

# MAYO CLINIC PROCEEDINGS

[www.mayoclinicproceedings.org](http://www.mayoclinicproceedings.org)

Table of Contents

July 2017 Volume 92 Number 7

The August online issue of *Proceedings* will be available by Tuesday, August 1.  
Sign up for an alert to the online Table of Contents at [www.mayoclinicproceedings.org](http://www.mayoclinicproceedings.org).

## Editorials

- 1011** The Search Continues for Optimal Intensive Care Unit Glucose Management and Measurement  
*Micah T. Long, Ann M. Sheehy, and Douglas B. Coursin*
- 1015** Affirming the Mission of *Mayo Clinic Proceedings*  
*Karl A. Nath*

## Original Articles

- 1019** Glucose Control, Diabetes Status, and Mortality in Critically Ill Patients: The Continuum From Intensive Care Unit Admission to Hospital Discharge  
*James S. Krinsley, Paula Maurer, Sharon Holewinski, Roy Hayes, Douglas McComsey, Guillermo E. Umpierrez, and Stanley A. Nasraway*   
- These findings suggest that the blood glucose target of 140 to less than 180 mg/dL is not appropriate for patients without diabetes mellitus.
- 1030** Blood Gas Analyzer Accuracy of Glucose Measurements  
*Yafen Liang, Jonathan Wanderer, James H. Nichols, David Klonoff, and Mark J. Rice* 
- The results of this study suggest no clinically relevant clinical inaccuracy from the use of blood gas analyzers in a critically ill population.
- 1042** Exposure to Surgery and Anesthesia After Concussion Due to Mild Traumatic Brain Injury  
*Amolek S. Abcejo, Rodolfo Savica, William L. Lanier, and Jeffrey J. Pasternak*  
- Clinicians should have increased awareness for concussion in patients who sustain a trauma and may need to take measures to avoid potentially injury-augmenting cerebral physiology in these patients.
- 1053** A Diagnostic Approach to Recurrent Orofacial Swelling: A Retrospective Study of 104 Patients  
*Rachel Y. Miest, Alison J. Bruce, Nneka I. Comfere, Elena Hadjicharalambous, Dawnielle Endly, Christine M. Lohse, and Roy S. Rogers III* 
- This study serves to increase awareness of the diagnoses that can manifest as recurrent orofacial swelling and to highlight the need for a multidisciplinary approach.

Continued

**1061 One- vs 2-Stage Bursectomy for Septic Olecranon and Prepatellar Bursitis: A Prospective Randomized Trial**

*Ilker Uçkay, Elodie von Dach, Cédric Perez, Americo Agostinho, Philippe Garnerin, Benjamin A. Lipsky, Pierre Hoffmeyer, and Didier Pittet*

One-stage bursectomy with primary closure together with 7 days of oral antibiotic drug therapy is safe and is associated with lower financial costs and nurses' workload.

**1070 Parkinson Disease and Melanoma: Confirming and Reexamining an Association**

*Lauren A. Dalvin, Gena M. Damento, Barbara P. Yawn, Barbara A. Abbott, David O. Hodge, and Jose S. Pulido*

There appears to be an association between melanoma and Parkinson disease. Physicians may consider counseling patients about risk and implementing cutaneous and ocular melanoma surveillance in patients with Parkinson disease.

**Special Article****1080 Decreasing Patient Stress and Physician/Medical Workforce Burnout Through Health Care Environments: Uncovering the Serious Leisure Perspective at Mayo Clinic's Campus in Rochester, Minnesota**

*Rodney B. Dieser, Christopher R. Edginton, and Renee Ziemer*

**Review****1088 Crohn Disease: Epidemiology, Diagnosis, and Management**

*Joseph D. Feuerstein and Adam S. Cheifetz*

**Concise Review for Clinicians—CME Credit Offered****1104 Chronic Obstructive Pulmonary Disease Phenotypes: Implications for Care**

*Shireen Mirza and Roberto Benzo*

Please note that articles with an "e" page designation are available only in the online version of the Journal at [www.mayoclinicproceedings.org](http://www.mayoclinicproceedings.org)

**Residents' Clinic****1113 54-Year-Old Woman With Progressive Dyspnea on Exertion and Syncopal Episodes**

*Catalina Sanchez-Alvarez, Oludamilola Oluleye, and Joseph L. Blackshear*

**e101 59-Year-Old Man With Sore Throat and Fever**

*Myra A. Irvin, Donnesha B. Clayton, and Dana M. Harris*

**Symposium on Neoplastic Hematology and Medical Oncology—CME Credit Offered****1118 Leukemic Transformation in Myeloproliferative Neoplasms: A Literature Review on Risk, Characteristics, and Outcome**

*Meera Yogarajah and Ayalew Tefferi*

**Symposium on Precision Medicine—CME Credit Offered****1129 Prediction of Response to Targeted Treatment in Rheumatoid Arthritis**

*C.A. Wijbrandts and P.P. Tak*

---

**Symposium on Neurosciences—CME Credit Offered**

---

- 1144** Evaluation and Management of Atherosclerotic Carotid Stenosis  
*James F. Meschia, James P. Klaas, Robert D. Brown Jr., and Thomas G. Brott* 

---

**Case Report**

---

- 1158** Scleroderma Induced by Pembrolizumab: A Case Series  
*Naiara S. Barbosa, David A. Wetter, Carlyn N. Wieland, Niraj K. Shenoy, Svetomir N. Markovic, and Uma Thanarajasingam* 

---

**Letters to the Editor**

---

- 1164** Financial Conflict of Interest and Academic Influence Among Experts Speaking on Behalf of the Pharmaceutical Industry at the US Food and Drug Administration's Oncologic Drugs Advisory Committee Meetings  
*Austin Lammers, Jonathan Edmiston, Victoria Kaestner, and Vinay Prasad*
- 1166** Bisphosphonates and Osteonecrosis of the Jaw  
*Teck Kim Khoo*
- 1167** In Reply—Bisphosphonates and Osteonecrosis of the Jaw  
*James S. Goodwin*
- 1167** Dose-Response Relationship Between Severe Hypercholesterolemia and Body Mass Index in Healthy Young Adults  
*Tomohide Yamada, Shintaro Yanagimoto, and Takashi Kadowaki*

---

**Medical Images**

---

- 1169** MYH9-Related Thrombocytopenia  
*Byung Hoon Ban and Vrushali Shah*

---

**Path to Patient Image Quiz**

---

- 1171** Squamous Cell Carcinoma of the Tongue  
*Lori A. Erickson*

---

**Stamp Vignette On Medical Science**

---

- e105** Adolf Lorenz — The Bloodless Surgeon of Vienna  
*Ahmadreza Afshar, Robert A. Kyle, and David P. Steensma* 

Art at Mayo Clinic

- e107 *East River and East River #2* by Mitchell Johnson  
Margaret R. Wentz
