

BRAIN

A JOURNAL OF NEUROLOGY

Volume 142 Part 4 April 2019

Editorial

833 Editorial. *D. M. Kullmann*

Scientific Commentaries

834 Rotatin' the phenotypes. *A. Uzquiano and F. Francis*

838 Secondary progressive multiple sclerosis and the gut-brain axis. *H. Wekerle*

840 Visual neglect: getting the hemispheres to talk to each other. *P. Bartolomeo*

843 Tau suppresses neuronal activity *in vivo*, even before tangles form. *M. A. Busche*

Review Article

847 The landscape of the mesenchymal signature in brain tumours. *J. Behnan, G. Finocchiaro and G. Hanna*

Original Articles

867 Heterogeneous clinical phenotypes and cerebral malformations reflected by rotatin cellular dynamics. *L. V. Vandervore, R. Schot, E. Kasteleijn, et al.*

885 Ossified blood vessels in primary familial brain calcification elicit a neurotoxic astrocyte response. *Y. Zarb, U. Weber-Stadlbauer, D. Kirschenbaum, et al.*

903 Optical coherence tomography: a window to the optic nerve in clinically isolated syndrome. *F. London, H. Zéphir, E. Drumez, et al.*

916 Gut microbiota-dependent CCR9⁺CD4⁺ T cells are altered in secondary progressive multiple sclerosis. *A. Kadowaki, R. Saga, Y. Lin, et al.*

932 Interictal and ictal source localization for epilepsy surgery using high-density EEG with MEG: a prospective long-term study. *C. Plummer, S. J. Vogrin, W. P. Woods, et al.*

952 A probabilistic map of negative motor areas of the upper limb and face: a brain stimulation study. *F. Rech, G. Herbet, Y. Gaudeau, et al.*

966 Dorsal language stream anomalies in an inherited speech disorder. *F. J. Liégeois, S. J. Turner, A. Mayes, et al.*

978 A year-long immune profile of the systemic response in acute stroke survivors. *A. S. Tsai, K. Berry, M. M. Beneyto, et al.*

992 Theta burst stimulation in neglect after stroke: functional outcome and response variability origins. *T. Nyffeler, T. Vanbellinghen, B. C. Kaufmann, et al.*

1009 Association of variants in *HTRA1* and *NOTCH3* with MRI-defined extremes of cerebral small vessel disease in older subjects. *A. Mishra, G. Chauhan, M.-H. Violleau, et al.*

1024 Dopamine depletion alters macroscopic network dynamics in Parkinson's disease. *J. M. Shine, P. T. Bell, E. Matar, et al.*

1035 Type I interferon protects neurons from prions *in vivo* models. *D. Ishibashi, T. Homma, T. Nakagaki, et al.*

1051 *In vivo* imaging reveals reduced activity of neuronal circuits in a mouse tauopathy model. *P. Marinković, S. Blumenstock, P. M. Goltstein, et al.*

1063 Tau PET in autosomal dominant Alzheimer's disease: relationship with cognition, dementia and other biomarkers. *B. A. Gordon, T. M. Blazey, J. Christensen, et al.*

1077 Selective loss of cortical endothelial tight junction proteins during Alzheimer's disease progression. *Y. Yamazaki, M. Shinohara, M. Shinohara, et al.*

1093 Functional connectivity associated with tau levels in ageing, Alzheimer's, and small vessel disease. *N. Franzmeier, A. Rubinski, J. Neitzel, et al.*

1108 Cerebral perfusion changes in presymptomatic genetic frontotemporal dementia: a GENFI study. *H. J. M. M. Mutsaerts, S. S. Mirza, J. Petr, et al.*

1121 Cortical microstructure in the behavioural variant of frontotemporal dementia: looking beyond atrophy. *I. Illán-Gala, V. Montal, S. Borrego-Écija, et al.*

1134 The metabolic brain signature of cognitive resilience in the 80+: beyond Alzheimer pathologies. *E. M. Arenaza-Urquijo, S. A. Przybelski, T. L. Lesnick, et al.*

1148 Entorhinal cortex tau, amyloid- β , cortical thickness and memory performance in non-demented subjects. *D. S. Knopman, E. S. Lundt, T. M. Therneau, et al.*

Dorsal Column

Book Review

1161 Charcot's capricious scribe. *A. J. Lees*

Letters to the Editor

e12 Biallelic *POLR3A* variants confirmed as a frequent cause of hereditary ataxia and spastic paraparesis. *S. L. Rydning, J. Koht, Y. Sheng, et al.*

e13 Reply: Biallelic *POLR3A* variants confirmed as a frequent cause of hereditary ataxia and spastic paraparesis. *M. Minnerop, D. Kurzwelly, H. Wagner, et al.*

e14 Erratum
