ORIGINAL INVESTIGATION

1339 Everolimus and Low-Dose Tacrolimus After Heart Transplant in Children: A Randomized Clinical Trial

CS Almond and Coauthors
for the TEAMMATE Trial Investigators

This randomized clinical trial assesses the efficacy and safety of everolimus plus low-dose tacrolimus compared with standard-dose tacrolimus and mycophenolate over 30 months in children with heart transplant.

Visual Abstract

1349 Remote Screening for Asymptomatic Atrial Fibrillation: The AMALFI Randomized Clinical Trial

R Wijesurendra and Coauthors

This randomized clinical trial examines the long-term effect of patch-based continuous ambulatory electrocardiogram monitoring on the diagnosis of atrial fibrillation in older adults with moderate to high risk of stroke.

Visual Abstract

PRELIMINARY COMMUNICATION

1358 Single Treatment With MM120 (Lysergide) in Generalized Anxiety Disorder: A Randomized Clinical Trial

R Robison and Coauthors

This randomized clinical trial assesses the dose-response relationship of MM120 (lysergide D-tartrate) vs placebo in adults with moderate to severe generalized anxiety disorder.
