

ULTRASOUND

in Obstetrics & Gynecology

Editor-in-Chief: Professor Anthony Odibo

The Official Journal of
the International Society of Ultrasound
in Obstetrics and Gynecology

CONTENTS

OPINION

- 285 Fetal intraventricular hemorrhage and periventricular hemorrhagic venous infarction: time for dedicated classification system
E. Hadi, L. Haddad, M. Levy, L. Gindes, M. Hausman-Kedem, H. Bassan, L. Ben-Sira, S. Libzon, E. Kassif, C. Hoffmann, Z. Leibovitz, G. Kasprian and T. Lerman-Sagie

SYSTEMATIC REVIEW

- 294 Maternal prepregnancy weight as an independent risk factor for congenital heart defect: systematic review and meta-analysis stratified by subtype and severity of defect
N. Salmeri, A. Seidenari, P. I. Cavorotto, M. Papale, M. Candiani and A. Farina

ORIGINAL PAPER

- 308 Long-term cardiovascular assessment of women with previous pregnancy complicated by hypertensive disorder
S. Dimopoulou, D. Neculcea, I. Papastefanou, A. Galan, K. H. Nicolaides and M. Charakida
- 314 Stage-based recipient and donor outcome in twin-to-twin transfusion syndrome treated by fetoscopic laser surgery using Solomon technique
I. Kyvernitakis, M. Rosner, A. Birk, L. Goodman, L. Herlands, P. Wohlmut, M. Laurie, S. Millard, M. Kush, J. Miller and A. A. Baschat
- 322 B-flow/spatiotemporal image correlation M-mode ultrasound provides novel method to quantify spiral artery remodeling during normal human pregnancy
O. M. Turan, Y. Liang, B. Kelley, S. Turan, G. J. Pepe and E. D. Albrecht
- 330 Trimester-specific association between fetal growth and physical activity in pregnant women: total physical activity vs moderate-to-vigorous exercise
J. Hu, Y. Ma, M. Sun, N. Wan, B. Liu, L. Zheng, C. Liu, C. Qiao, J. Wei and D. Wen
- 339 Postnatal outcome following fetal aortic valvuloplasty for critical aortic stenosis
R. Corroenne, M. Meot, L. J. Salomon, I. Szezepanski, H. Baghdadi, B. Stos, M. Levy, J. Le Bidois, D. Laux, R. Gaudin, O. Raissy, Y. Ville, D. Bonnet, J. Stirnemann and S. Malekzadeh-Milani
- 348 Predictive capacity of fetal pancreatic circumference for gestational diabetes mellitus
Y. Gilboa, Y. Geron, S. Perlman, L. Drukker, K. Ofir, A. Ellert, R. Bardin, R. Achiron and Z. Kivilevitch
- 354 Observed-to-expected lung-area-to-head-circumference ratio on ultrasound examination vs total fetal lung volume on magnetic resonance imaging in prediction of survival in fetuses with left-sided diaphragmatic hernia
V. Dütemeyer, T. Schaible, D. A. Badr, A.-G. Cordier, M. Weis, A. Perez-Ortiz, D. Carriere, M. M. Cannie, A. Vuckovic, N. Persico, G. Cavallaro, V. Houfflin-Debarge, E. Carreras, A. Benachi and J. C. Jani
- 362 MRI analysis of neurodevelopmental anatomy in myelomeningocele: prenatal vs postnatal repair
A. K. Bruzek, G. M. Koller, S. Karuparti, K. Varagur, A. Dunbar, T. M. Flanders, M. Mingo, K. Sudanagunta, K. H. Bligard, A. Odibo, J. Vrecenak, A. Mian and J. M. Strable

- 374 Anchoring device to prevent membrane detachment and preterm prelabor rupture of membranes after fetal intervention
E. P. Bergh, L. K. Mann, J. H. Won, A. Nobles, A. Johnson and R. Papanna
- 381 Molecular autopsy for fetal structural anomaly: diagnostic and clinical utility of multidisciplinary team approach
E. Wall, E. Petley, F. Mone, S. Doyle, L. Hartles-Spencer, S. K. Allen, J. Castleman, T. Marton and D. Williams
- 388 Immediate application of frozen-thawed embryo transfer cycle in month following COVID-19 recovery does not impair ongoing pregnancy outcome
Q. Xu, X. Mao, J. Zhang and L. Wu
- 395 Validation of ADNEX and IOTA two-step strategy and estimation of risk of complications during follow-up of adnexal masses in low-risk population
M. A. Pascual, L. Vancraeynest, S. Timmerman, J. Ceusters, A. Ledger, B. Graupera, I. Rodriguez, B. Valero, C. Landolfo, A. C. Testa, T. Bourne, D. Timmerman, L. Valentin, B. Van Calster and W. Froyman
- 405 Ultrasound study of natural progression of ovarian endometrioma
J. Knez, E. Bean, S. Nijjar, D. Mavrelos and D. Jurkovic

HOW TO...

- 412 How to perform standardized sonographic examination of Cesarean scar pregnancy in the first trimester
C. Verberkt, I. P. M. Jordans, T. Van den Bosch, D. Timmerman, T. Bourne, R. A. de Leeuw and J. A. F. Huirne

LETTER TO THE EDITOR

- 419 Clinical application of intraoperative ultrasound for management of placenta accreta spectrum disorder: prospective study
M. M. Okido, A. C. Marcolin, P. P. S. Melli, F. M. M. Bernardo, R. C. Cavalli and C. M. Coutinho
- 422 Hydatidiform mole identification using non-invasive single-cell sequencing of fetal circulating extravillous trophoblasts isolated from maternal blood
C. Mangano, A. Doffini, C. Forcato, S. Boito, D. Lattuada, E. D. Giovannone, G. Buson, J. Hyett, T. J. Musci and F. R. Grati
- 424 Transplacental therapy with sirolimus for non-tuberous sclerosis rhabdomyoma in fetus
J. Griesman, V. Guerra, L. Sun, K. Chong and L. Freud
- 426 Pilot study of machine learning for detection of placenta accreta spectrum
Y. Zhang, S. C. Ellestad, J. B. Gilner, A. Pyne, B. K. Boyd, M. A. Mazurowski and L. A. Gatta

PICTURE OF THE MONTH

- 428 Prenatal imaging of medullary veins of fetal central nervous system: role of novel Doppler tools highly sensitive for low-velocity flow and 3D Doppler technology
A. Dall'Asta, G. Grisolia and T. Ghi
