

ULTRASOUND

in Obstetrics & Gynecology

Editor-in-Chief: Professor Anthony Odibo

The Official Journal of
the International Society of Ultrasound
in Obstetrics and Gynecology

CONTENTS

OPINION

- 417 How to get the most from axial views of the fetal brain: applying the principles of neurosonography to screening examination of the supratentorial central nervous system
L. Della Valle, G. Piliu, A. Khalil, G. Rizzo, R. Pooh, A. Galindo, G. Grisolia, J. R. Duncan, I. E. Timor-Tritsch and F. D'Antonio

SYSTEMATIC REVIEW

- 435 Retinal imaging in pre-eclamptic pregnancy: systematic review
D. Kitmiridou, I. Mitrogiannis, M. Charakida and K. H. Nicolaides
- 444 Perinatal and maternal outcomes of extremely early-onset fetal growth restriction (≤ 26 weeks): systematic review and meta-analysis
M. Piergiani, L. Della Valle, A. Khalil, G. Rizzo, I. Mappa, C. Villalain, I. Herraiz, A. Galindo and F. D'Antonio

ORIGINAL ARTICLE

- 455 Predictive value of gB2 antibodies for maternal-fetal transmission after primary cytomegalovirus infection treated with valacyclovir
K. O. Kagan, A. L. Bissinger, O. Roth, J. Sonek, M. Hoopmann, Y. Ville and M. Enders
- 461 Perinatal outcomes of twin pregnancies complicated by early twin-to-twin transfusion syndrome treated with fetoscopic laser surgery
F. G. Sileo, A. Khalil, J. Binder, E. Brunelli, N. Chianchiano, C. M. Coutinho, F. D'Antonio, M. Döbert, A. Fichera, Y. Gielchinsky, K. Hecher, C. Iacovella, S. Malone, A. Martinez-Varea, L. N. Nørgaard, C. Rodo, T. Simões, F. Slaghekke, Y. Yim and Collaborators
- 470 Brain injury in twin anemia-polycythemia sequence: prevalence, severity and long-term neurodevelopmental outcome
M. Rondagh, J. W. van der Spoel, E. Lopriore, J. A. Spekman, L. S. de Vries, J. M. M. van Klink, L. S. A. Tollenaar, F. Slaghekke, S. J. Steggerda and S. G. Groene
- 482 Angiogenic factors and fetal Doppler for predicting adverse pregnancy outcome in early-onset small fetuses with and without pre-eclampsia
E. Bonacina, M. Armengol-Alsina, A. Casellas, M. Dalmau, P. Diaz, E. Roldán, J. Temprado, M. Duaso, Q. Ampurdanes, M. San José, T. Armengol, Z. Lizarraga, N. Maiz and M. Mendoza
- 492 Placental insufficiency markers to assess the risk of non-chromosomal genetic conditions in early-onset fetal growth restriction
M. Armengol-Alsina, E. Bonacina, M. Dalmau, J. Temprado, I. Valenzuela, M. Codina-Solà, M. Viñas-Jornet, C. Rodó, M. Mendoza and Collaborators
- 500 Single-cell-based non-invasive screening for fetal pathogenic microimbalances using maternal blood: comparison with invasive prenatal diagnosis
T. Stampalija, C. Forcato, F. R. Grati, P. Volpe, V. De Robertis, C. Izzi, E. Bertucci, I. Fabietti, A. Novelli, S. Orzaghi, L. Pasquini, E. Bevilacqua, D. Paladini, T. Ghi, D. Lattuada, M. Dori, D. Mercatelli, A. Dal Molin, G. Buson, C. Bolognesi, A. Doffini, T. J. Musci, E. Ferrazzi and Collaborators

- 510 Fetal cardiac remodeling in second trimester in pregnancies with pre-eclampsia and/or fetal growth restriction: deep-learning-based approach using population-wide data
C. A. Taksoe-Vester, K. Mikolaj, O. B. Petersen, C. K. Ekelund, N. G. Vejstrup, C. Vedel, A. N. Christensen, A. Feragen, M. Nielsen and M. G. Tolsgaard
- 519 Developing and validating ultrasound-based machine-learning models incorporating radiomics features to predict malignancy in adnexal masses
F. Moro, M. Ciancia, S. di Berardino, G. Baldassari, F. Mascilini, F. Ciccarone, C. Nero, H. E. Tran, T. Pasciuto, L. Boldrini, D. Giannarelli, A. Ledger, T. Bourne, W. Froyman, D. Timmerman, L. Valentin, A. Fagotti and A. C. Testa
- 530 Radiomics-based ultrasound Model for differentiating Uterine Sarcomas from leiomyomas (ROMUS): a retrospective pilot Multicenter Italian Trials in Ovarian Cancer (MITO) study
F. Ciccarone, A. Rizzi, A. Biscione, G. Baldassari, E. H. Tran, T. Pasciuto, F. Moro, G. Zinicola, F. Buonomo, M. Colombin, F. Ghezzi, J. Casarin, R. Mancari, F. Borella, A. Kardhashi, M. Roccio, L. Savelli, R. Cioffi, F. Fanfani, G. Ferrandina, G. Scambia, L. Valentin, D. Lorusso and A. C. Testa
- 542 Simulator-based assessment of obstetric and gynecological ultrasound skills: validity of three different simulators and feasibility of remote evaluation
G. Rameh, D. M. Gallo, R. Corroenne, N. Helou, I. Aboujaoude, S. Seshadri, J. E. Tolosa and G. Chalouhi

LETTER TO THE EDITOR

- 548 Placental growth factor for pre-eclampsia screening before 11 weeks' gestation
R. López-Mármol, J. A. Ávila-Cabreja, O. Ocón-Hernández, O. González, F. Figueras and F. S. Molina
- 551 Prenatal diagnosis of fetal diffuse hemangiomatosis: the central role of genetic counseling
M. Fiorentini, G. Lanzoni, A. Micciche, A. Youssef, G. Simonazzi and E. Montaguti
- 554 Intrapericardial congenital diaphragmatic hernia: three-dimensional reconstruction
C. V. Barreto Farias, M. d. F. Pereira Leite, M. E. Lopes Moreira, F. M. Peixoto Filho, G. Ribeiro and H. Werner

CORRESPONDENCE

- 556 Bimanual uterine flexion maneuver during transvaginal sonography: optimizing the endometrial angle of insonation
L. Diaz, B. Zambrano and F. Viñals
- 558 Reply
S. Nijjar and D. Jurkovic

PICTURE OF THE MONTH

- 560 Actinomyces-associated cervical lesion detected on ultrasound
F. Banken, K. Dewilde and T. Van den Bosch
