ON THE COVER

Gastroenterology

Brain-Gut Link and GI Outcomes. See articles by Chang and Sultan, et al, page 118, Lembo and Sultan, et al, page 137, and Fairbrass, et al, page 190, for additional information.

COMMENTARIES

- 1 **Gastroenterology: A New Editorial Team Coming to You From Around the World**
P. Moayyedi and D. Weinberg
- 3 **AGA Institute Quality Measure Development for the Management of Gastric Intestinal Metaplasia With *Helicobacter pylori***
K. W. Hung, J. K. Maratt, W. K. Cho, B. J. Shah, C. I. Anjou, and D. A. Leiman
- 8 **Disparities Persist in Inclusion of Female, Pregnant, Lactating, and Older Individuals in Inflammatory Bowel Disease Clinical Trials**
L. G. Rabinowitz, D. G. Rabinowitz, E. M. Silver, A. S. Oxentenko, K. E. Williams, and J. K. Silver
- 14 **Gender, Age, Racial and Ethnic Disparities in Clinical Trial Enrollment for Primary Liver Cancer**
J. Jan, A. Osho, C. C. Murphy, C. M. Mazure, A. G. Singal, and N. E. Rich
- 21 **DETECT: Development of Technologies for Early HCC Detection**
J. N. Benhammou, N. E. Rich, G. Cholankeril, P. Zhang, W. Zeng, S. Rao, and N. Tayob, on behalf of the National Cancer Institute's Translational Liver Consortium Early-Career Working Group

DIVERSITY, EQUITY, AND INCLUSION IN GI

- 28 **Expanding the Commitment to Diversity, Equity, and Inclusion Within AGA Journals**
F. P. May and S. M. Quezada

MENTORING, EDUCATION, AND TRAINING CORNER

- 31 **Databases for Gastrointestinal Clinical and Public Health Research: *Have Database, Will Research***
S. D. Rustgi, H. M. Zylberberg, and C. Hur

CME quiz Editorial accompanies this article Additional online content available Cover

Publisher: *Gastroenterology* (ISSN 0016-5085) is published monthly (semi-monthly in April) in two indexed volumes by Elsevier Inc, 230 Park Avenue, New York, NY 10169-0901, USA. Periodicals postage paid at New York, NY and additional mailing offices. POSTMASTER: Send address changes to Elsevier, Journal Returns, 1799 Highway 50 East, Linn, MO 65051, USA. 2022 US subscription rates: individual, \$739.00; student and resident, \$282.00. Outside of the U.S. and possessions: individual, \$968.00; student and resident, \$562.00; surface delivery, no additional charge; air mail delivery, add \$78.00. Prices subject to change without notice.

EDITORIALS

- 35 Artificial Intelligence Improves Detection at Colonoscopy: Why Aren't We All Already Using It?**
D. K. Rex, T. M. Berzin, and Y. Mori
See Wallace MB et al on page 295.
- 37 Chicken or Egg, Mental Health Disorders in Inflammatory Bowel Disease: Does It Matter?**
R. K. Cross and L. Keefer
See Fairbrass KM et al on page 190.
- 39 Personalized Approach to the Post-Endoscopic Eradication Therapy Barrett's Esophagus Patient**
S. Wani
See van Munster SN et al on page 285.
- 42 Understanding the Protective Effect of *Helicobacter pylori* Eradication on Gastric Cancer After a Quarter Century: New Insights From an Old Trial**
D. Li
See Yan L et al on page 154.
- 44 PUCCINI: Safety of Anti-TNF in the Perioperative Setting**
N. H. Hyman and A. S. Cheifetz
See Cohen BL et al on page 204.
- 46 Refining the Risk of Lymph Node Metastasis in T1 Colorectal Adenocarcinoma**
C. Rowsell
See Zwager LW et al on page 174.
- 47 Effects of Proton Pump Inhibitors in Cirrhotic Patients: What Do We Really Know?**
I. Cacciola
See Mahmud N et al on page 257.
- 49 A Role for Hepatic Insulin Signaling in α 1-Antitrypsin Deficiency**
K. D. Copps and R. Tao
See Rudnick DA et al on page 270.
- 51 A Path Forward for Understanding and Addressing Multifaceted Pancreatic Cancer Disparities**
J. B. Permeth, B. D. Powers, and P. J. Hodul, on behalf of the Florida Pancreas Collaborative
See Huang BZ et al on page 310.

CLINICAL CHALLENGES AND IMAGES IN GI

- 54 A Complication Hanging by a Thread**
  *W. Allaham, H. Richa, and M. Ronot*
- 56 An Unexpected Finding on Screening Colonoscopy in a Patient With Chronic Myelogenous Leukemia**
Y. Mor, K. Wong, and M. Mutchnick

ELECTRONIC CLINICAL CHALLENGES AND IMAGES IN GI

For a full list, please see the table of contents online at www.gastrojournal.org.

MEETING SUMMARIES

59 **A Clinical Severity Index for Eosinophilic Esophagitis: Development, Consensus, and Future Directions**

E. S. Dellon, P. Khoury, A. B. Muir, C. A. Liacouras, E. Safroneeva, D. Atkins, M. H. Collins, N. Gonsalves, G. W. Falk, J. M. Spergel, I. Hirano, M. Chehade, A. M. Schoepfer, C. Menard-Katcher, D. A. Katzka, P. A. Bonis, A. J. Bredenoord, B. Geng, E. T. Jensen, R. D. Pesek, P. Feuerstadt, S. K. Gupta, A. J. Lucendo, R. M. Genta, G. Hiremath, E. C. McGowan, F. J. Moawad, K. A. Peterson, M. E. Rothenberg, A. Straumann, G. T. Furuta, and S. S. Aceves

77 **Pediatric Extrapolation of Adult Efficacy to Children Is Critical for Efficient and Successful Drug Development**

A. E. Mulberg, L. S. Conklin, N. M. Croft, and the I-ACT for Children Pediatric Extrapolation Working Group

84 **Rio de Janeiro Global Consensus on Landmarks, Definitions, and Classifications in Barrett's Esophagus: World Endoscopy Organization Delphi Study**

F. Emura, V. T. Chandrasekar, C. Hassan, D. Armstrong, H. Messmann, V. Arantes, R. Araya, O. Barrera-Leon, J. J. G. H. M. Bergman, P. Bandhari, M. J. Bourke, C. Cerisoli, P. W.-Y. Chiu, M. Desai, M. Dinis-Ribeiro, G. W. Falk, M. Fujishiro, S. Gaddam, K. Goda, S. Gross, R. Haidry, L. Ho, P. G. Iyer, S. Kashin, S. Kothari, Y. Y. Lee, K. Matsuda, H. Neuhaus, T. Oyama, K. Ragunath, A. Repici, N. Shaheen, R. Singh, S. Sobrino-Cossio, K. K. Wang, I. Waxman, and P. Sharma

REVIEWS IN BASIC AND CLINICAL GASTROENTEROLOGY AND HEPATOLOGY

97 **Pregnancy-Associated Liver Diseases**

N. A. Terrault and C. Williamson

GUIDELINES

118 **AGA Clinical Practice Guideline on the Pharmacological Management of Irritable Bowel Syndrome With Constipation**

L. Chang, S. Sultan, A. Lembo, G. N. Verne, W. Smalley, and J. J. Heidelbaugh

137 **AGA Clinical Practice Guideline on the Pharmacological Management of Irritable Bowel Syndrome With Diarrhea**

A. Lembo, S. Sultan, L. Chang, J. J. Heidelbaugh, W. Smalley, and G. N. Verne

152 **Clinical Decision Support Tool: IBS Treatment**153 **Spotlight: IBS Treatment**

L. Chang, A. Lembo, and S. Sultan

ORIGINAL RESEARCH

Full Reports

Helicobacter pylori154 **Effect of *Helicobacter pylori* Eradication on Gastric Cancer Prevention: Updated Report From a Randomized Controlled Trial With 26.5 Years of Follow-up**

L. Yan, Y. Chen, F. Chen, T. Tao, Z. Hu, J. Wang, J. You, B. C. Y. Wong, J. Chen, and W. Ye

See editorial on page 42.

Helicobacter pylori eradication might confer a long-term protection against gastric cancer in high-risk populations, especially for infected individuals without precancerous gastric lesions at baseline.

GI Cancer

163 **Endoscopic Screening Program for Control of Esophageal Adenocarcinoma in Varied Populations: A Comparative Cost-Effectiveness Analysis**

J. H. Rubenstein, A.-H. Omidvari, B. N. Lauren, W. D. Hazelton, F. Lim, S. X. Tan, C. Y. Kong, M. Lee, A. Ali, C. Hur, J. M. Inadomi, G. Luebeck, and I. Lansdorp-Vogelaar

White men with symptoms of gastroesophageal reflux may be optimally screened twice for esophageal adenocarcinoma and Black men with those symptoms once. Screening women is not cost-effective.

174 Deep Submucosal Invasion Is Not an Independent Risk Factor for Lymph Node Metastasis in T1 Colorectal Cancer: A Meta-Analysis

WWW E

L. W. Zwager, B. A. J. Bastiaansen, N. S. M. Montazeri, R. Hompes, V. Barresi, K. Ichimasa, H. Kawachi, I. Machado, T. Masaki, W. Sheng, S. Tanaka, K. Togashi, C. Yasue, P. Fockens, L. M. G. Moons, and E. Dekker

See editorial on page 46.

Deep submucosal invasion is not a significant risk factor for lymph node metastasis, with an absolute risk of 2.6% in absence of other histologic risk factors.

Inflammatory Bowel Disease**190 Relative Contribution of Disease Activity and Psychological Health to Prognosis of Inflammatory Bowel Disease During 6.5 Years of Longitudinal Follow-Up**WWW E
COV

K. M. Fairbrass, D. J. Gracie, and A. C. Ford

See editorial on page 37.

We studied the relative contribution of psychological ill-health and inflammatory bowel disease activity to prognosis; patients with active disease and symptoms of a common mental disorder were more likely to experience adverse outcomes.

204 Prospective Cohort Study to Investigate the Safety of Preoperative Tumor Necrosis Factor Inhibitor Exposure in Patients With Inflammatory Bowel Disease Undergoing Intra-abdominal Surgery

WWW E

B. L. Cohen, P. Fleshner, S. V. Kane, H. H. Herfarth, N. Palekar, F. A. Farraye, J. A. Leighton, J. A. Katz, R. D. Cohen, M. E. Gerich, R. K. Cross, P. D. R. Higgins, A. Tinsley, S. Glover, C. A. Siegel, J. L. Bohl, H. Iskandar, J. Ji, L. Hu, and B. E. Sands

See editorial on page 44.

In the largest multicenter prospective surgical cohort on the topic, *Prospective Cohort of Ulcerative Colitis and Crohn's Disease Patients Undergoing Surgery to Identify Risk Factors for Post-Operative Infection* (PUCCINI) showed that preoperative tumor necrosis factor inhibitor use was not associated with any postoperative infections, including surgical site infections.

Pancreas**222 Metagenomic Identification of Microbial Signatures Predicting Pancreatic Cancer From a Multinational Study**

WWW

N. Nagata, S. Nishijima, Y. Kojima, Y. Hisada, K. Imbe, T. Miyoshi-Akiyama, W. Suda, M. Kimura, R. Aoki, K. Sekine, M. Ohsugi, K. Miki, T. Osawa, K. Ueki, S. Oka, M. Mizokami, E. Kartal, T. S. B. Schmidt, E. Molina-Montes, L. Estudillo, N. Malats, J. Trebicka, S. Kersting, M. Langheinrich, P. Bork, N. Uemura, T. Itoi, and T. Kawai

This study analyzed the gut and oral microbiomes of patients with pancreatic cancer and showed the potential of the microbial species to be used as a biomarker for the disease and its prognosis.

239 Estrogen-Related Receptor γ Maintains Pancreatic Acinar Cell Function and Identity by Regulating Cellular Metabolism

WWW

J. Choi, T. G. Oh, H.-W. Jung, K.-Y. Park, H. Shin, T. Jo, D.-S. Kang, D. Chanda, S. Hong, J. Kim, H. Hwang, M. Ji, M. Jung, T. Shoji, A. Matsushima, P. Kim, J. Y. Mun, M.-J. Paik, S. J. Cho, I.-K. Lee, D. C. Whitcomb, P. Greer, B. Blobner, M. O. Goodarzi, S. J. Pandol, J. I. Rotter, North American Pancreatitis Study 2 (NAPS2) Consortium, W. Fan, S. P. Bapat, Y. Zheng, C. Liddle, R. T. Yu, A. R. Atkins, M. Downes, E. Yoshihara, R. M. Evans, and J. M. Suh

Estrogen-related receptor γ is identified as a master regulator of pancreatic acinar cell mitochondrial gene networks, with novel molecular connections to human pancreatitis.

Hepatobiliary**257 The Association Between Proton Pump Inhibitor Exposure and Key Liver-Related Outcomes in Patients With Cirrhosis: A Veterans Affairs Cohort Study**

E WWW

N. Mahmud, M. Serper, T. H. Taddei, and D. E. Kaplan

See editorial on page 47.

Proton pump inhibitor use in cirrhosis is associated with increased risk of liver-related adverse outcomes, but may reduce mortality in patients hospitalized with gastrointestinal bleeding.

270 Regulation of PGC1 α Downstream of the Insulin Signaling Pathway Plays a Role in the Hepatic Proteotoxicity of Mutant α 1-Antitrypsin Deficiency Variant Z

D. A. Rudnick, J. Huang, T. Hidvegi, A. S. Chu, P. Hale, A. Munanairi, D. J. Dietzen, P. F. Cliften, E. Tycksen, A. J. Lutkewitte, B. N. Finck, S. C. Pak, G. A. Silverman, and D. H. Perlmutter

See editorial on page 49.

These studies show that insulin-signaling influences hepatic accumulation and proteotoxicity of misfolded α 1-antitrypsin deficiency variant Z (ATZ) and implicate PGC1 α as one of the mediators.

Prevention and Early Detection

285 Dysplastic Recurrence After Successful Treatment for Early Barrett's Neoplasia: Development and Validation of a Prediction Model

S. N. van Munster, E. Nieuwenhuis, R. Bisschops, H. Willekens, B. L. A. M. Weusten, L. A. Herrero, A. Bogte, A. Alkhalaf, E. B. E. Schenk, E. J. Schoon, W. Curvers, A. D. Koch, P. J. F. de Jonge, T. J. Tang, W. B. Nagengast, J. Westerhof, M. H. M. G. Houben, S. Seewald, M. J. C. Eijkemans, J. J. G. H. M. Bergman, and R. E. Pouw

See editorial on page 39.

A mathematical model that predicts the risk for recurrent disease after successful endoscopic treatment for patients with Barrett's esophagus was developed. This model may help in determining personalized follow-up strategies.

Artificial Intelligence

295 Impact of Artificial Intelligence on Miss Rate of Colorectal Neoplasia

M. B. Wallace, P. Sharma, P. Bhandari, J. East, G. Antonelli, R. Lorenzetti, M. Vieth, I. Speranza, M. Spadaccini, M. Desai, F. J. Lukens, G. Babameto, D. Batista, D. Singh, W. Palmer, F. Ramirez, R. Palmer, T. Lunsford, K. Ruff, E. Bird-Liebermann, V. Ciofoaia, S. Arndtz, D. Cangemi, K. Puddick, G. Derfus, A. S. Johal, M. Barawi, L. Longo, L. Moro, A. Repici, and C. Hassan

See editorial on page 35.

When the endoscopist is assisted by artificial intelligence, the risk of missing colorectal neoplasia decreased substantially, reassuring a better stratification of the neoplastic risk of the individual patient, and a higher degree of colorectal cancer prevention.

RESEARCH LETTERS

305 Association of *Helicobacter pylori* and Autoimmune Gastritis With Stomach Cancer in a Cohort of Young Finnish Women

J. Butt, M. Lehtinen, H. Öhman, T. Waterboer, and M. Epplein

308 Impact of a Policy to Address Low-value Use of Anesthesia Assistance for Routine Gastrointestinal Endoscopy

M. A. Adams, Y. Gao, K. Kumbier, and J. H. Rubenstein

310 Rising Incidence and Racial Disparities of Early-Onset Pancreatic Cancer in the United States, 1995–2018

B. Z. Huang, L. Liu, J. Zhang, USC Pancreas Research Team, S. J. Pandol, S. R. Grossman, and V. W. Setiawan

See editorial on page 51.

313 Wild-Type Human PRSS2 and PRSS1^{R122H} Cooperatively Initiate Spontaneous Hereditary Pancreatitis in Transgenic Mice

J. Wang, J. Wan, L. Wang, S. J. Pandol, Y. Bi, and B. Ji

316 Implementation of a Video-based Remote Germline Testing for Individuals With Pancreatic Ductal Adenocarcinoma

S. Kasliwal, S. Baydagan, D. Harrison, M. Mork, A. Maitra, and F. Mcallister

319 Effectiveness and Safety of Fecal Microbiota Transplantation for *Clostridioides Difficile* Infection: Results From a 5344-Patient Cohort Study

M. Osman, S. Budree, C. R. Kelly, P. Panchal, J. R. Allegretti, and Z. Kassam, OpenBiome Collaborators

323 Comprehensive Diagnostic Performance of Real-Time Characterization of Colorectal Lesions Using an Artificial Intelligence-Assisted System: A Prospective Study

Y. Minegishi, S.-E. Kudo, Y. Miyata, T. Nemoto, K. Mori, and M. Misawa, Showa University and Nagoya University Ai Research Group

AGA SECTION

- 326 **Presentation of the AGA William Beaumont Prize in Gastroenterology to Chung Owyang, MD, AGAF**
D. K. Podolsky
- 330 **Presentation of the AGA Distinguished Achievement Award in Basic Science to Michael David Gershon, MD, AGAF**
K. G. Margolis and G. M. Mawe

CONTINUING MEDICAL EDUCATION (CME)/MOC ACTIVITIES

- e15 **CME Exam 1: AGA Clinical Practice Guideline on the Pharmacological Management of Irritable Bowel Syndrome With Constipation; and AGA Clinical Practice Guideline on the Pharmacological Management of Irritable Bowel Syndrome With Diarrhea**

GASTRO DIGEST

- 333 **An Artificial Microbiome Consortium Prevents Recurrence of *Clostridioides difficile* Infection: Paving the Way for Fecal Microbiota Transplantation 2.0**
G. Ianiro
- 333 **Expanding Links Between Gut Microbiota and Bowel Inflammation**
E. Wine
- 334 **Endoscopic Treatment of Obesity Using an Adjustable Intra-gastric Balloon**
N. Forbes
- 335 **Multi-omic Characterization of COVID Hepatitis**
M. Bhat

CORRESPONDENCE

- 336 **Gut Microbiome Metabolism Drives the Resolution of Patients With Coronavirus Disease 2019**
Y.-H. Zhang, W.-Y. Wang, and Y.-M. Cui
- 337 **Reply**
F. Zhang and S. C. Ng
- 338 **Should We Continue or Discontinue Inflammatory Bowel Disease Medication in Patients With Coronavirus Disease 2019?**
Y. Hayashi, H. Nakase, and T. Hisamatsu, J-COSMOS Group
- 339 **Corrections**

Access to the full content of Gastroenterology Online is available to all subscribers!

AGA members have seamless access to full *Gastroenterology* content from the AGA Web site. Simply sign in to <http://www.gastro.org>, visit the Publications section of the Web site, and click on *Gastroenterology*. You will be directed to the Journal Web site and will have full access to all content without having to supply a different username and password. Members can also visit <http://www.gastrojournal.org> directly and click on "Activate Online Access." Nonmember subscribers must create an online user account and activate their subscription to access the full text of articles on *Gastroenterology* Online. To activate your individual online subscription, please visit <http://www.gastrojournal.org> and click on "Activate Online Access." To activate your account, you

will need your subscriber account or member number, which you can find on your mailing label, (AGA members must use their 10-digit member number, including leading zeros). If you have any questions regarding your online subscription please call Elsevier Customer Service at (800) 654-2452.

Institutional access to *Gastroenterology* Online will be allowed only by limited site licensing. Further instructions will be available online. Personal subscriptions to *Gastroenterology* Online are for individual use only and may not be transferred. Use of *Gastroenterology* Online is subject to agreement to the terms and conditions of use as indicated online.
