

ULTRASOUND

in Obstetrics & Gynecology

Editor-in-Chief: Professor Anthony Odibo

The Official Journal of
the International Society of Ultrasound
in Obstetrics and Gynecology

CONTENTS

OPINION

- 167 Sonographer interaction with artificial intelligence: collaboration or conflict?
T. G. Day, J. Matthew, S. Budd, J. V. Hajnal, J. M. Simpson, R. Razavi and B. Kainz

SYSTEMATIC REVIEW

- 175 Corpus callosal reference ranges: systematic review of methodology of biometric chart construction and measurements obtained
R. Corroenne, D. Grevent, G. Kasprian, J. Stirnemann, Y. Ville, H. Mahallati and L. J. Salomon

STATE-OF-THE-ART REVIEW

- 185 Use of artificial intelligence and deep learning in fetal ultrasound imaging
R. Ramirez Zegarra and T. Ghi

ORIGINAL PAPERS

- 195 Prediction of adverse perinatal outcome at midgestation
I. Papastefanou, E. Gyokova, B. Gungil, A. Syngelaki and K. H. Nicolaides
- 202 External validation of Fetal Medicine Foundation competing-risks model for midgestation prediction of small-for-gestational-age neonates in Spanish population
G. Albaiges, I. Papastefanou, I. Rodriguez, P. Prats, M. Echevarria, M. A. Rodriguez and A. Rodriguez Melcon
- 209 Implication of third-trimester screening accuracy for small-for-gestational age and additive value of third-trimester growth-trajectory indicators in predicting severe adverse perinatal outcome in low-risk population: pragmatic secondary analysis of IRIS study
M. van Roekel, J. Henrichs, A. Franx, C. J. Verhoeven and A. de Jonge
- 219 Uterine artery Doppler in early labor and perinatal outcome in low-risk term pregnancy: prospective multicenter study
A. Dall'Asta, F. Figueras, G. Rizzo, R. Ramirez Zegarra, G. Morganelli, M. Giannone, A. Cancemi, I. Mappa, C. Lees, T. Frusca and T. Ghi
- 226 Corpus callosum–fastigium and tectal lengths in late-onset small fetuses
D. L. Lip-Sosa, M. Pérez-Cruz, P. Ahumada-Droguett, T. Ribas-Prats, M. Puertollano, M. A. García-Gómez, E. Mazarico, E. Eixarch, C. Escera and M. D. Gómez-Roig
- 234 First-trimester choroid-plexus-to-lateral-ventricle disproportion and prediction of subsequent ventriculomegaly
S. Prasad, C. Di Fabrizio, N. Eltaweel, E. Kalafat and A. Khalil
- 241 Diffusion tensor imaging of fetal spinal cord: feasibility and gestational-age-related changes
R. Corroenne, D. Grevent, H. Mahallati, G. Gauchard, L. Bussieres, Y. Ville and L. J. Salomon
- 248 Peripheral cord insertion is associated with adverse pregnancy outcome only when accompanied by clinically significant placental pathology
D. Stapleton, A. Darmonkowi, A. Ravi Chandran, N. Milligan, R. Saghian, S. Shinar, C. L. Whitehead, S. R. Hobson, L. Serghides, C. K. Macgowan, J. G. Sled, J. C. Kingdom, A. A. Baschat, W. T. Parks and L. S. Cahill
- 255 Acute fetal cardiovascular adaptation to artificial placenta in sheep model
S. Sanchez-Martinez, P. C. Randanne, A. Hawkins-Villarreal, K. Rezaei, R. Fucho, S. Bobillo-Perez, E. Bonet-Carne, M. Illa, E. Eixarch, B. Bijmens, F. Crispí, E. Gratacós and Collaborators
- 266 Incidence of sex chromosome aneuploidy in a prenatal population: 27-year longitudinal study in Northern Italy
C. A. Samango-Sprouse, F. R. Grati, M. Brooks, M. P. Hamzik, K. Khaksari, A. Gropman, A. Taylor, F. Malvestiti, B. Grimi, R. Liuti, S. Milani, S. Chinetti, A. Trotta, C. Agrati, E. Repetti and K. A. Martin
- 273 Prediction of preterm birth by measurement of cervical length on transvaginal ultrasound and magnetic resonance imaging in pregnancies complicated by twin–twin transfusion syndrome and treated with laser surgery
R. Fresch, B. Forde, M. Habli, H. Masters, S. Tabbah, D. McKinney and E. A. DeFranco
- 279 Imaging in gynecological disease (25): clinical and ultrasound characteristics of intramural pregnancy
S. Nijjar, C. Bottomley, E. Jauniaux and D. Jurkovic
- 290 Visualization of sacral nerve roots and sacral plexus on gynecological transvaginal ultrasound: feasibility study
G. Szabó, I. Madár, G. Hudelist, Z. Arányi, K. Turtóczki, J. Rigó Jr, N. Ács, L. Lipták, V. Fancsovits and A. Bokor

LETTERS TO THE EDITOR

- 300 Prenatal sonographic phenotype of Raine syndrome: detection of novel FAM20C gene mutation at 20 weeks
A. Andrews, S. B. Nair and D. Singh
- 302 Fetal magnetic resonance imaging artifacts: role of deep learning to improve imaging
H. Werner, I. Félix Santos, G. A. Giraldo, J. Lopes, G. Ribeiro and F. P. Lopes
- 303 Association between uterine artery Doppler in early spontaneous labor and adverse peripartum outcome in relation to birth weight
A. Dall'Asta, R. Ramirez Zegarra, F. Figueras, G. Rizzo, C. Lees, T. Frusca and T. Ghi

CORRESPONDENCE

- 305 Does fetal cerebral magnetic resonance imaging have additional value in cytomegalovirus fetopathy with normal neurosonography?
L. Guibaud and M. Massoud
- 306 Reply: Neurosonography and magnetic resonance imaging for cytomegalovirus infection – integration of imaging modalities is key
F. D'Antonio, D. Di Mascio and G. Rizzo, on behalf of the European NeuroSONography (ENSO) Working Group

PICTURE OF THE MONTH

- 308 Unleashing the AI revolution: exploring the capabilities and challenges of large language models and text-to-image AI programs
A. Youssef
