

BRAIN

A JOURNAL OF NEUROLOGY

Volume 143 Part 10 October 2020

Editorial

2863 Editorial. *D. M. Kullmann*

Scientific Commentaries

2864 Clinical and pathogenic themes in hereditary spastic paraplegia. *T. T. Warner*

2866 Optimizing treatment strategies in paediatric, adult and late-onset multiple sclerosis. *C. Gaudioso and R. T. Naismith*

2868 Lowering the risk of Parkinson's disease with GLP-1 agonists and DPP4 inhibitors in type 2 diabetes. *E. Bayram and I. Litvan*

2871 Body-first versus brain-first biological subtyping of Parkinson's disease. *N. I. Bohnen and R. B. Postuma*

Review Article

2874 Definitions and classification of malformations of cortical development: practical guidelines. *M. Severino, A. F. Geraldo, N. Utz, et al.*

Update

2895 Functional cognitive disorder: dementia's blind spot. *H. A. Ball, L. McWhirter, C. Ballard, et al.*

Report

2904 A novel RFC1 repeat motif (ACAGG) in two Asia-Pacific CANVAS families. *C. K. Scriba, S. J. Beecroft, J. S. Clayton, et al.*

Original Articles

2911 *YIF1B* mutations cause a post-natal neurodevelopmental syndrome associated with Golgi and primary cilium alterations. *J. Diaz, X. Gérard, M.-B. Emerit, et al.*

2929 Defining the clinical, molecular and imaging spectrum of adaptor protein complex 4-associated hereditary spastic paraplegia. *D. Ebrahimi-Fakhari, J. Teinert, R. Behne, et al.*

2945 Functional gene networks reveal distinct mechanisms segregating in migraine families. *A. H. Rasmussen, L. J. A. Kogelman, D. M. Kristensen, et al.*

2957 Autoimmune encephalitis mediated by B-cell response against N-methyl-D-aspartate receptor. *I. Wagnon, P. Hélie, I. Bardou, et al.*

2973 7 T imaging reveals a gradient in spinal cord lesion distribution in multiple sclerosis. *R. Ouellette, C. A. Treaba, T. Granberg, et al.*

2988 Histopathology-validated recommendations for cortical lesion imaging in multiple sclerosis. *P. M. Bouman, M. D. Steenwijk, P. J. W. Pouwels, et al.*

2998 Vascular disease and multiple sclerosis: a post-mortem study exploring their relationships. *R. Gerales, M. M. Esiri, R. Perera, et al.*

3013 Disease-modifying drugs can reduce disability progression in relapsing multiple sclerosis. *M. P. Amato, M. Fonderico, E. Portaccio, et al.*

3025 Variant-specific changes in persistent or resurgent sodium current in SCN8A-related epilepsy patient-derived neurons. *A. M. Tidball, L. F. Lopez-Santiago, Y. Yuan, et al.*

3041 Mitochondrial damage-associated inflammation highlights biomarkers in *PRKN/PINK1* parkinsonism. *M. Borsche, I. R. König, S. Delcambre, et al.*

3052 Sex effects on brain structure in *de novo* Parkinson's disease: a multimodal neuroimaging study. *C. Tremblay, N. Abbasi, Y. Zeighami, et al.*

3067 Diabetes medications and risk of Parkinson's disease: a cohort study of patients with diabetes. *R. Brauer, L. Wei, T. Ma, et al.*

3077 Brain-first versus body-first Parkinson's disease: a multimodal imaging case-control study. *J. Horsager, K. B. Andersen, K. Knudsen, et al.*

3089 Cerebrovascular disease in patients with COVID-19: neuroimaging, histological and clinical description. *F. Hernández-Fernández, H. Sandoval Valencia, R. A. Barbella-Aponte, et al.*

3104 The emerging spectrum of COVID-19 neurology: clinical, radiological and laboratory findings. *R. W. Paterson, R. L. Brown, L. Benjamin, et al.*

3121 Graded, multidimensional intra- and intergroup variations in primary progressive aphasia and post-stroke aphasia. *R. U. Ingram, A. D. Halai, G. Pobric, et al.*

3136 Predicting future rates of tau accumulation on PET. *C. R. Jack Jr, H. J. Wiste, S. D. Weigand, et al.*

3151 Predictive sensorimotor control in autism. *T. Arthur, S. Vine, M. Brosnan, et al.*

Dorsal Column

Book Review

3164 One person, two minds. *M. Corballis*

Letters to the Editor

e80 To explore the pain topography of trigeminal neuralgia by compound nerve action potentials. *B. Chang, B. Feng and S. Li*

e81 Reply: To explore the pain topography of trigeminal neuralgia by compound nerve action potentials. *M. Sindou and A. Brinzeu*

e82 *RFC1* expansions can mimic hereditary sensory neuropathy with cough and Sjögren syndrome. *K. R. Kumar, A. Cortese, S. E. Tomlinson, et al.*

e83 Biallelic in-frame deletion in *TRAPPC4* in a family with developmental delay and cerebellar atrophy. *A. K. Saad, D. Marafi, T. Mitani, et al.*

e84 Reply: Biallelic in-frame deletion in *TRAPPC4* in a family with developmental delay and cerebellar atrophy. *N. J. Van Bergen, M. Ellery and J. Christodoulou*

e85 Human stem cell-derived astrocytes exhibit region-specific heterogeneity in their secretory profiles. *B. E. Clarke, D. M. Taha, O. J. Ziff, et al.*

e86 Pentameric repeat expansions: cortical myoclonus or cortical tremor? *A.-F. van Rootselaar, A. M. J. M. van den Maagdenberg, C. Depienne, et al.*

e87 Cortical tremor: a tantalizing conundrum between cortex and cerebellum. *P. Striano, A. Coppola, R. Dubbioso, et al.*

e88 Reply: Pentameric repeat expansions: cortical myoclonus or cortical tremor? and Cortical tremor: a tantalizing conundrum between cortex and cerebellum. *A. Latorre, L. Rocchi, F. Magrinelli, et al.*
