Table of Contents

August 2021 Volume 96 Number 8

The September online issue of *Proceedings* will be available by Wednesday, September 1. Sign up for an alert to the online Table of Contents at [www.mayoclinicproceedings.org](http://www.mayoclinicproceedings.org)

## In The Limelight

2017 In the Limelight: August 2021

Karl A. Nath 

## Editorials

2020 Surgery for Pituitary Adenoma: Endoscope Versus Microscope: Does It Make a Difference?

Michael R. Chicoine

2022 The Invisible Silent Killer

David L. Joyce

2025 Occupational Health Risks of Practicing Medicine

Elizabeth C. Lawrence

## Medical Image

2028 Xiphoid Process Syndrome

Chunni He and Jun Li

## Commentary

2029 Autoimmune Encephalitis–Related Seizures and Epilepsy: Diagnostic and Therapeutic Approaches

Baibing Chen, A. Sebastian Lopez Chiriboga, Joseph I. Sirven, and Anteneh M. Feyissa 

## Perspective and Controversy

2040 Decision-Making Capacity, Opioid Use Disorder, and the 3-Stage Model of Addiction

Benjamin Steren, John Hughes, and William C. Becker

Continued

## Original Articles

- 2043 Pituitary Tumor Surgery: Comparison of Endoscopic and Microscopic Techniques at a Single Center**  
*Jamie J. Van Gompel, John L.D. Atkinson, Garret Choby, Jan L. Kasperbauer, Janalee K. Stokken, Jeffrey R. Janus, Erin K. O'Brien, Jason T. Little, Irina Bancos, Caroline J. Davidge-Pitts, Dhanya Ramachandran, Justine S. Herndon, Dana Erickson, and William L. Lanier* 
- Microscopic surgery has shorter operative times and overall lower cost. Endoscopic surgery results in increased volumetric resection and fewer secondary treatments.
- 2058 Impact of Pulmonary Hypertension on In-Hospital Outcomes and 30-Day Readmissions Following Percutaneous Coronary Interventions**  
*Neelkumar Patel, Bharat Narasimhan, Dhruvajyoti Bandyopadhyay, Mahmoud Amreia, Sandipan Chakraborty, Adrija Hajra, Birendra Amgai, Devesh Rai, Yiming Luo, Chayakrit Krittanawong, Amit Kumar Dey, Raktim K. Ghosh, Gregg C. Fonarow, Gregg M. Lanier, Teresa De Marco, and Srihari S. Naidu* 
- Patients with pulmonary hypertension who present with chest pain have a high comorbidity burden, and meticulous screening for sub-clinical left heart disease appears essential in this high-risk population.
- 2067 Suicidal Ideation and Attitudes Regarding Help Seeking in US Physicians Relative to the US Working Population**  
*Tait D. Shanafelt, Lotte N. Dyrbye, Colin P. West, Christine Sinsky, Michael Tutty, Lindsey E. Carlasare, Hanhan Wang, and Mickey Trockel*  
- In this large national study conducted before the COVID-19 pandemic, roughly 7% of US physicians had thoughts of taking their own life in the past year.
- 2081 Rapid Exclusion of COVID Infection With the Artificial Intelligence Electrocardiogram**  
*Zachi I. Attia, Suraj Kapa, Jennifer Dugan, Naveen Pereira, Peter A. Noseworthy, Francisco Lopez Jimenez, Jessica Cruz, Rickey E. Carter, Daniel C. DeSimone, John Signorino, John Halamka, Nikhita R. Chennaiah Gari, Raja Sekhar Madathala, Pyotr G. Platonov, Fahad Gul, Stefan P. Janssens, Sanjiv Narayan, Gaurav A. Upadhyay, Francis J. Alenghat, Marc K. Lahiri, Karl Dujardin, Melody Hermel, Paari Dominic, Karam Turk-Adawi, Nidal Asaad, Anneli Svensson, Francisco Fernandez-Aviles, Darryl D. Esakof, Jozef Bartunek, Amit Noheria, Arun R. Sridhar, Gaetano A. Lanza, Kevin Cohoon, Deepak Padmanabhan, Jose Alberto Pardo Gutierrez, Gianfranco Sinagra, Marco Merlo, Domenico Zagari, Brenda D. Rodriguez Escenaro, Dev B. Pahljani, Goran Loncar, Vladan Vukomanovic, Henrik K. Jensen, Michael E. Farkouh, Thomas F. Luescher, Carolyn Lam Su Ping, Nicholas S. Peters, and Paul A. Friedman; with the Discover Consortium (Digital and Noninvasive Screening for COVID-19 with AI ECG Repository)*  
- Infection with SARS-CoV-2 results in electrocardiographic changes that permit the artificial intelligence-enhanced ECG to be used as a rapid screening test with a high negative predictive value (99.2%).
- 2095 Readability of Participant Informed Consent Forms and Informational Documents: From Phase 3 COVID-19 Vaccine Clinical Trials in the United States**  
*Luke S. Bothun, Scott E. Feeder, and Gregory A. Poland* 
- An appreciable percent of the study participants involved in phase 3 COVID-19 vaccine trials in the United States are likely to have not understood the consent forms used.
- 2102 Acute Pulmonary Embolism During Pregnancy and Puerperium: National Trends and In-Hospital Outcomes**  
*Islam Y. Elgendy, Mohamed M. Gad, Hend Mansoor, Ahmed N. Mahmoud, Ayman Elbadawi, Anas Saad, Marwan Saad, Ahmed Elkaryoni, Eric A. Secemsky, Mamas A. Mamas, Manuel Monreal, Ido Weinberg, and Carl J. Pepine*   
- Acute pulmonary embolism during pregnancy and the puerperium was associated with high maternal mortality, and the rates of in-hospital mortality have not improved.

- 2114 Barriers to ACEI/ARB Use in Proteinuric Chronic Kidney Disease: An Observational Study**  
 Ian E. McCoy, Jialin Han, Maria E. Montez-Rath, and Glenn M. Chertow   
 These findings suggest that clinicians are aware that ACEIs/ARBs are indicated in this patient population but that barriers hinder continued use.
- 2123 Self-Valuation Challenges in the Culture and Practice of Medicine and Physician Well-being**  
 Mickey Trockel, Christine Sinsky, Colin P. West, Liselotte N. Dyrbye, Michael Tutty, Lindsey Carlisare, Hanhan Wang, and Tait Shanafelt   
 Lower self-valuation may be an explanatory variable in understanding medical culture and practice factors associated with physician burnout.
- 2133 Outcomes and Echocardiographic Follow-up After Surgical Management of Tricuspid Regurgitation in Patients With Transvenous Right Ventricular Leads**  
 Ying Huang, Joseph A. Dearani, Nishant Saran, John M. Stulak, Kevin L. Greason, Juan A. Crestanello, Richard C. Daly, Alberto Pochettino, Brian D. Lahr, Grace Lin, and Hartzell V. Schaff   
 Lead-induced tricuspid regurgitation did not affect long-term survival after elective tricuspid valve surgery.
- 2145 Sex Differences in Outcomes of Patients With Chronic Aortic Regurgitation: Closing the Mortality Gap**  
 Li-Tan Yang, Maurice Enriquez-Sarano, Patricia A. Pellikka, Prabin Thapa, Christopher G. Scott, Judy W. Hung, and Hector I. Michelena   
 Women with aortic regurgitation continue to exhibit an overall survival penalty, not related to female sex but to late referral markers, including more advanced symptoms, larger left ventricular end-systolic dimension index, and less aortic valve surgical intervention.
- 2157 Serum 25-Hydroxyvitamin D and Subsequent Cancer Incidence and Mortality: A Population-Based Retrospective Cohort Study**  
 Casey R. Johnson, Daniel V. Dudenkov, Kristin C. Mara, Philip R. Fischer, Julie A. Maxson, and Tom D. Thacher   
 Low 25(OH)D levels were associated with increased risk for incident nonskin cancer and cancer-related mortality.
- 2168 A Longitudinal Study Exploring Learning Environment Culture and Subsequent Risk of Burnout Among Resident Physicians Overall and by Gender**  
 Liselotte N. Dyrbye, Colin P. West, Jeph Herrin, John Dovidio, Brooke Cunningham, Mark Yeazel, Veronica Lam, Ivuoma N. Onyeador, Natalie M. Wittlin, Sara E. Burke, Sharonne N. Hayes, Sean M. Phelan, and Michelle van Ryn   
 Differences in burnout for men versus women were at least partly due to differing levels of exposure to negative interactions rather than a negative interaction having a differential impact on the well-being of men versus women.

## Medical Images

- 2184 Groove Sign in Eosinophilic Fasciitis**  
 Ahmed I. Mourad, Julia S. Lehman, and P. Régine Mydlarski

## Brief Report

- 2185 Early Diagnosis and Outcome in Patients With Wild-Type Transthyretin Cardiac Amyloidosis**  
 Carlo Fumagalli, Mattia Zampieri, Federico Perfetto, Chiara Zocchi, Nicolò Maurizi, Luigi Tassetti, Andrea Ungar, Martina Gabriele, Giulia Nardi, Guido Del Monaco, Katia Baldini, Alessia Tomberli, Benedetta Tomberli, Nicolò Marchionni, Carlo Di Mario, Iacopo Olivotto, and Francesco Cappelli 

**Diagnosis and Treatment Guidelines - My Treatment Approach****2192 My Treatment Approach to *Clostridioides difficile* Infection**Sahil Khanna **Reviews****2205 Users' Guide to Medical Decision Analysis**Claudia C. Dobler, Gordon H. Guyatt, Zhen Wang, and M. Hassan Murad  **2218 A Proposed Approach for Conducting Studies That Use Data From Social Media Platforms**Ryan S. D'Souza, W. Michael Hooten, and M. Hassan Murad  **2230 Antiarrhythmic Drugs for Atrial Fibrillation in the Outpatient Setting: Common Clinical Scenarios and Pearls for the Primary Care Clinician**Andrew S. Tseng, Gurukripa N. Kowlgi, and Christopher V. DeSimone **Residents' Clinics****2243 61-Year-Old Man With Shortness of Breath and Cough**

Gretchen A. Colbenson, Emily M. Olson, and Darlene R. Nelson

**2248 45-Year-Old Woman With Fever and Malaise**

Sneha Mohan, Nikhil Kolluri, and Rozalina G. McCoy

**2254 80-Year-Old Man With Orthopnea, Dyspnea, and Hemoptysis**

Jared M. Warczytowa, Anthony W. Robateau, and Thomas J. Beckman

**Thematic Review on Perioperative Medicine****2260 Perioperative Cardiac Risk Reduction in Noncardiac Surgery**Ravindra Ganesh, Esayas Kebede, Michael Mueller, Elizabeth Gilman, and Karen F. Mauck **Medical Image****2277 Multiple Renal Microaneurysms in Polyarteritis Nodosa**Daisuke Tsukui and Hajime Kono **Letters to the Editor****2279 How Safe Is COVID-19 Convalescent Plasma?**

Massimo Franchini and Mario Cruciani

**2281 In Reply—How Safe Is COVID-19 Convalescent Plasma?**

Michael J. Joyner, Allan M. Klompas, Stephen A. Klassen, Jonathon W. Senefeld, DeLisa Fairweather, R. Scott Wright, and Rickey E. Carter

**2282 Effects of Empagliflozin Treatment on Cardiac Biomarkers in Adults With Metabolically Healthy Obesity: Results From a Randomized, Placebo-Controlled Clinical Trial**

Sadiya S. Khan, Anubha Agarwal, Colby R. Ayers, Eunsook Jin, and Ian J. Neeland
