In Focus

- 151 Spotlight on the July 24 issue
152 This Week's *Neurology®* Podcast

Editorials

- 153 Not all, but specific types of cognitive complaints predict decline to MCI
F. Jessen and F.S. Rodriguez (née Then)

155 Amended diagnostic protocol increases the early diagnosis of sporadic Creutzfeldt-Jakob disease
A. Buzzi and K. Peach

157 Spinal cord atrophy rates: Ready for prime time in multiple sclerosis clinical trials?
F. Prados and F. Barkhof

Ahead of Print Articles and Editorials

NPub.org/aheadofprint

Articles: Short Format

Full articles at Neurology.org/N

- 159 **Subjective cognitive decline and risk of MCI: The Mayo Clinic Study of Aging**
A.C. van Harten, M.M. Mielke, D.M. Swenson-Dravis, C.E. Hagen, K.K. Edwards, R.O. Roberts, Y.E. Geda, D.S. Knopman, and R.C. Petersen
Editorial, p. 153

160 **Loss of white matter integrity reflects tau accumulation in Alzheimer disease defined regions**
J.F. Strain, R.X. Smith, H. Beaumont, C.M. Roe, B.A. Gordon, S. Mishra, B. Adeyemo, J.J. Christensen, Y. Su, J.C. Morris, T.L.S. Benzinger, and B.M. Ances

161 **Biallelic *SQSTM1* mutations in early-onset, variably progressive neurodegeneration**
V. Muto, E. Flex, Z. Kupchinsky, G. Primiano, H. Galehdari, M. Dehghanl, S. Ceccetti, G. Carpentieri, T. Rizza, N. Mazaheri, A. Sedaghat, M.Y. Vahidi Mehrjardi, A. Traversa, M. Di Nottia, M.M. Kousi, Y. Jamshidi, A. Ciolfi, V. Caputo, R.A. Malamiri, F. Pantaleoni, S. Martinelli, A.R. Jeffries, J. Zeighami, A. Sherafat, D. Di Giuda, G.R. Shariati, R. Carrozzo, N. Katsanis, R. Maroofian, S. Servidei, and M. Tartaglia
Video

162 **Validation and utilization of amended diagnostic criteria in Creutzfeldt-Jakob disease surveillance**
P. Hermann, M. Laux, M. Glatzel, J. Matschke, T. Knipper, S. Goebel, J. Treig, W. Schulz-Schaeffer, M. Cramm, M. Schmitz, and I. Zerr
Editorial, p. 155 Class of Evidence

163 **A Roma founder *BIN1* mutation causes a novel phenotype of centronuclear myopathy with rigid spine**
M. Cabrera-Serrano, F. Mavillard, V. Biancalana, E. Rivas, B. Morar, A. Hernández-Lain, M. Olive, N. Muelas, E. Khan, A. Carvajal, P. Quiroga, J. Diaz-Manera, M. Davis, R. Ávila, C. Dominguez, N.B. Romero, J.J. Vilchez, D. Comas, N.G. Lalng, J. Laporte, L. Kalaydjieva, and C. Paradas

164 **Spinal cord volume loss: A marker of disease progression in multiple sclerosis**
C. Tsagkas, S. Magon, L. Gaetano, S. Pezold, Y. Naegelin, M. Amann, C. Stippich, P. Cattin, J. Wuerfel, O. Blieri, T. Sprenger, L. Kappos, and K. Parrmar
Editorial, p. 157

165 **Drug reaction with eosinophilia and systemic symptoms after daclizumab therapy**
S. Rauer, L. Stork, H. Urbach, A. Stathl, A. Marx, P. Süß, M. Prinz, W. Brück, and I. Metz

166 **Noninvasive vagus nerve stimulation as acute therapy for migraine: The randomized PRESTO study**
C. Tassorelli, L. Grazzi, M. de Tommaso, G. Pierangeli, P. Martelletti, I. Rainero, S. Dorlas, P. Geppetti, A. Ambrosini, P. Sarchielli, E. Liebler, and P. Barbanti, On behalf of the PRESTO Study Group
CME Course Open Access Article Podcast
Class of Evidence

Continued

- 167 **Comment: Noninvasive neurostimulation for migraine should be part of the general neurologist's therapeutic armamentarium**
R.B. Lipton and P.J. Goadsby
- 168 **Female sex hormones in men with migraine**
W.P.J. van Oosterhout, G.G. Schoonman, E.W. van Zwet, O.M. Dekkers, G.M. Terwindt, A. MaassenVanDenBrink, and M.D. Ferrari
- 169 **Urinary cadmium concentration and the risk of ischemic stroke**
C. Chen, P. Xun, C. Tsinovoi, L.A. McClure, J. Brockman, L. MacDonald, M. Cushman, J. Cai, L. Kamendulis, J. Mackey, and K. He
CME Course

What's Happening

- 170 **What's happening in Neurology®***
- 171 **What's happening in Neurology® Clinical Practice**
- 172 **What's happening in Neurology® Genetics**
- 173 **What's happening in Neurology® Neuroimmunology & Neuroinflammation**
- 174 **What's happening in Without Borders**

Historical Neurology

- 175 **Denise Louis-Bar: The eponymous woman of Louis-Bar syndrome**
E.A. Coon, P.J. Koehler, and C.J. Boes

Clinical/Scientific Notes

- 180 **IgLON5: A case with predominant cerebellar tau deposits and leptomeningeal inflammation**
F. Schöberl, J. Levin, J. Remi, N. Goldschagg, O. Eren, N. Okamura, M. Unterrainer, A. Rominger, N. Albert, and M. Brendel

Reflections: Neurology and the Humanities

- 183 **An unambiguous prognosis**
L.K. Ronan
Audio

NeuroImages

- 185 **Gold thread acupuncture for hemifacial spasm**
S. Kwon and G. Kim

Resident & Fellow Section

- 187 **Pearls & Oy-sters: A curable myopathy manifesting as exercise intolerance and respiratory failure**
A.M.S. Silva, R.H. Mendonça, D.C. Soares, D. Callegaro, V.M. Caldas, I.N. Perissinotti, M.S. Carvalho, and E. Zanoteli
- e392 **Clinical Reasoning: A patient with multiple cranial nerve palsies and areflexic paraparesis**
R.K. Garg, I. Rizvi, H.S. Malhotra, M.M. Mehta, M. Jahn, M.M. Goel, R. Uniyal, and N. Kumar

- e396 **Teaching NeuroImages: Alexander disease with features of both frontal and bulbospinal involvement**
T.-S. Nam, K.-W. Kang, S.-Y. Choi, and M.-K. Kim
- e398 **The frontal eye field**
P. Bourdillon, M. Guénod, P.-A. Beuriat, and K. Ostrowsky-Coste
Video

Disputes & Debates: Editors' Choice

- 191 **Editors' note: Teaching NeuroImages: A rare case of giant perivascular spaces in the midbrain manifesting as atypical parkinsonism**
M. Alcauska and S. Galetta
- 191 **Reader response: Teaching NeuroImages: A rare case of giant perivascular spaces in the midbrain manifesting as atypical parkinsonism**
S. Bhattacharjee
- 192 **Author response: Teaching NeuroImages: A rare case of giant perivascular spaces in the midbrain manifesting as atypical parkinsonism**
P. Ferrer
- 193 **Editors' note: Optimal deep brain stimulation site and target connectivity for chronic cluster headache**
M. Alcauska and S. Galetta
- 193 **Reader response: Optimal deep brain stimulation site and target connectivity for chronic cluster headache**
V.K. Gupta
- 194 **Author response: Optimal deep brain stimulation site and target connectivity for chronic cluster headache**
H. Akram, M. Matharu, and L. Zrinzo

Department**In the Next Issue of Neurology®****Cover image**

An image from Denise Louis-Bar's 1941 *Confinia Neurologica* report demonstrates ocular telangiectasias in a child. Colorized by Cindy Abair, *Neurology* Senior Graphics Editor.
