rate during this study was comparable with rates reported in prospective studies of novice and recreational runners.
- 476 The Association Between Perceived Electronic Health Record Usability and Professional Burnout Among US Physicians**  
Edward R. Melnick, Liselotte N. Dyrbye, Christine A. Sinsky, Mickey Trockel, Colin P. West, Laurence Nedelec, Michael A. Tutty, and Tait Shanafelt     
The usability of current electronic health record systems received a grade of "F" by physician users when evaluated using a standardized metric of technology usability.
- 488 Dose-Response Effects of Exercise on Glucose-Lowering Medications for Type 2 Diabetes: A Secondary Analysis of a Randomized Clinical Trial**  
Christopher S. MacDonald, Mette Y. Johansen, Sabrina M. Nielsen, Robin Christensen, Katrine B. Hansen, Henning Langberg, Allan A. Vaag, Kristian Karstoft, Daniel E. Lieberman, Bente K. Pedersen, and Mathias Ried-Larsen   
Exercise was associated with a decreased need for glucose-lowering medication in a dose-dependent manner. However, the authors caution that discontinuation of glucose-lowering medication treatment is debatable.
- 504 Is My Patient Overwhelmed? Determining Thresholds for Acceptable Burden of Treatment Using Data From the ComPaRe e-Cohort**  
Viet-Thi Tran, Victor M. Montori, and Philippe Ravaut   
About 40% of patients with chronic conditions report being unable to sustain current investments of energy, time, and money in health care throughout their lives.
- 513 Prevalence and Impact of Nonalcoholic Fatty Liver Disease in Atrial Fibrillation**  
Daniele Pastori, Angela Sciacqua, Rossella Marcucci, Alessio Farcomeni, Francesco Perticone, Maria Del Ben, Francesco Angelico, Francesco Baratta, Pasquale Pignatelli, and Francesco Violi; the ATHERO-AF study group  
Nonalcoholic fatty liver disease is highly prevalent in atrial fibrillation but is not associated with higher bleeding or thrombotic risk.

## Brief Report

- 521 Septal Myectomy and Concomitant Coronary Artery Bypass Grafting for Patients With Hypertrophic Cardiomyopathy and Coronary Artery Disease**  
Anita Nguyen, Hartzell V. Schaff, Ahmed F. Sedeek, Jeffrey B. Geske, Joseph A. Dearani, Steve R. Ommen, Brian D. Lahr, Jason K. Viehman, and Rick A. Nishimura 

## Medical Image

- 526 Foreign Body in the Mucosa in a Patient With Atopic Dermatitis**  
Aslan Yürekli and Berkay Akmaz

---

**Special Article**

---

- 527** Rethinking Patient and Medical Professional Perspectives on Bariatric Surgery as a Medically Necessary Treatment

Gretchen E. Ames, Jennifer R. Maynard, Maria L. Collazo-Clavell, Matthew M. Clark, Karen B. Grothe, and Enrique F. Elli 

---

**Reviews**

---

- 541** Endothelial Vascular Function as a Surrogate of Vascular Risk and Aging in Women

Peter Collins, Angela Maas, Megha Prasad, Louise Schierbeck, and Amir Lerman

- 554** Treatment of the Connective Tissue Disease–Related Interstitial Lung Diseases: A Narrative Review

Yang Gao and Teng Moua 

---

**Concise Review for Clinicians—CME Credit Offered**

---

- 574** Current Management and Treatment Options for Breast Pain

Lauren F. Cornell, Nicole P. Sandhu, Sandhya Pruthi, and Dawn M. Mussallem

Please note that articles with an “e” page designation are available only in the online version of the Journal at [www.mayooclinicproceedings.org](http://www.mayooclinicproceedings.org)

---

**Residents' Clinic**

---

- 581** 53-Year-Old Man With Hypokalemia and Renal Injury

Zhenmei Zhang, Kathyne N. Wood, and Michael A. Mao

- e23** 91-Year-Old Man With Upper Extremity Ecchymoses

Ryan B. Khodadadi, John R. Ogden, and Ariela L. Marshall 

---

**Thematic Review on Women's Health—CME Credit Offered**

---

- 587** Sex Differences in Diabetic Kidney Disease

Christine Maric-Bilkan

---

**Thematic Review on Vaccines**

---

- 600** Principles of Vaccine Licensure, Approval, and Recommendations for Use

Lary K. Pickering, H. Cody Meissner, Walter A. Orenstein, and Amanda C. Cohn

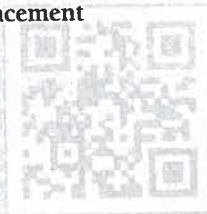

---

**Medical Image**

---

- 609** Aortic Root Thrombus Post-Left Ventricular Assist Device Placement

Pradyumna Agasthi and Reza Arsanjani 

---

**Letters to the Editor**

---

- 611** Cardiac Arrest Definition Using Administrative Codes and Outcomes in Acute Myocardial Infarction  
*Saraschandra Vallabhajosyula, Jacob C. Jentzer, and Chad J. Zack*
- 613** The Exercise Vital Sign as a Potential Alternative to Determining Cardiorespiratory Fitness  
*James T. Langland*
- 613** In reply—The Exercise Vital Sign as a Potential Alternative to Determining Cardiorespiratory Fitness  
*Robert Ross*
- 614** Immune Checkpoint Inhibitor–Induced Type 1 Diabetes: An Underestimated Risk  
*Halis Kaan Akturk and Aaron W. Michels*
- 615** In Reply — Immune Checkpoint Inhibitor–Induced Type 1 Diabetes: An Underestimated Risk  
*Julian A. Marin-Acevedo, Razvan M. Chirila, and Roxana Dronca*
- 615** Legacy of Nutritionist Ancel Keys  
*Phillip B. Sparling*
- 617** News Coverage of the American Cancer Society’s Update to Colorectal Cancer Screening Guidelines  
*Anna Krigel, Vinay K. Prasad, and Benjamin Lebwohl*

---

**Path to Patient Image Quiz**

---

- 619** Fumarate Hydratase-Deficient Renal Cell Carcinoma  
*Sounak Gupta and Lori A. Erickson*

---

**Stamp Vignette on Medical Science**

---

- e31** Ibn Sina (Avicenna): The “Prince of Physicians”  
*Ahmadreza Afshar, David P. Steensma, and Robert A. Kyle* 

---

**Art at Mayo Clinic**

---

- e33** *Orthoceras* and Black Marinace Stone: From Quarries in North Africa and Brazil  
*Margaret R. Wentz*
