In The Limelight

- 835 **In the Limelight: April 2021**
Karl A. Nath

Editorials

- 838 **Vitamin D and COVID-19**
Tom D. Thacher
- 841 **Listening for Thrombosis**
Michael S. Sabbah, Andrew N. Rosenbaum, and Atta Behfar
- 844 **Physical Activity: Necessary, But Not Adequate Alone, to Overcome Disparities in Cardiovascular Disease in African Americans**
Keith C. Ferdinand and Saihanharan Nedunchezian

Medical Image

- 847 **Disseminated *Nocardia* in an Immunocompetent Host**
Grant A. Wintheiser, Elise R. Venable, and Zelalem Temesgen

Commentaries

- 849 **Rapid, Bottom-Up Design of a Regional Learning Health System in Response to COVID-19**
Andrew F. Beck, David M. Hartley, Robert S. Kahn, Stuart C. Taylor, Elizabeth Bishop, Kate Rich, Myra S. Saeed, Christine L. Schuler, Michael Seid, Susan C. Cronin, Laura Raney, Muhammad A. Zafar, and Peter A. Margolis
- 856 **E-Cigarettes, Harm Reduction, and Tobacco Control: A Path Forward?**
Thomas J. Glynn, J. Taylor Hays, and Katherine Kemper

Perspective and Controversies

- 863 **The Yin and Yang of SARS-CoV-2 Mutation and Evolution**
Andrew D. Badley

Continued

866 Misconceptions About Sexual Health in Older Women: Why We Need to Talk About ItCarol L. Kuhle, Xin Zhang, and Ekta Kapoor **870 Getting Primary Care — A Life-Saving Intervention — Off Life Support**Jennifer E. DeVoe **Original Articles****875 Vitamin D Status Is Associated With In-Hospital Mortality and Mechanical Ventilation: A Cohort of COVID-19 Hospitalized Patients**Angeliki M. Angelidi, Matthew J. Belanger, Michael K. Lorinsky, Dimitrios Karamanis, Natalia Chamorro-Pareja, Jennifer Ognibene, Leonidas Palaiodimos, and Christos S. Mantzoros  

Among patients admitted with laboratory-confirmed COVID-19, 25(OH)D levels were inversely associated with in-hospital mortality and the need for invasive mechanical ventilation.

887 Acoustic Properties of Axial and Centrifugal Flow Left Ventricular Assist Devices and Prediction of Pump ThrombosisBarry A. Boilson, Elizabeth L. Bechtum, Amy L. Behnken, Laura A. Loga, Angela J. Luckhardt, Sarah D. Schettle, Alfredo L. Clavell, Dan Dragomir-Daescu, and John M. Stulak  

Alterations in the amplitude of higher order harmonics may signal the onset of pump thrombosis in axial flow left ventricular assist devices.

901 Physical Activity, Inflammation, Coronary Artery Calcification, and Incident Coronary Heart Disease in African Americans: Insights From the Jackson Heart StudyDaisuke Kamimura, Loretta R. Cain-Shields, Donald Clark III, Adebamike A. Oshunbade, Kellan E. Ashley, Cameron S. Guild, Paul D. Loprinzi, Robert Newton, Michael J. Blaha, Takeki Suzuki, Javed Butler, John E. Hall, Adolfo Correa, and Michael E. Hall  

In a large community-based African American cohort, ideal physical activity was associated with lower inflammation levels, a lower prevalence of coronary artery calcification, and a lower rate of incident coronary heart disease.

912 Adherence to Public Health Measures Mitigates the Risk of COVID-19 Infection in Older Adults: A Community-Based StudyYoung J. Juhn, Chung-Il Wi, Euijung Ryu, Priya Sampathkumar, Paul Y. Takahashi, Joseph D. Yao, Matthew J. Binnicker, Traci L. Natoli, Tamara K. Evans, Katherine S. King, Stephanie Volpe, Jean-Yves Pirçon, Silvia Damaso, and Robert J. Pignolo  

The combination of participants' behavior in following the recommended public health measures and their living environment may significantly mitigate the risk of COVID-19.

921 Obesity is a Major Risk Factor for Hospitalization in Community-Managed COVID-19 PneumoniaMarcello Cottini, Carlo Lombardi, and Alvisè Berti; for the Primary Care Physicians, ATS Province of Bergamo, Italy  

Obese patients with community-managed COVID-19 pneumonia were more likely to require hospitalization and had an overall more severe course than nonobese patients.

932 Cardiac Abnormalities in COVID-19 and Relationship to OutcomeHema Krishna, Alexander J. Ryu, Christopher G. Scott, Deepa R. Mandale, Tasneem Z. Naqvi, and Patricia A. Pellikka 

Among patients hospitalized with COVID-19 infection and requiring clinically indicated echocardiography, comorbid conditions were prevalent, including especially hypertension, diabetes mellitus, history of prior cardiovascular disease, and history of smoking.

- 943** **Pain Manifestations of COVID-19 and Their Association With Mortality: A Multicenter Prospective Observational Study**
Nigel Knox, Chang-Soon Lee, Jee Youn Moon, and Steven P. Cohen 
 Individuals without pain were more likely to require intensive care and die than those with pain.
- 952** **Place and Underlying Cause of Death During the COVID-19 Pandemic: Retrospective Cohort Study of 3.5 Million Deaths in England and Wales, 2014 to 2020**
Jianhua Wu, Marion Maffham, Mamas A. Mamas, Muhammad Rashid, Evangelos Kontopantelis, John E. Deanfield, Mark A. de Belder, and Chris P. Gale 
 The COVID-19 pandemic has resulted in a large excess of deaths in care homes that were poorly characterized and likely to be the result of undiagnosed COVID-19.
- 964** **Risk of Cardiac Morbidities and Sudden Death in Patients With Epilepsy and No History of Cardiac Disease: A Population-Based Nationwide Study**
Chun-Yu Cheng, Chia-Yu Hsu, Ting-Chung Wang, Chia-Yen Liu, Yao-Hsu Yang, and Wei-Hsun Yang 
 An epilepsy diagnosis per se may be associated with increased susceptibility to cardiac complications.
- 975** **Adherence to Chronic Kidney Disease Screening Guidelines Among Patients With Type 2 Diabetes in a US Administrative Claims Database**
Kerstin Folkerts, Natalia Petruski-Ivleva, Erin Comerford, Michael Blankenburg, Thomas Evers, Alain Gay, Linda Fried, and Csaba P. Kovcsy 
 Despite recommendations to monitor both estimated glomerular filtration rate and urine albumin to creatinine ratio, less than 50% of patients were screened for albuminuria during a 1-year follow-up.

Medical Image

- 987** **Scalp Necrosis in Giant Cell Arteritis**
Olivier Espitia and Christian Agard

Reviews

- 989** **Pernio (Chilblains), SARS-CoV-2, and COVID Toes Unified Through Cutaneous and Systemic Mechanisms**
Mark A. Cappel, Jonathan A. Cappel, and David A. Wetter  
- 1006** **Sex Differences in Alcohol Consumption and Alcohol-Associated Liver Disease**
Camille A. Kezer, Douglas A. Simonetto, and Vijay H. Shah 
- 1017** **The Oxygen Cascade During Exercise in Health and Disease**
Paolo B. Dominelli, Chad C. Wiggins, Tuhin K. Roy, Timothy W. Secomb, Timothy B. Curry, and Michael J. Joyner

Concise Review for Clinicians—CME CREDIT OFFERED

- 1033** **Preventing Breast Cancer Through Identification and Pharmacologic Management of High-Risk Patients**
Elizabeth A. Gilman, Sandhya Pruthi, Erin W. Hofstatter, and Dawn M. Mussallem  

Residents' Clinics

- 1041 48-Year-Old Woman With Dyspnea and Chest Pain**
Steven R. Hwang and Adam P. Sawatsky
- 1047 28-Year-Old Man With an Enlarged Left Testicle**
Mason J. Webb, Antonious Z. Hazim, and Tony Y. Chon
- 1052 77-Year-Old Man With Nausea and Abdominal Pain**
Chansong Choi, Amrit K. Kamboj, and Randall K. Pearson

Thematic Reviews on Women's Health

- 1058 Chronic Coronary Syndromes in Women: Challenges in Diagnosis and Management**
Matthias R. Meyer
- 1071 Sex- and Gender-Related Differences in Common Functional Gastroenterologic Disorders**
Susrutha Puthanmadhom Narayanan, Bradley Anderson, and Adil E. Bharucha

Medical Image

- 1090 A Unique Case of Chronic Cough**
Gregory Wigger and Munish Luthra 

Letters to the Editor

- 1092 Outcomes of COVID-19 With the Mayo Clinic Model of Care and Research**
Don Bambino Geno Tai and Walter R. Wilson
- 1092 In reply—Outcomes of COVID-19 With the Mayo Clinic Model of Care and Research**
John C. O'Horo and Andrew D. Badley
- 1093 *Brevibacterium* Species: An Emerging Opportunistic Cause of Bloodstream Infections**
FNU Shweta, Pooja R. Gurram, John C. O'Horo, and Sarwat Khalil
- 1095 Risk Prediction Models: Can They Be Applied in All Situations?**
Guillermo Lema
- 1095 In Reply — Risk Prediction Models: Can They Be Applied in All Situations?**
Dennis M. Bierle
- 1095 Corrections**

Path to Patient Image Quiz

- 1097 Juvenile Papillomatosis of Breast**
Beiyun Chen and Lori A. Erickson

Art at Mayo Clinic

1099 **Mosaic Tesserae (Stones) and Concrete Mortar**
Margaret R. Wentz
