

BRAIN

A JOURNAL OF NEUROLOGY

Volume 143 Part 12 December 2020

Editorial

3511 Editorial. D. M. Kullmann

Scientific Commentaries

3513 Unresponsive or just asleep? Do local slow waves in the perilesional cortex have a function? L. B. Krone and V. V. Vyazovskiy

3515 Increased O-GlcNAcylation prevents degeneration of dopamine neurons. G. W. Hart and C.-W. Huang

3518 Neglected cytotoxic T cell invasion of the brain: how specific for Parkinson's disease? G. Halliday

3521 Serum neurofilament light chain uncovers neurodegeneration early in the course of Alzheimer's disease. M. R. Brier and G. S. Day

3523 Situated minds: conceptual and emotional blending in neurodegeneration and beyond. A. Ibanez and M. Schulte

Review Articles

3526 The microglial component of amyotrophic lateral sclerosis. B. E. Clarke and R. Patani

3540 The expanding genetic landscape of hereditary motor neuropathies. D. Beijer and J. Baets

Report

3564 Variants in the SK2 channel gene (*KCNN2*) lead to dominant neurodevelopmental movement disorders. F. Mochel, A. Rastetter, B. Ceulemans, et al.

Clinical Trial

3574 Beneficial effects of autologous mesenchymal stem cell transplantation in active progressive multiple sclerosis. P. Petrou, I. Kassis, N. Levin, et al.

Original Articles

3589 Natural history of Charcot-Marie-Tooth disease type 2A: a large international multicentre study. M. Pipis, S. M. E. Feely, J. M. Polke, et al.

3603 Magnetic resonance spectroscopy reveals mitochondrial dysfunction in amyotrophic lateral sclerosis. M. Sassani, J. J. Alix, C. J. McDermott, et al.

3619 Trigeminal neurovascular contact in SUNCT and SUNA: a cross-sectional magnetic resonance study. G. Lambru, K. Rantell, E. O'Connor, et al.

3629 Brain cancer induces systemic immunosuppression through release of non-steroid soluble mediators. K. Ayasoufi, C. K. Pfaller, L. Evgin, et al.

3653 Evolution of neuroinflammation across the lifespan of individuals with Down syndrome. L. Flores-Aguilar, M. F. Iulita, O. Kovacs, et al.

3672 Local sleep-like cortical reactivity in the awake brain after focal injury. S. Sarasso, S. D'Ambrosio, M. Fecchio, et al.

3685 Diffuse axonal injury predicts neurodegeneration after moderate-severe traumatic brain injury. N. S. N. Graham, A. Jolly, K. Zimmerman, et al.

3699 O-GlcNAcylation regulates dopamine neuron function, survival and degeneration in Parkinson disease. B. E. Lee, H. Y. Kim, H.-J. Kim, et al.

3717 CD8 T cell nigral infiltration precedes synucleinopathy in early stages of Parkinson's disease. J. Galiano-Landeira, A. Torra, M. Vila, et al.

3734 Inhibitory control dysfunction in parkinsonian impulse control disorders. G. M. Meyer, C. Spay, A. Beliakova, et al.

3748 Brain network remodelling reflects tau-related pathology prior to memory deficits in Thy-Tau22 mice. L. Degiorgis, M. Karatas, M. Sourty, et al.

3763 Recalibrating the epigenetic clock: implications for assessing biological age in the human cortex. G. L. Shireby, J. P. Davies, P. T. Francis, et al.

3776 Pathophysiological subtypes of Alzheimer's disease based on cerebrospinal fluid proteomics. B. M. Tijms, J. Gobom, L. Reus, et al.

3793 Stage-specific links between plasma neurofilament light and imaging biomarkers of Alzheimer's disease. A. L. Benedet, A. Leuzy, T. A. Pascoal, et al.

3805 The accumulation rate of tau aggregates is higher in females and younger amyloid-positive subjects. R. Smith, O. Strandberg, N. Mattsson-Carlsson, et al.

3816 BACE inhibition causes rapid, regional, and non-progressive volume reduction in Alzheimer's disease brain. C. Sur, J. Kost, D. Scott, et al.

3827 Somatic *TARDBP* variants as cause of semantic dementia. J. van Rooij, M. O. Mol, S. Melhem, et al.

3842 Neuropsychiatric symptoms in limbic-predominant age-related TDP-43 encephalopathy and Alzheimer's disease. K. Y. Liu, S. Reeves, K. E. McAleese, et al.

3850 When affect overlaps with concept: emotion recognition in semantic variant of primary progressive aphasia. M. Bertoux, H. Duclos, M. Caillaud, et al.

3865 Disentangling vulnerability, state and trait features of neurocognitive impairments in depression. Y.-S. Ang, N. Frontero, E. Belleau, et al.

Letters to the Editor

e99 Acute and late neurological complications of COVID-19: the quest for evidence. W. Xiong, P. Kwan, D. Zhou, et al.

e100 Concentric demyelination pattern in COVID-19-associated acute haemorrhagic leukoencephalitis: a lurking catastrophe? T. Karapanayiotides, E. Geka, P. Prassopoulos, et al.

e101 Reply: Concentric demyelination pattern in COVID-19-associated acute haemorrhagic leukoencephalitis: a lurking catastrophe? R.W. Paterson, R. L. Brown, V. Vivekanandam, et al.

e102 Severe COVID-19-related encephalitis can respond to immunotherapy. A. Cao, B. Rohaut, L. Le Guenne, et al.

e103 FUS is lost from nuclei and gained in neurites of motor neurons in a human stem cell model of VCP-related ALS. J. Harley, C. Hagemann, A. Serio, et al.

e104 De novo *SPTAN1* mutation in axonal sensorimotor neuropathy and developmental disorder. E. Ylikallio, N. Ritari, M. Sainio, et al.

e105 Reply: De novo *SPTAN1* mutation in axonal sensorimotor neuropathy and developmental disorder. L. Van de Vondel, J. Baets and D. Beijer

e106 Corrigendum
