ON THE COVER

See article by Israelyan, et al on page 507 for further information.

COVERING THE COVER

269 A. T. Chan and C. S. Williams

COMMENTARIES

272 **Gastroenterologists Without Borders: Using Virtual Care to Reach Beyond the Clinic Walls**
S. D. Dorn

275 **Developing Pharmacologic Treatments for Eosinophilic Esophagitis: Draft Guidance from the United States Food and Drug Administration**
E. Lyons, K. Donohue, and J. J. Lee

278 **AGA Editorial Fellowship—Three Lasting Lessons**
R. D. Naik

MEETING SUMMARY

280 **A Summary of the Fight Colorectal Cancer Working Meeting: Exploring Risk Factors and Etiology of Sporadic Early-Age Onset Colorectal Cancer**
A. J. Dwyer, C. C. Murphy, C. R. Boland, R. Garcia, H. Hampel, P. Limburg, J. Lowery, A. G. Zauber, S. Waring, S. Worrall, J. Perea, R. Siegel, J. Lee, C. Molmenti, C. L. Sears, P. Buckhaults, R. Hayes, H. Hussan, N. de Miranda, C. Palles, L. Diaz, M. Song, A. Cercek, C. H. Lieu, S. G. Patel, J. J. Karlitz, Y. Cao, J. Demb, P. Blatchford, B. Risendal, E. Weltzien, A. Wali, P. Daschner, H. Loomans-Kropp, R. Flores, C. L. Levell, K. Wehling, J. Martin, C. Pesmen, V. Kuchar, R. Soisson, A. Davis, and D. Ahnen

MENTORING, EDUCATION, AND TRAINING CORNER

289 **How to Use Emotional Intelligence as a Career Catalyst— the X-Factor of Success for Trainees and Faculty in Gastroenterology and Hepatology**
V. H. Shah and P. P. Shah

CME quiz Editorial accompanies this article Additional online content available Cover

Publisher: *Gastroenterology* (ISSN 0016-5085) is published monthly (semi monthly in January and May) in two indexed volumes by Elsevier Inc, 230 Park Avenue, New York, NY 10169-0901, USA. Periodicals postage paid at New York, NY and additional mailing offices. POSTMASTER: Send address changes to Elsevier, Journal Returns, 1799 Highway 50 East, Linn, MO 65051, USA. 2019 US subscription rates: individual, \$739.00; student and resident, \$282.00. Outside of the U.S. and possessions: individual, \$968.00; student and resident, \$562.00; surface delivery, no additional charge; air mail delivery, add \$78.00. Prices subject to change without notice.

EDITORIALS

- 293 When Is Celiac Disease Celiac Disease?**
P. H. R. Green and S. Guandalini
See Auricchio R et al on page 413
- 295 Treating Inflammatory Bowel Disease With Diet: A Taste Test**
J. Sabino, J. D. Lewis, and J.-F. Colombel
See Levine A et al on page 440
- 298 Further Evidence That Lanreotide Reduces Liver Growth in Patients With Polycystic Liver Disease, But Not the End of the Story**
F. Temmerman and F. Nevens
See van Aerts RMM et al on page 481
- 300 Multi-omic Analyses Reveal Complex Interactions Between HCV and Hepatocytes Demonstrating That the Red Queen Is Up and Running**
M. Gal-Tanamy
See Lupberger J et al on page 537

GASTROENTEROLOGY IN MOTION

- 303 Endoscopic Surveillance of Barrett's Esophagus Using Volumetric Laser Endomicroscopy With Artificial Intelligence Image Enhancement**
A. J. Trindade, M. J. McKinley, C. Fan, C. L. Leggett, A. Kahn, and D. K. Pleskow

CLINICAL CHALLENGES AND IMAGES IN GI

- 306 Chronic Abdominal Pain and Difficult Defecation**
X. Huang, Z. Xiao, and Z. Huang
- 309 Another Case of Reflux Esophagitis?**
T. P. Chapman, R. Tandon, and O. Brain
- 311 An Unusual Cause of Recurrent Melena**
A. Li, F.-X. Chen, and Y.-Q. Li
- 313 Gas in the Liver**
O. Dasa, M. K. Moroi, and M. Ruzieh

ELECTRONIC CLINICAL CHALLENGES AND IMAGES IN GI

For a full list, please see the table of contents online at www.gastrojournal.org.

PRACTICAL TEACHING CASES

- 315 Is it a Tumor or a Polyp? A Rare Cause of Adult Ileocecal Intussusception**
M. Alawad, M. G. Centeno, and J. Zeng
- 318 An 8-Year History of Increased Level of Aspartate Aminotransferase**
S. M. Shah-Khan, W. Hsueh, and G. J. Reynolds

CLINICAL PRACTICE GUIDELINE

- 320 Canadian Association of Gastroenterology Clinical Practice Guideline for the Medical Management of Pediatric Luminal Crohn's Disease**
D. R. Mack, E. I. Benchimol, J. Critch, J. deBruyn, F. Tse, P. Moayyedi, P. Church, C. Deslandres, W. El-Matary, H. Huynh, P. Jantchou, S. Lawrence, A. Otle, M. Sherlock, T. Walters, M. D. Kappelman, D. Sadowski, J. K. Marshall, and A. Griffiths

REVIEWS AND PERSPECTIVES

Reviews in Basic and Clinical Gastroenterology and Hepatology

349 Pathogenesis and Cells of Origin of Barrett's Esophagus

J. Que, K. S. Garman, R. F. Souza, and S. J. Spechler

365 Clinical Guide and Update on Porphyrias

U. Stölzel, M. O. Doss, and D. Schuppan

ORIGINAL RESEARCH

Full Reports

Clinical—Alimentary Tract

382 Efficacy of Endoscopic Resection and Selective Chemoradiotherapy for Stage I Esophageal Squamous Cell Carcinoma

K. Minashi, K. Nihei, J. Mizusawa, K. Takizawa, T. Yano, Y. Ezoe, T. Tsuchida, H. Ono, T. Iizuka, N. Hanaoka, I. Oda, Y. Morita, M. Tajika, J. Fujiwara, Y. Yamamoto, C. Katada, S. Hori, H. Doyama, T. Oyama, H. Nebiki, K. Amagai, Y. Kubota, K. Nishimura, N. Kobayashi, T. Suzuki, K. Hirasawa, T. Takeuchi, H. Fukuda, and M. Muto

The combination of diagnostic ER and selective CRT should be considered as a new minimally invasive treatment for clinically suspected submucosal ESCC.

391 Cumulative Effects of Psychologic Distress, Visceral Hypersensitivity, and Abnormal Transit on Patient-reported Outcomes in Irritable Bowel Syndrome

M. Simrén, H. Törnblom, O. S. Palsson, L. Van Oudenhove, W. E. Whitehead, and J. Tack

Increased sensitivity to pain in the intestines, unusually fast or slow passage of contents through the digestive tract, and psychological factors, are all additive contributors to bowel symptoms and impairment in quality of life in IBS.

403 Pantoprazole to Prevent Gastroduodenal Events in Patients Receiving Rivaroxaban and/or Aspirin in a Randomized, Double-Blind, Placebo-Controlled Trial

P. Moayyedi, J. W. Eikelboom, J. Bosch, S. J. Connolly, L. Dyal, O. Shestakovska, D. Leong, S. S. Anand, S. Störk, K. R. H. Branch, D. L. Bhatt, P. B. Verhamme, M. O'Donnell, A. P. Maggioni, E. M. Lonn, L. S. Piegas, G. Ertl, M. Keltai, N. C. Bruns, E. Muehlhofer, G. R. Dagenais, J.-H. Kim, M. Hori, P. G. Steg, R. G. Hart, R. Diaz, M. Alings, P. Widimsky, A. Avezum, J. Probstfield, J. Zhu, Y. Liang, P. Lopez-Jaramillo, A. Kakkar, A. N. Parkhomenko, L. Ryden, N. Pogosova, A. Dans, F. Lanus, P. J. Commerford, C. Torp-Pedersen, T. Guzik, D. Vinereanu, A. M. Tonkin, B. S. Lewis, C. Felix, K. Yusuf, K. Metsarinne, K. A. A. Fox, and S. Yusuf, for the COMPASS Investigators

Routine use of proton pump inhibitor therapy for decreasing the risk of intestinal bleeding is not warranted in most patients starting low dose anticoagulants and/or aspirin. These drugs may be appropriate for patients at high risk of peptic ulcer disease.

413 Progression of Celiac Disease in Children With Antibodies Against Tissue Transglutaminase and Normal Duodenal Architecture

R. Auricchio, R. Mandile, M. R. Del Vecchio, S. Scapaticci, M. Galatola, M. Maglio, V. Discepolo, E. Miele, D. Cielo, R. Troncone, and L. Greco

See editorial on page 293

In potential celiac disease, $\gamma\delta$ infiltration in the first biopsy, age at the diagnosis and individual genetic profile predict the evolution to villous atrophy.

421 Methylation Tolerance-Based Functional Assay to Assess Variants of Unknown Significance in the MLH1 and MSH2 Genes and Identify Patients With Lynch Syndrome

D. Bouvet, S. Bodo, A. Munier, E. Guillermin, R. Bertrand, C. Colas, A. Duval, F. Coulet, and M. Muleris

Many patients who receive genetic testing for cancer risk have genetic differences of unknown significance. A new test helps to distinguish which of these differences actually increases risk for cancer.

432 Development and Validation of a Simplified Magnetic Resonance Index of Activity for Crohn's Disease

www

I. Ordás, J. Rimola, I. Alfaro, S. Rodríguez, J. Castro-Poceiro, A. Ramírez-Morros, M. Gallego, À. Giner, R. Barastegui, A. Fernández-Clotet, M. Masamunt, E. Ricart, and J. Panés

For patients with Crohn's disease, a new clinical tool allows better prediction of who will improve and who will respond to treatment.

440 Crohn's Disease Exclusion Diet Plus Partial Enteral Nutrition Induces Sustained Remission in a Randomized Controlled Trial

E www

A. Levine, E. Wine, A. Assa, R. S. Boneh, R. Shaoul, M. Kori, S. Cohen, S. Peleg, H. Shamaly, A. On, P. Millman, L. Abrams, T. Ziv-Baran, S. Grant, G. Abitbol, K. A. Dunn, J. P. Bielawski, and J. Van Limbergen

See editorial on page 295

A new dietary option, which combines food and enteral nutrition, can help reduce inflammation and symptoms in Crohn's disease.

451 Comparison of Underwater vs Conventional Endoscopic Mucosal Resection of Intermediate-Size Colorectal Polyps

V www

T. Yamashina, N. Uedo, T. Akasaka, T. Iwatsubo, Y. Nakatani, T. Akamatsu, T. Kawamura, Y. Takeuchi, S. Fujii, T. Kusaka, and T. Shimokawa

A new method improves the ability to completely remove large, pre-cancerous colon polyps during colonoscopy.

462 Narrow-Band Imaging for Detection of Neoplasia at Colonoscopy: A Meta-analysis of Data From Individual Patients in Randomized Controlled Trials

www

N. S. S. Atkinson, S. Ket, P. Bassett, D. Aponte, S. De Aguiar, N. Gupta, T. Horimatsu, H. Ikematsu, T. Inoue, T. Kaltenbach, W. K. Leung, T. Matsuda, S. Paggi, F. Radaelli, A. Rastogi, D. K. Rex, L. C. Sabbagh, Y. Saito, Y. Sano, G. M. Saracco, B. P. Saunders, C. Senore, R. Soetikno, K. C. Vemulapalli, V. Jairath, and J. E. East

A special imaging technique that uses certain wavelengths of light at colonoscopy was found to help detect more pre-cancerous polyps; however this only worked when the bowel was as clean as possible.

Clinical—Liver**472 Model to Calculate Harms and Benefits of Early vs Delayed Liver Transplantation for Patients With Alcohol-Associated Hepatitis**

CME www

B. P. Lee, S. Samur, O. O. Dalgic, E. D. Bethea, M. R. Lucey, E. Weinberg, C. Hsu, M. E. Rinella, G. Y. Im, O. K. Fix, G. Therapondos, H. Han, D. W. Victor, M. D. Voigt, S. Eswaran, N. A. Terrault, and J. Chhatwal

A modeling analysis supports early liver transplantation for patients with alcohol-associated hepatitis.

481 Lanreotide Reduces Liver Growth In Patients With Autosomal Dominant Polycystic Liver and Kidney Disease

E www

R. M. M. van Aerts, W. Kievit, H. M. A. D'Agno, C. J. Blijdorp, N. F. Casteleijn, S. E. I. Dekker, J. W. de Fijter, M. van Gastel, T. J. Gevers, L. F. M. van de Laarschot, M. A. Lantinga, M. Losekoot, E. Meijer, A. L. Messchendorp, M. K. Neijenhuis, M. J. Pena, D. J. M. Peters, M. Salih, D. Soonawala, E. M. Spithoven, F. W. Visser, J. F. Wetzels, R. Zietse, R. T. Gansevoort, and J. P. H. Drenth, for the DIPAK-1 Investigators

See editorial on page 298

Lanreotide reduces the long-term growth rate of liver- and kidney volume in patients with polycystic liver- and kidney disease.

Basic and Translational—Alimentary Tract**492 High-Fat Diet Accelerates Carcinogenesis in a Mouse Model of Barrett's Esophagus via Interleukin 8 and Alterations to the Gut Microbiome**

www

N. S. Münch, H.-Y. Fang, J. Ingermann, H. C. Maurer, A. Anand, V. Kellner, V. Sahm, M. Wiethaler, T. Baumeister, F. Wein, H. Einwächter, F. Bolze, M. Klingenspor, D. Haller, M. Kavanagh, J. Lysaght, R. Friedman, A. J. Dannenberg, M. Pollak, P. R. Holt, S. Muthupalani, J. G. Fox, M. T. Whary, Y. Lee, T. Y. Ren, R. Elliot, R. Fitzgerald, K. Steiger, R. M. Schmid, T. C. Wang, and M. Quante

An animal model suggests that a diet rich in fat accelerates the risk of some esophageal tumor, in part by changes in the gut microbiome which increases inflammation.

507 Effects of Serotonin and Slow-Release 5-Hydroxytryptophan on Gastrointestinal Motility in a Mouse Model of Depression

www cov

N. Israelyan, A. Del Colle, Z. Li, Y. Park, A. Xing, J. P. R. Jacobsen, R. A. Luna, D. D. Jensen, M. Madra, V. Saurman, R. Rahim, R. Latorre, K. Law, W. Carson, N. W. Bunnett, M. G. Caron, and K. G. Margolis

This study revealed an important role for neuronal serotonin in linking constipation and depression. Oral slow-release 5-hydroxytryptophan simultaneously restores enteric serotonin and thus may be useful in treating gut dysfunction associated with low serotonin.

522 Extrinsic Primary Afferent Neurons Link Visceral Pain to Colon Motility Through a Spinal Reflex in Mice

www

K. M. Smith-Edwards, S. A. Najjar, B. S. Edwards, M. J. Howard, K. M. Albers, and B. M. Davis

The spinal cord integrates painful and non-painful sensory information arising from the colon. This central pathway is necessary for normal function, but also explains why pain and colon dysmotility (diarrhea or constipation) are often associated in disease states.

Basic and Translational—Liver**537 Combined Analysis of Metabolomes, Proteomes, and Transcriptomes of Hepatitis C Virus-Infected Cells and Liver to Identify Pathways Associated With Disease Development**

E www

J. Lupberger, T. Croonenborghs, A. A. Roca Suarez, N. Van Renne, F. Jühling, M. A. Oudot, A. Virzi, S. Bandiera, C. Jamey, G. Meszaros, D. Brumaru, A. Mukherji, S. C. Durand, L. Heydmann, E. R. Verrier, H. El Saghire, N. Hamdane, R. Bartenschlager, S. Fereshetian, E. Ramberger, R. Sinha, M. Nabian, C. Everaert, M. Jovanovic, P. Mertins, S. A. Carr, K. Chayama, N. Dali-Youcef, R. Ricci, N. M. Bardeesy, N. Fujiwara, O. Gevaert, M. B. Zeisel, Y. Hoshida, N. Pochet, and T. F. Baumert

See editorial on page 300

A multiomics atlas of HCV infection revealed pathways involved in viral and non-viral liver pathologies and uncovers molecular drivers as potential therapeutic targets against liver disease.

552 Endoplasmic Reticulum Stress-Induced Upregulation of STARD1 Promotes Acetaminophen-Induced Acute Liver Failure

www

S. Torres, A. Baulies, N. Insausti-Urkiá, C. Alarcón-Vila, R. Fucho, E. Solsona-Vilarrasa, S. Núñez, D. Robles, V. Ribas, L. Wakefield, M. Grompe, M. I. Lucena, R. J. Andrade, S. Win, T. A. Aung, N. Kaplowitz, C. García-Ruiz, and J. C. Fernández-Checa

Blocking certain biochemical pathways may decrease the risk of acetaminophen-related liver damage.

CONTINUING MEDICAL EDUCATION (CME)/MOC ACTIVITIES**e14 CME Exam 1: Is it a Tumor or a Polyp? A Rare Cause of Adult Ileocecal Intussusception****e16 CME Exam 2: An 8-Year History of Increased Level of Aspartate Aminotransferase****e17 CME Exam 3: Model to Calculate Harms and Benefits of Early vs Delayed Liver Transplantation for Patients With Alcohol-Associated Hepatitis****BRIEF COMMUNICATIONS****569 Remission of Bile Acid Malabsorption Symptoms Following Treatment With the Glucagon-Like Peptide 1 Receptor Agonist Liraglutide***M.
