Table of Contents

April 2019 Volume 94 Number 4

The May online issue of *Proceedings* will be available by Wednesday, May 1.
Sign up for an alert to the online Table of Contents at www.mayoclinicproceedings.org

Editorials

- 561** **Sex-Based Disparities in Cardiac Arrest Care: Time to Do Better!**
Jacob C. Jentzer, Patricia J.M. Best, and Roger D. White
- 564** **Reasons for Readmission After Placement of Cardiac Implantable Electronic Devices—Is It the Patient, Implanter, or the Traffic?**
Abhishek J. Deshmukh and Samuel J. Asirvatham
- 567** **The Shifting Nature of Endothelial Progenitor Cells in Aortic Stenosis**
Kristina I. Boström
- 570** **Finding Hope and Healing When Cure Is Not Possible: An Oslerian Perspective From 100 Years Ago**
Paul S. Mueller

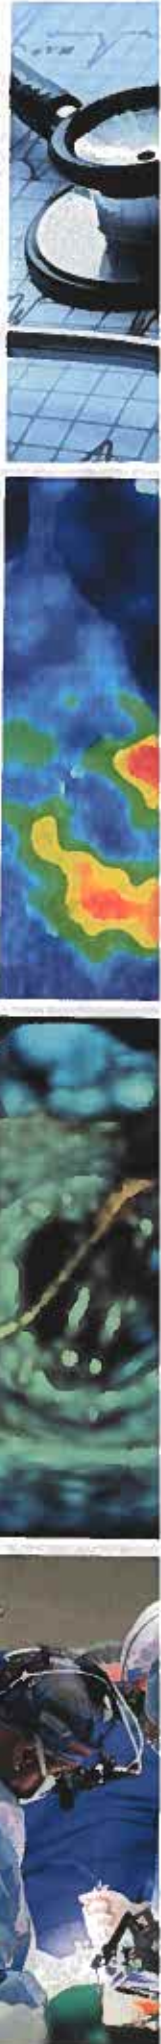

Commentary

- 573** **Work-Life Balance Solutions for Physicians—It's All About You, Your Work, and Others**
Thomas E. Witzig and Sonali M. Smith

Original Articles

- 577** **Sex-Based Disparities in Receiving Bystander Cardiopulmonary Resuscitation by Location of Cardiac Arrest in Japan**
Tasuku Matsuyama, Masashi Okubo, Kosuke Kiyohara, Takeyuki Kiguchi, Daisuke Kobayashi, Chika Nishiyama, Satoe Okabayashi, Tomonari Shimamoto, Junichi Izawa, Sho Komukai, Koichiro Gibo, Bon Ohta, Tetsuhisa Kitamura, Takashi Kawamura, and Taku Iwami
Women 18 to 64 years old were less likely to receive bystander cardiopulmonary resuscitation in a public location than were men.
- 588** **Trends in Hospital Admissions for and Readmissions After Cardiac Implantable Electronic Device Procedures in the United States: An Analysis From 2010 to 2014 Using the National Readmission Database**
Deepak Kumar Pasupula, Arun Rajaratnam, Rohit Rattan, Muhammad Bilal Munir, Shahzad Ahmad, Evan Adelstein, Sandeep Jain, Norman C. Wang, and Samir Saba
The authors identified a decline in the number of in-hospital cardiac implantable electronic device implantations between 2010 and 2014, driven primarily by lower number of defibrillators.

Continued

- 599** **3023 Mayo Clinic Patients With Myeloproliferative Neoplasms: Risk-Stratified Comparison of Survival and Outcomes Data Among Disease Subgroups**
Natasha Szuber, Mythri Mudireddy, Maura Nicolosi, Domenico Penna, Rangit R. Vallapureddy, Terra L. Lasho, Christy Finke, Kebede H. Begna, Michelle A. Elliott, C. Christopher Hook, Alexandra P. Wolansky, Mrinal M. Patnaik, Curtis A. Hanson, Rhett P. Ketterling, Shireen Sirhan, Animesh Pardhanani, Naseema Gangat, Lambert Busque, and Ayalew Tefferi 📄 +
- Overall survival was only marginally better in essential thrombocythemia compared with polycythemia vera, and polycythemia vera displayed a higher risk of thrombosis and fibrotic progression.
- 611** **Distinct Uric Acid Trajectories Are Associated With Different Risks of Incident Hypertension in Middle-Aged Adults**
Hao Ma, Xuan Wang, Xiaoyu Guo, Xiang Li, Lu Qi, and Ying Li 📄 +
- Change in uric acid levels might play a reversible mechanistic role in the early stage of the development of hypertension.
- 620** **Decisions to Withdraw Extracorporeal Membrane Oxygenation Support: Patient Characteristics and Ethical Considerations**
Erin S. DeMartino, Nicholas A. Braus, Daniel P. Sulmasy, J. Kyle Bohman, John M. Stulak, Pramod K. Guru, Kayla R. Fuechtmann, Nausheen Singh, Gregory J. Schears, and Paul S. Mueller 📄 +
- Compassionate management strategies are needed when it becomes clear that extracorporeal membrane oxygenation—ECMO—has become a bridge to nowhere.
- 628** **Fluoroscopically Guided vs Landmark-Guided Sacroiliac Joint Injections: A Randomized Controlled Study**
Steven P. Cohen, Mark C. Bicket, Connie Kurihara, Scott R. Griffith, Ian M. Fowler, Michael B. Jacobs, Richard Liu, Mirinda Anderson White, Aubrey J. Verdun, Sunil B. Hari, Rick L. Fisher, Paul F. Pasquina, and Yakov Vorobeychik 📄 +
- Although fluoroscopically guided injections provide greater intermediate-term benefit in some patients, these differences are modest and accompanied by large cost differences.
- 643** **Association of Muscular Strength and Incidence of Type 2 Diabetes**
Yuehan Wang, Duck-chul Lee, Angelique G. Brellenthin, Xuemei Sui, Timothy S. Church, Carl J. Lavie, and Steven N. Blair 📄 +
- A moderate level of muscular strength is associated with a lower risk of type 2 diabetes, independent of estimated cardiorespiratory fitness.

Brief Report

- 652** **Circulating Osteogenic Progenitor Cells in Mild, Moderate, and Severe Aortic Valve Stenosis**
Mohammed Al-Hijji, Nupoor Narula, Jason L. Go, Sundeep Khosla, Maurice Enriquez-Sarano, Darrell Loeffler, Ryan Lennon, Lilach O. Lerman, and Amir Lerman 📄 +

Reviews

- 660** **How Low to Go With Lipid-Lowering Therapies in a Cost-effective and Prudent Manner**
Rhanderson Cardoso, Roger S. Blumenthal, Stephen Kopecky, Francisco Lopez-Jimenez, and Seth S. Martin
- 670** **Peer Review Bias: A Critical Review**
Samir Haffar, Fateh Bazerbachi, and M. Hassan Murad 📄 +

Special Article

- 677** **Finding Hope and Healing When Cure Is Not Possible**
Brad Stuart, Tracey Danaher, Rana Awdish, and Leonard Berry

686 Developing a Conversation Aid to Support Shared Decision Making: Reflections on Designing Anticoagulation Choice

Claudia L. Zeballos-Palacios, Ian G. Hargraves, Peter A. Noseworthy, Megan E. Branda, Marleen Kunneman, Bruce Burnett, Michael R. Gionfriddo, Christopher J. McLeod, Haeshik Gorr, Juan Pablo Brito, and Victor M. Montori, on behalf of the Shared Decision Making for Atrial Fibrillation (SDM4AFib) Trial Investigators

Concise Review for Clinicians—CME Credit Offered

697 Upper Gastrointestinal Bleeding: Etiologies and Management

Amrit K. Kamboj, Patrick Hoversten, and Cadman L. Leggett

Please note that articles with an "e" page designation are available only in the online version of the Journal at www.mayoclinicproceedings.org

Residents' Clinic

704 56-Year-Old Man With Abdominal Pain and Dyspnea

Manuel B. Braga Neto, Paul V. Viscuse, and Kama K. Sundsted

709 64-Year-Old Man With Subacute Altered Mental Status and Headache

Nandini S. Mehra, Robert C. Ward, and Meltiady Issa

e51 65-Year-Old Woman With Abdominal Pain and Jaundice

Mitchell M. Pitlick, Dharma B. Sunjaya, and Christopher R. Stephenson

Thematic Review Series on Gastroenterological Diseases—CME Credit Offered

714 Portal Hypertension and Related Complications: Diagnosis and Management

Douglas A. Simonetto, Mengfei Liu, and Patrick S. Kamath

Letters to the Editor

727 Effect of the Significant Loss of Salt in Sweat

W. Scott Brooks

727 Sauna Bathing and Healthy Sweating: II

Arnold Eiser

727 In reply—Sauna Bathing and Healthy Sweating

Jari A. Laukkanen, Tanjaniina Laukkanen, and Setor Kunutsor

728 Low-Sodium Intake: A Risk Factor for Stroke?

Natale Musso and Andrea Dotto

729 In reply—Low-Sodium Intake: A Risk Factor for Stroke?

Lyanne M. Kieneker, Michele F. Eisenga, and Stephan J.L. Bakker

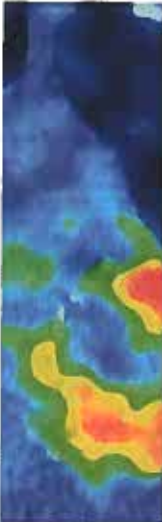

730 Mona Lisa Decrypted: Another Premise

Lawrence D. Mullany

731 In reply—The Mona Lisa Decrypted: Another Premise

Mandeep R. Mehra
