

BRAIN

A JOURNAL OF NEUROLOGY

Volume 143 Part 2 February 2020

Editorial

- 381 Editorial. J. Rowe

Scientific Commentaries

- 383 Can you see what I see? Assessing brain maturation and injury in preterm and term neonates. E. G. Duerden and D. K. Thompson
- 386 CANVAS with cerebellar/sensory/ vestibular dysfunction from *RFC1* intronic pentanucleotide expansion. C. Paisán-Ruiz and J. C. Jen
- 390 Vascular reserve in brain resilience: pipes or perfusion? M. Wiesmann and F.-E. de Leeuw
- 393 Unfeignable biomarkers in functional neurological disorder: drifting back to Pierre Janet. J. Stone

Review Articles

- 396 New insights into cortico-basal-cerebellar connectome: clinical and physiological considerations. A. Quartarone, A. Cacciola, D. Milardi, et al.
- 407 Antisense oligonucleotide therapeutics in neurodegenerative diseases: the case of polyglutamine disorders. A. C. Silva, D. D. Lobo, I. M. Martins, et al.

Reports

- 430 Distinct responses of neurons and astrocytes to TDP-43 proteinopathy in amyotrophic lateral sclerosis. P. Smethurst, E. Risse, G. E. Tyzack, et al.
- 441 Homozygous *STXBPI* variant causes encephalopathy and gain-of-function in synaptic transmission. H. C. A. Lammertse, A. A. van Berkel, M. Iacomino, et al.

Original Articles

- 452 Clinical, morphological and genetic characterization of Brody disease: an international study of 40 patients. J. P. Molenaar, J. I. Verhoeven, R. J. Rodenburg, et al.

- 467 Modelling brain development to detect white matter injury in term and preterm born neonates. J. O'Muircheartaigh, E. Robinson, M. Pietsch, et al.
- 480 Cerebellar ataxia, neuropathy, vestibular areflexia syndrome due to *RFC1* repeat expansion. A. Cortese, S. Tozza, W. Y. Yau, et al.
- 491 Biallelic loss-of-function mutations in *JAM2* cause primary familial brain calcification. Z. Cen, Y. Chen, S. Chen, et al.
- 503 Allogeneic HSCT for adult-onset leukoencephalopathy with spheroids and pigmented glia. J. M. Gelfand, A. L. Greenfield, M. Barkovich, et al.
- 512 Interfering with long non-coding RNA *MIR22HG* processing inhibits glioblastoma progression through suppression of Wnt/ β -catenin signalling. M. Han, S. Wang, S. Fritah, et al.
- 531 Topography of the pain in classical trigeminal neuralgia: insights into somatotopic organization. M. Sindou and A. Brinzeu
- 541 Mapping migraine to a common brain network. M. J. Burke, J. Joutsa, A. L. Cohen, et al.
- 554 Spatial distribution of interictal spikes fluctuates over time and localizes seizure onset. E. C. Conrad, S. B. Tomlinson, J. N. Wong, et al.
- 570 Resective epilepsy surgery in tuberous sclerosis complex: a nationwide multicentre retrospective study from China. S. Liu, T. Yu, Y. Guan, et al.
- 582 Subthalamic nucleus activity dynamics and limb movement prediction in Parkinson's disease. S. Khawaldeh, G. Tinkhauser, S. A. Shah, et al.
- 597 Genetic determinants of blood lipids and cerebral small vessel disease: role of high-density lipoprotein cholesterol. M. K. Georgakis, R. Malik, C. D. Anderson, et al.
- 611 Cognitive trajectory in mild cognitive impairment due to primary age-related tauopathy. M. Teylan, C. Mock, K. Gauthreaux, et al.
- 622 Hippocampal vascular reserve associated with cognitive performance and hippocampal volume. V. Perosa, A. Priester, G. Ziegler, et al.
- 635 Morphometric network differences in ageing versus Alzheimer's disease dementia. A. Pichet Binette, J. Gonneaud, J. W. Vogel, et al.
- 650 Cerebrospinal fluid tau fragment correlates with tau PET: a candidate biomarker for tangle pathology. K. Blennow, C. Chen, C. Cicognola, et al.
- 661 Blood and brain gene expression trajectories mirror neuropathology and clinical deterioration in neurodegeneration. Y. Iturria-Medina, A. F. Khan, Q. Adewale, et al.
- 674 Reduced drift rate: a biomarker of impaired information processing in functional movement disorders. A. Sadnicka, C. Daum, A.-M. Meppelink, et al.
- 684 Brain structural covariance networks in obsessive-compulsive disorder: a graph analysis from the ENIGMA Consortium. J.-Y. Yun, P. S. W. Boedhoe, C. Vriend, et al.
- 701 Baseline reward processing and ventrostriatal dopamine function are associated with pramipexole response in depression. A. E. Whitton, J. M. Reinen, M. Slifstein, et al.

Dorsal Column

Grey Matter

- 711 John Hughlings Jackson and Thomas Laycock: brain and mind. E. H. Reynolds

Letters to the Editor

- e8 NAD(P)HX dehydratase (NAXD) deficiency: a novel neurodegenerative disorder exacerbated by febrile illnesses. J. Zhou, J. Li, S. L. Stenton, et al.
- e9 Neither human nor mouse is hypercalcaemic with 250 nmol/l 25-hydroxyvitamin D. R. Vieth
- e10 Reply: Neither human nor mouse is hypercalcaemic with 250 nmol/l 25-hydroxyvitamin D. D. Häusler, S. Torke, E. Peelen, et al.
- e11 Not every excessive startle is hyperekplexia, the curious case of *SOD1*. S. van der Veen, J. J. de Vries and M. A. J. Tijssen
- e12 Reply: Not every excessive startle is hyperekplexia, the curious case of *SOD1*. J. H. Park, C. Elpers and T. Marquardt
- e13 Hyperpolarization through ATP-sensitive potassium channels; relevance to migraine pathology. K. A. Haanes and L. Edvinsson
- e14 Reply: Hyperpolarization through ATP-sensitive potassium channels; relevance to migraine pathology. M. A.-M. Al-Karagholi, J. Olesen and M. Ashina
- e15 Corrigenda
