

ULTRASOUND

in Obstetrics & Gynecology

Editor-in-Chief: Professor Anthony Odibo

The Official Journal of
the International Society of Ultrasound
in Obstetrics and Gynecology

CONTENTS

OPINION

- 293 Redefining pre-eclampsia as Type I or II: implementing an integrated model of the maternal-cardiovascular-placental-fetal array
S. Yagel, S. M. Cohen, D. Goldman-Wohl and O. Beharier

SYSTEMATIC REVIEWS

- 302 Idiopathic polyhydramnios and pregnancy outcome: systematic review and meta-analysis
M. Pagan, E. F. Magann, N. Rabie, S. C. Steelman, Z. Hu and S. Ounpraseuth
- 310 Diagnostic accuracy of ultrasound signs for detecting adnexal torsion: systematic review and meta-analysis
I. Garde, C. Paredes, L. Ventura, M. A. Pascual, S. Ajossa, S. Guerriero, J. Vara, M. Linares and J. L. Alcázar

ORIGINAL PAPERS

- 325 Cost-effectiveness of ultrasound before non-invasive prenatal screening for fetal aneuploidy
A. N. Battarbee, N. L. Vora, E. E. Hardisty and D. M. Stamilio
- 333 Atypicality index: avoiding false reassurance in prenatal screening
S. E. Kristensen, K. Gadsbøll, K. H. Nicolaidis, I. Vogel, L. H. Pedersen, A. Wright, O. B. Petersen and D. Wright
- 339 Prenatal exome sequencing and impact on perinatal outcome: cohort study
B. Poljak, U. Agarwal, Z. Alfirevic, S. Allen, N. Canham, J. Higgs, A. Kaelin Agten, A. Khalil, D. Roberts, F. Mone and K. Navaratnam
- 346 Fetal cardiac and neonatal cerebral hemodynamics and oxygen metabolism in transposition of the great arteries
L. Charbonneau, R. A. Chowdhury, B. Marandyuk, R. Wu, N. Poirier, J. Miró, A.-M. Nuyt, M.-J. Raboisson and M. Dehaes
- 356 Characteristics associated with antenatally unidentified small-for-gestational-age fetuses: prospective cohort study nested within DESiGN randomized controlled trial
S. Relph, M. C. Vieira, A. Copas, A. Alagna, L. Page, C. Winsloe, A. Shennan, A. Briley, M. Johnson, C. Lees, D. A. Lawlor, J. Sandall, A. Khalil and D. Pasupathy, on behalf of the DESiGN Trial Team and DESiGN Collaborative Group
- 367 Predictive index for adverse perinatal outcome in pregnancies complicated by fetal growth restriction
J. E. Powel, E. W. Zantow, M. F. Bialko, L. G. Farley, M. L. Lawlor, S. J. Mullan, L. K. Vricella and T. M. Tomlinson

- 377 Definitions matter: detection rates and perinatal outcome for infants classified prenatally as having late fetal growth restriction using SMFM biometric vs ISUOG/Delphi consensus criteria
V. Schreiber, C. Hurst, F. da Silva Costa, R. Stoke, J. Turner and S. Kumar

- 386 Vascular phenotype at 35–37 weeks' gestation in women with gestational diabetes mellitus
T. Mansukhani, A. Arechvo, F. Cecchini, M. Breim, A. Wright, K. H. Nicolaidis and M. Charakida

- 392 Prevalence of and risk factors for failure of fetal magnetic resonance imaging due to maternal claustrophobia or malaise
V. Dütemeyer, M. M. Cannie, D. A. Badr, C. Kadji, A. Carlin and J. C. Jani

- 399 Lower uterine segment thickness assessed by transvaginal ultrasound before labor induction: reproducibility analysis and relationship with delivery outcome
A. Del Campo, A. Aiartzagüena, B. Suárez, A. Rodríguez, L. Rodríguez and J. Burgos

- 408 Using IOTA terminology to evaluate fetal ovarian cysts: analysis of 51 cysts over 10-year period
A. Romiti, F. Moro, L. Ricci, C. Codeca, F. Pozzati, M. Viggiano, R. Vicario, I. Fabietti, G. Scambia, P. Bagolan, A. C. Testa and L. Caforio

LETTERS TO THE EDITOR

- 415 Evaluation of cerebellar vermis at 12–22 weeks of gestation: why is traditional assessment incorrect?
P. Volpe, V. De Robertis, G. Volpe, C. Olivieri, T. Fanelli, S. Boito and N. Persico
- 417 'Turkish turban' sign: rare phenotype of acrania-exencephaly-anencephaly sequence
G. Tonni, G. Grisolia, G. Rizzo, R. Ruano and W. Sepulveda
- 418 Predictive accuracy of early mid-trimester placental markers for recurrence of placenta-mediated pregnancy complications
E. Ashwal, K. McLaughlin, N. Melamed, A. Ravichandran, K. Ellul, S. R. Hobson, R. C. Windrim and J. C. Kingdom

PICTURE OF THE MONTH

- 421 Prenatal diagnosis and characterization of extra-axial, supratentorial pial arteriovenous malformation using high-resolution transvaginal neurosonography
E. Bornstein, F. A. Chervenak, P. Kulla, K. Delaney and I. E. Timor-Tritsch
