**MRS. CHRISTIE FOUND
IN A YORKSHIRE SPA**

Missing Novelist, Under an As-
sumed Name, Was Staying at
a Hotel There.

CLUE A NEWSPAPER PICTURE

Mystery Writer Is Victim of Loss
of Memory, Her Husband
Declares.

Agatha Christie, who is the most famous British
novelist, was found in a hotel in the New York Times.
LONDON, Dec. 11.—Mrs. Agatha
Christie, the missing novelist, was found in a hotel in
Yorkshire, the husband of the missing novelist, said she
had only a faint idea of her identity. The searchers, who
were looking for the missing novelist in the last long
hour of the search, said she had only a faint idea of
her identity. The searchers, who were looking for the
missing novelist in the last long hour of the search, said
she had only a faint idea of her identity.

Cover image: In 1926, Agatha Christie went missing for 11 days, subsequently claiming amnesia for this period. In this issue, 53 cases of psychogenic amnesia are described, illustrating four discrete syndromes, with some demonstrating a better prognosis than previously appreciated. From Harrison et al. Psychogenic amnesia: syndromes, outcome, and patterns of retrograde amnesia. Pp. 2498–2510.
