Volume 24 Supplement H November 2022

Personalized vascular care: Why it is important?

*S. Brugaletta and W. Wijns*

H1

Cardiovascular prevention: sometimes dreams can come true

*R. Ferrari, P. Cimaglia, C. Rapezzi, L. Tavazzi, and G. Guardigli*

H3

Personalized vascular healthcare: insights from a large international survey

*N.E.J. West, M. Juneja, N. Pinilla, K.R. De Loose, T.D. Henry, C.S. Baumgard, and O. Kraineva*

H8

Contemporary and future invasive coronary vasomotor function testing and treatment in patients with ischaemia with no obstructive coronary arteries

*P. Damman, S.E. Elias-Smale, T.P.J. Jansen, R.E. Konst, A.C. Dimitriu-Leen, M. Hartzema, N. van Royen, and A.H.E.M. Maas*

H18

Digitally enabled cardiac rehabilitation following coronary revascularization: results from a single centre feasibility study

*V. Hatch and W.R. Davies*

H25

Remote digital smart device follow-up in prospective clinical trials: early insights from ORBITA-2, ORBITA-COSMIC, and ORBITA-STAR

*S. Ganesanathan, C.A. Rajkumar, M. Foley, D. Francis, and R. Al-Lamee*

H32

The future of individualized cardiovascular care: how wearables could be integrated to improve outcomes

*J.D. Hung, S. Brugaletta, and J.C. Spratt*

H43

Myocardial bridge evaluation towards personalized medicine: study design and preliminary results of the RIALTO registry

*D. D'Amario, G. Ciliberti, A. Restivo, R. Laborante, S. Migliaro, F. Canonico, G.M. Sangiorgi, M. Tebaldi, I. Porto, D. Andreini, R. Vergallo, A.M. Leone, S. Gervasi, M. Cammarano, V. Palmieri, F. Burzotta, C. Trani, P. Zeppilli, and F. Crea, for the RIALTO Registry Investigators*

H48

The future of personalized care for vascular patients: an industry perspective

*N.E.J. West and E. Boone*

H57
