FIT in Patients With Symptoms of CRC

FIT in Patients With Symptoms of CRC. See article by Mansvelders, et al, page 795 for additional information.

COMMENTARIES

637 The Thing Itself: Medicine as Craft

S. O'Mahony

640 Better Together: Implementing a Multidisciplinary Approach to Optimizing Diagnosis and Management of Crohn's Perianal Fistulas

D. A. Schwartz, A. L. Lightner, T. Aswani-Omprakash, P. G. Kotze, and J. D. Mccurdy

MENTORING, EDUCATION, AND TRAINING CORNER

645 Incorporating a GI Dietitian Into Your GI Practice

K. M. Mintz, M. E. Donnelly, A. Lynett, and W. D. Chey

EDITORIALS

650 Reimagining Liver Cancer Allocation: Defining a New Vision

N. Shah and A. Pillai

See Norman JS et al on page 784.

651 Is Fecal Immunochemical Testing the Right FIT for Patients With Symptoms?

A. H. Calderwood and T. R. Levin

See Mansvelders MSE et al on page 795.

GASTRO CURBSIDE CONSULT

655 Expanding the Diagnostic Toolkit in Chronic Cholestasis

N. Smith, J. Borowsky, and J. A. Thomas

659 A Rare Cause of Liver Injury in an Adult

Z. Dai, Y. Li, and C. Zhu

Cover

Publisher: *Gastroenterology* (ISSN 0016-5085) is published monthly (semi-monthly in April) in two indexed volumes by Elsevier Inc, 230 Park Avenue, New York, NY 10169-0901, USA. Periodicals postage paid at New York, NY and additional mailing offices. POSTMASTER: Send address changes to Elsevier, Journal Returns, 450 Fame Avenue, Hanover, PA 17331, USA. 2025 US subscription rates: individual, \$848.00; student and resident, \$323.00. Outside of the U.S. and possessions: individual, \$1026.00; student and resident, \$596.00; surface delivery, no additional charge; air mail delivery, add \$78.00. Prices subject to change without notice.

663 Tofu-Like Disfiguring Colitis*N. Kai, Z. Lian, and W. Xiaoyan***GASTRO GRAND ROUNDS****667 Evaluation of LI-RADS 3 and 4 Lesions***A. G. Singal, B. Taouli, P. Gopal, F. Kanwal, and N. D. Parikh***REVIEWS IN BASIC AND CLINICAL GASTROENTEROLOGY AND HEPATOLOGY****675 Portal Fibrosis and the Ductular Reaction: Pathophysiological Role in the Progression of Liver Disease and Translational Opportunities***V. Gupta, T. S. Sehwat, M. Pinzani, and M. Strazzabosco***GUIDELINES****691 AGA Living Clinical Practice Guideline on Computer-Aided Detection-Assisted Colonoscopy***S. Sultan, D. L. Shung, J. M. Kolb, F. Foroutan, C. Hassan, C. J. Kahi, P. S. Liang, T. R. Levin, S. M. Siddique, and B. Lebwohl***ORIGINAL RESEARCH****Full Reports****Small Bowel****701 Glepaglutide, a Long-Acting Glucagon-like Peptide-2 Analogue, Reduces Parenteral Support in Patients With Short Bowel Syndrome: A Phase 3 Randomized Controlled Trial***P. B. Jeppesen, T. Vanuytsel, S. Subramanian, F. Joly, G. Wanten, G. Lamprecht, M. Kunecki, F. Rahman, T. S. S. Nielsen, M. Berner-Hansen, U.-F. Pape, and D. F. Mercer*

Glepaglutide, when dosed twice weekly, was effective in reducing or eliminating the need for infusion of liquids or nutrients (ie, parenteral support) in patients with short bowel syndrome.

GI Cancer**714 ERBB2 Comprehensive Profiling and Prognostication in Stage III Colon Cancer: Findings From PETACC8 and IDEA-France Cohorts***C. Pilati, A. Soulaillie, C. Gallois, H. Blons, A. Cayre, M. Sroussi, D. Le Corre, S. Mouillet-Richard, C. Mulot, K. Le Malicot, A. De Reynies, J.-B. Bachet, C. Borg, F. Di Fiore, R. Guimbaud, J. Bennouna, T. André, J. Taieb, F. Penault-Llorca, and P. Laurent-Puig*

The importance of assessing ERBB2 status in colon cancer is highlighted, showing that patients with ERBB2 alterations or low RNA expression face poorer outcomes, which may guide targeted treatment strategies.

725 Effect of an Endoscopy Screening on Upper Gastrointestinal Cancer Mortality: A Community-Based Multicenter Cluster Randomized Clinical Trial*C. Xia, H. Li, Y. Xu, G. Guo, X. Yu, W. Wang, S. Dai, C. Dai, Y. Zhu, K. Jiang, Z. Zhang, J. Hu, G. Song, C. Chen, H. Xiao, Y. Chen, T. Song, S. Yan, B. Song, Y. He, J. Zhou, S. Zhang, and W. Chen*

Endoscopic screening reduced upper gastrointestinal cancer mortality in high-risk areas, whereas in non-high-risk areas, further extensive follow-up was required to confirm the effects.

Inflammatory Bowel Disease**741 Preclinical Protein Signatures of Crohn's Disease and Ulcerative Colitis: A Nested Case-Control Study Within Large Population-Based Cohorts***O. Grännö, D. Bergemalm, B. Salomon, C. M. Lindqvist, C. R. H. Hedin, M. Carlson, K. Dannenberg, E. Andersson, Å. V. Keita, M. K. Magnusson, C. Eriksson, V. Lanka, BIOIBD consortium, P. K. E. Magnusson, M. D'Amato, L. Öhman, J. D. Söderholm, J. Hultdin, R. Kruse, Y. Cao, D. Repsilber, O. Grip, P. Karling, and J. Halfvarson*

This study shows that a combination of proteins measured in blood can be used to predict a future diagnosis of Crohn's disease.

754 Intestinal Epithelial Serotonin as a Novel Target for Treating Disorders of Gut-Brain Interaction and Mood

L. Y. Hung, N. D. Alves, A. Del Colle, A. Talati, S. A. Najjar, V. Bouchard, V. Gillet, Y. Tong, Z. Huang, K. N. Browning, J. Hua, Y. Liu, J. O. Woodruff, D. Juarez, M. Medina, J. Posner, R. Tonello, N. Yalcinkaya, N. Israelyan, R. Ringel, L. Yang, K. W. Leong, M. Yang, J. Y. Sze, T. Savidge, J. Gingrich, R. J. Shulman, M. D. Gershon, A. Ouellet, L. Takser, M. S. Ansorge, and K. G. Margolis

Increased serotonin in the gut epithelium is anxiolytic and antidepressive which is mediated through vagal signaling. Maternal selective serotonin reuptake inhibitor exposure is associated with a risk of developing constipation in the first year of life.

Hepatobiliary**769 A Pangenotypic Hepatitis E Virus Replication Inhibitor With High Potency in a Rat Infection Model**

X. Zhang, M. Klöhn, S. Ouwerkerk-Mahadevan, M. Jagst, L. Vereyken, P. Verboven, Q. Goovaerts, D. Todt, T. H. M. Jonckers, L. Coelmont, H. Fletcher, K. Das, K. Samby, J. Neyts, E. Steinmann, A. Koul, and S. J. F. Kaptein

JNJ-9117 (formerly developed for hepatitis C) exerts potent antiviral activity against hepatitis E virus in relevant cell cultures and a rat model, positioning it as a promising candidate for hepatitis E virus treatment.

784 Model of Urgency for Liver Transplantation in Hepatocellular Carcinoma: A Practical Model to Prioritize Patients With Hepatocellular Carcinoma on the Liver Transplant Waitlist

J. S. Norman, N. Mehta, W. R. Kim, J. W. Liang, S. W. Biggins, S. K. Asrani, J. Heimbach, V. Charu, and A. J. Kwong

See editorial on page 650.

The Model of Urgency for Liver Transplantation in Hepatocellular Carcinoma can be used to prioritize patients with early-stage liver cancer on the liver transplant waitlist and improve the liver transplant allocation system.

RESEARCH LETTERS**795 Use of Fecal Immunochemical Testing for Risk Stratification of Patients With Symptoms of Colorectal Cancer Referred for Diagnostic Colonoscopy**

M. S. E. Mansvelders, J. Kleijf, M. R. Andersen, J. G. Karstensen, and C. Therkildsen

See editorial on page 651.

AGA SECTION**798 Optimizing Bowel Preparation Quality for Colonoscopy: Consensus Recommendations by the US Multi-Society Task Force on Colorectal Cancer**

B. C. Jacobson, J. C. Anderson, C. A. Burke, J. A. Dominitz, S. A. Gross, F. P. May, S. G. Patel, A. Shaukat, and D. J. Robertson
